February in Room 143

Instructional Focus

This month of February we will continue working on answering explicit questions following reading an adapted text. We will focus on answering ***what*** and *who* questions. We will also work on identifying events in a text that are related to the theme or central idea.

In Math, we will be matching two similar geometric shapes using tangible and concrete objects.

We will have fun learning about heredity in Science. We will do an activity on how to extract DNA from a strawberry.

Community Based Instruction - CBI
