Office of the Superintendent of Schools MONTGOMERY COUNTY PUBLIC SCHOOLS Rockville, Maryland

November 11, 2020

MEMORANDUM

To:	Members of the Board of Education
From:	Jack R. Smith, Superintendent of Schools
Subject:	Independent Activity Funds Data Report (FMC-09-21-20-07)

Question

Ms. Dixon requested that the Independent Activity Funds Data Report for the Fiscal Year 2020 be shared with principals.

Response

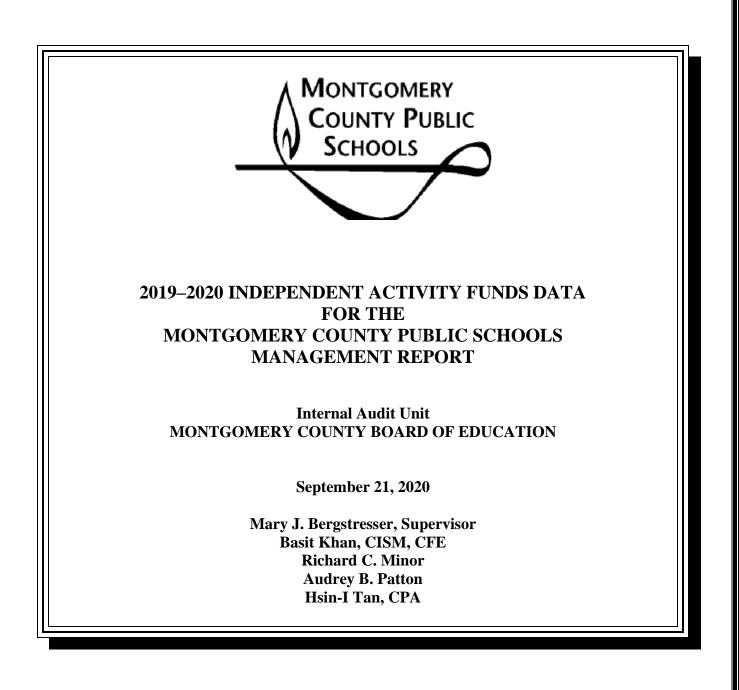

Staff in the Internal Audit Unit prepares the Independent Activity Funds Data Report each fiscal year and presents it to the Board of Education's Fiscal Management Committee. This report includes the total amount of assets held by all schools and the revenue generated and expended by the schools. The data report (Attachment 1) also includes graphs (Attachment 2) that compare receipts to disbursements by individual high schools and middle schools, and total cash as of June 30, 2020. This data report will be shared with all principals in the near future.

If you have questions, please contact Mr. Daniel K. Marella, associate superintendent of finance, via e-mail.

FY 2020 INDEPENDENT ACTIVITY FUND DATA FOR THE MONTGOMERY COUNTY PUBLIC SCHOOLS

Abstract

For school year 2019–2020, Montgomery County Public Schools (MCPS) had 50,432 students enrolled in 25 high schools, 37,637 enrolled in 40 middle schools, 76,475 enrolled in 135 elementary schools, 438 enrolled in 5 special schools, and 126 enrolled in alternative programs. These schools and alternative programs are supported by appropriations of county tax revenues, as well as federal and state government appropriations and grants from private organizations. In addition, each school is supported by Independent Activity Funds (IAFs), which also are reported with the fiduciary funds in the MCPS, *Comprehensive Annual Financial Report* (CAFR) under the category of agency funds. Generally Accepted Accounting Principles (GAAP) define these funds as "held in an agency capacity for others." Use of agency funds is expressly limited, and they cannot be used to support the government's own programs.¹

IAFs of MCPS are established to promote the general welfare, education, and morale of students, as well as to finance the recognized extracurricular activities of the student body. Principals are the fiduciary agents for the IAFs charged with determining the manner in which funds are raised and expended for activities such as field trips, admission events, and fund-raisers. They are responsible for ensuring that IAFs are administered in accordance with the Board of Education policies, MCPS regulations, and procedures. Unless ownership is otherwise designated, IAFs of the school are held for the benefit of the student body currently enrolled in the school. Annual financial reports for all MCPS IAFs are submitted to the Internal Audit Unit (IAU) following the conclusion of each fiscal year. Data consisting of assets, liabilities, and fund balances are extracted from these reports and compiled for analysis.

Many schools have parent groups, such as Parent Teachers Associations (PTA) or booster clubs, which derive revenues associated with school activities. Financial activities of PTAs are governed by *Cash Encounters: A Maryland PTA Guide for Money Management*, while most booster clubs are organized more informally and are governed by their own local bylaws as well as the MCPS *High School Athletics Handbook* which is revised annually. These groups should maintain their own organizational bank accounts because they are not allowed to deposit funds into school IAF bank accounts. However, these parent groups may provide grants or donations to schools. As with all other IAF expenditures, schools must comply with policies and regulations when procuring goods and services using funds received from these organizations.

Cash receipts consist of the money collected for IAF programs and are to be deposited into the school's checking account on a daily basis. Most receipts are derived either directly from students or indirectly from their participation in activities. Receipts may consist of fees for allowable course-related expenses, parking permits, field trips, dances, vending machine commissions, school pictures, admissions to drama productions and athletic competitions, and a variety of other student fund-raising activities. Each school is required to inform parents and students of any course-related fees. Course-related fees are limited to expenses for food consumed by a student

¹ Governmental Accounting Standards Board Statement No. 34, paragraph 69

as part of a course, materials that become a product that belongs to the student, and personal items that become the student's property.

Cash disbursements are monies paid out by the schools for IAF programs and activities. Field trip expenses include buses, admission fees, and substitute teachers. Other purchases of goods and services that enhance the curricular and extracurricular experiences for students may include athletic clothing, equipment, and fund-raising products. The overall policy guiding the purchase of supplemental materials for students is MCPS Policy JNA, *Curricular Expenses for Students*. The purpose of this policy is to ensure that MCPS provides all students, regardless of their economic circumstances, with full access to all courses, the instructional materials required for those courses, and the instructional program.

The IAFs are deposited into and disbursed from a checking account maintained by each school. The Centralized Investment Fund (CIF) provides a vehicle for schools to invest checking account funds that may not be needed in the next 30 days in order to achieve a greater rate of return while protecting principal. Established in 1981, the fund is governed by an Advisory Council made up of representatives from participating schools. Effective April 1, 2011, MCPS began a partnership with Sandy Spring Bank for investment of the funds providing a guarantee of returns tied to the return of two-year treasury notes. Interest and expenses are posted to individual school accounts each month. There are no minimum deposits or required minimum balances. Interest is earned from the day of deposit to the day of withdrawal. Funds are available when needed. Deposits into and withdrawals from the CIF are processed via Automated Clearing House (ACH) transactions that electronically transmit funds directly between a school's CIF account and its checking account. Effective July 1, 2015, the responsibility of CIF fund coordinator was transferred from a contracted MCPS employee to the Division of Controller. As of June 30, 2020, the fund had deposits totaling approximately \$10 million from 200 programs and schools. This fund is audited every year with the results reported to the superintendent of schools and the CIF Advisory Council.

As of June 30, 2020, the CIF interest rate was 0.60 percent. That is 80 basis points lower than the interest rate of 1.40 percent as of June 30, 2019. Any changes in the interest rate are due to economic factors beyond the control of the CIF Advisory Council.

In Fiscal Year (FY) 2020, MCPS schools generated \$25,576,867 in total IAF revenues while expending \$25,332,695. Total assets in the IAF, as of June 30, 2020, were \$17,724,305, an increase of \$705,511 from the previous fiscal year. MCPS schools invested \$9,967,505, or 56 percent of total IAF assets in the CIF.

Although elementary, secondary, and special school data are included in this report, only secondary school data are depicted graphically in the appendices. It should be noted that the "Petty Cash or Escheat" column in the appendices spreadsheets includes the total of these cash and escheat amounts for a school. Escheat is the process of transferring to the MCPS controller any funds from school checks that have not been negotiated by the payee after 180 days since being issued. The MCPS controller, in turn, transfers the funds to the Comptroller of Maryland who records them in the state unclaimed property database. Consequently, a negative amount in this column indicates that a school has checks on hand to be escheated.

High School Data

High schools held approximately 53 percent of all IAF assets for FY 2020. Total high school assets increased \$1,064,101, from \$8,394,864 to \$9,458,965, compared to the previous fiscal year. Total high school IAF receipts decreased \$2,794,125, from \$19,876,288 to \$17,082,163 while total disbursements decreased \$4,038,413, from \$20,434,739 to \$16,396,326, compared to the previous fiscal year.

For FY 2020, high school CIF balances increased \$149,764, from \$5,407,725 to \$5,557,489, compared to the previous fiscal year.

It should be noted that Thomas Edison High School of Technology was not included in this data. The school's IAF does not reflect typical transactions processed at the high school level. In FY 2020, the school's extracurricular activity receipts decreased \$30,812, from \$94,219 to \$63,407, while total disbursements decreased \$46,474, from \$116,463 to \$69,989, compared to the previous fiscal year. The school's CIF balance decreased \$9,555, from \$49,518 to \$39,963, compared to the previous fiscal year.

Middle School Data

Middle schools held approximately 19 percent of all IAF assets for FY 2020. Total middle school assets decreased \$188,789, from \$3,552,563 to \$3,363,774, compared to the previous fiscal year. Total middle school IAF receipts decreased \$2,231,564, from \$6,699,200 to \$4,467,636 while total disbursements decreased \$1,968,799, from \$6,675,415 to \$4,706,616 compared to the previous fiscal year.

For FY 2020, middle school CIF balances decreased \$101,053, from \$2,162,188 to \$2,061,135, compared to the previous fiscal year.

Elementary School Data

Elementary schools held approximately 27 percent of all IAF assets for FY 2020. Total elementary school assets decreased \$158,019, from \$4,893,565 to \$4,735,546, compared to the previous fiscal year. Total elementary school IAF receipts decreased \$2,269,441, from \$6,147,580 to \$3,878,139 while total disbursements decreased \$2,158,304, from \$6,223,178 to \$4,064,874 compared to the previous fiscal year.

For FY 2020, elementary school CIF balances decreased \$34,370, from \$2,292,166 to \$2,257,796, compared to the previous fiscal year.

Special School Data

Special schools held approximately one percent of all IAF assets for FY 2020. Total special school assets decreased \$8,069, from \$119,619 to \$111,550, compared to the previous fiscal year. Total special school IAF receipts decreased \$31,257, from \$116,780 to \$85,523 while total disbursements decreased \$33,160 from \$128,050 to \$94,890 compared to the previous fiscal year.

For FY 2020, special school CIF balances decreased \$13,280, from \$64,402 to \$51,122, compared to the previous fiscal year.

Conclusion

The dollar amount of receipts and disbursements varies from school to school as well as from year to year within the same school. Regardless of the amount of receipts and disbursements, proper management of the IAF is a significant responsibility. Good stewardship involves the safeguarding of the students' funds and prudent expenditures thereof. It should be noted that disbursements, primarily personal in nature for the benefit of school employees, are prohibited uses of IAFs unless the funds for these purposes are derived solely from non-student generated sources. Disbursements for meeting refreshments and staff appreciation within the limitations authorized by the associate superintendent of finance are an exception.

The IAU regularly conducts IAF audits to evaluate compliance with Board of Education policies, MCPS regulations, and procedures, and to review processes for continuous improvement. Generally accepted audit procedures guide the work of the auditors who examine samples of IAF records and financial accounts selected from documentation of various activities to verify their accuracy, as well as to assess the effectiveness of financial control procedures. An IAF audit does not review every transaction or school activity but seeks to provide reasonable assurance that there is compliance with policies, regulations and procedures, and that any significant errors or omissions in the financial records are detected.

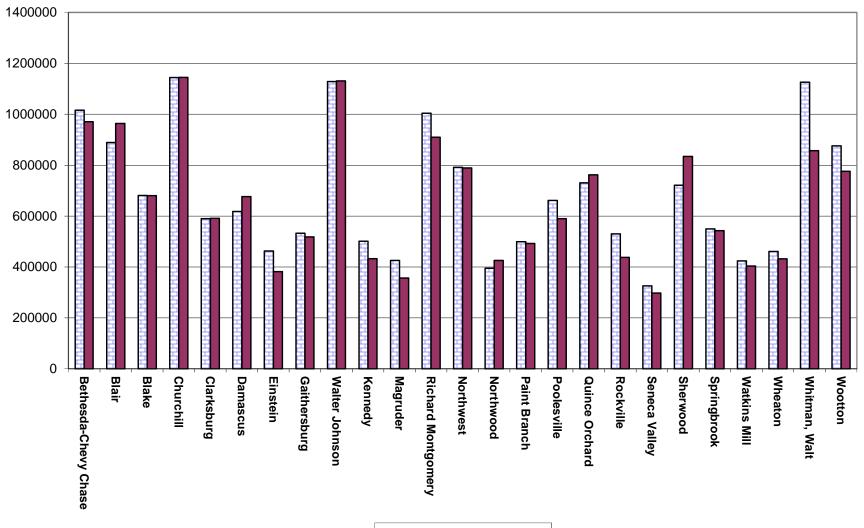

When an IAF audit is concluded, the IAU issues a written report to the principal including any findings and recommendations that need to be addressed. Principals are required to prepare a written response with proposed corrective actions to be taken forwarded through their respective director of learning, achievement, and administration in the Office of Teaching, Learning, and Schools to the IAU within 30 calendar days of the report date. IAF audit reports dated January 1, 2012, and after, together with the corresponding principal's response are available for review on the school's MCPS website. Any IAF audit report published prior to January 1, 2012, is available to the general public upon request as required by the *Maryland Public Information Act*. A copy of the school's annual financial report on IAFs also is available for review by the general public with the most recent report maintained in the school's media center.
