The following individuals appeared before the Board:

1. Mrs. Zoe Lefkowitz, MCCPTA
2. Mr. Richard Weintraub

Re: High School Core Curriculum

Mrs. Wallace pointed out that the Board had received a memorandum from Mrs. Peyser who had asked some pointed questions. She said that the Board would be discussing the core at its all-day meeting in January. Dr. Lois Martin, associate superintendent for instruction and program development, explained that she and staff were prepared to respond to the questions raised by Mrs. Peyser and those raised by Dr. Greenblatt in her memorandum. Dr. Greenblatt said that her questions were really for the Board. When they had adopted the policy statement, they stated there shall be a comprehensive program and a core of courses. She did not think it was the intent of the Board to create a tutorial program for students. She felt that the intent was to have a core of those things necessary for a high school diploma. She said that there were obviously other courses available but not for under 15 students. She suggested that it was not good policy for the Board to promise what they could not deliver. She felt they should reduce the number of courses in Category 1 and move them into Category 2 with a minimum enrollment of 15 students. Category 3 would have a different numbering system. She indicated that students had never had this before and one or two students could request that a course be offered for them.

Mrs. Spencer stated that one of the reasons for the core was that they had unequal offerings in certain schools and did not have advanced placement courses in every school. Dr. Greenblatt said they could have a certain number of academic courses but it would be more appropriate to limit the courses in Categories 1 and 2. If a school had sufficient staff, they could offer these courses. She felt that if the Board required more academic courses, students would be taking more of these. Mrs. Spencer asked whether it would be possible for a student needing AP English to get this in a regular English class with additional requirements. Dr. Martin agreed that it would be possible to combine levels which was done frequently.

The superintendent commented that he was worried that they were in the trade-off business between facilities and program. He was recommending what was based on current practice which seemed to be a reasonable program. He agreed that this could get costly but he felt they should not let a high school get so small it couldn't offer the basic core. He said that if they had a minimal core they could be taking the first step to a terrible contraction of offerings. He felt that the core of courses should be reasonably broad and comprehensive. He stated that if they cut the proposed core down then the school system would be in a position of cutting students off from learning.
Mr. Barse noted that it had been suggested that the Category 1 courses be restricted to courses required for graduation, and he wondered how much of a cutback this would be. The superintendent replied that out of the 20 credits, only nine were specified. Mr. Barse asked that Dr. Greenblatt give the Board a definition of the required courses in Category 1. He asked whether it would be possible to define Category 1 as those courses required for graduation plus meritorious courses with a certain number of students enrolled. Dr. Greenblatt pointed out that as part of the high school policy the Board had stated that students must be in school full time. She had serious reservations about the extent of the proposed core. Mr. Barse suggested that they had to look at the different proposals and needed a new memo showing how these were laid out.

Mrs. Zappone believed it was the Board's intention to make these courses available to every student, but not necessarily every year. Dr. Martin indicated that these courses were given in every case in every school. She said that it was possible to pare them down further, but they did not believe this was feasible. Dr. Gabriel Massaro, director of the Department of Instructional Planning and Development, added that all but five of the 60 courses were offered in all of the high schools. The average enrollment was mid to upper twenties. Dr. Martin pointed out that an overwhelming majority of students were enrolled in these courses.

Mr. Ewing remarked that it might well be that they were tilting at windmills because the proposed basic core was indeed offered in all high schools. He felt that the new proposal would do immense damage to the programs for college bound students. He said that the options should be as useful and meaningful as possible; however, the interests of students did vary and it should be possible for them to pursue a variety of activities. He felt that it would be a tremendous disservice to students and their parents to move in this direction because the minutes were very clear that the Board decided that every high school should have a core of courses and go beyond the minimum.

Mrs. Wallace commented that there were many places where she would want to go beyond what Dr. Greenblatt was suggesting. She wondered how they could offer Theatre I if they did not have a minimum of 10 to 15 students. Mr. Richard Pioli, director of the Division of Aesthetic Education, explained that this was not a production course; it was a basic appreciation course. Miss Williams added that they did have a good enrollment in Theatre I, but Theatre II and the advanced courses were courses for a smaller number of students. She suggested that they need to come up with a statement on what should be required and that each Board member should write down the basic philosophy behind their suggestions.

Mrs. Wallace asked for information on what schools were not offering the proposed basic core, and Dr. Martin agreed to take another look at this. Mrs. Spencer said they needed to take a look at whether no one signed up for these offerings, and Mrs. Wallace
thought they had to look at whether the schools had the capability to offer these courses. Mr. Barse said that if they were going to go with a broadly defined core of courses, he would not have much of a problem with that if they could get the resources. He would get the resources for Category 1 and 2 by pulling them out of Category 3. He said that this was the argument for cutting back on the number of electives in Category 3, and he thought they should make a commitment if they were going with Category 1 and 2 not to add additional staff except maybe the five or ten that had been identified. Mrs. Wallace asked that staff provide the Board with some idea of class sizes in Category 1.

Re: A Motion by Dr. Greenblatt to Amend the Proposed Resolution on the Core of Courses

Dr. Greenblatt moved the following which was seconded by Mrs. Zappone:

Resolved, That the proposed resolution on the core of courses be amended to add an additional Resolved; "Resolved, That the core of courses may be offered on alternate years or in combined classes or offered in adjacent schools with transportation provided."

Mr. Ewing requested that Dr. Greenblatt provide the Board with a written explanation of her proposed amendment. Mrs. Wallace indicated that the amendment would be the first item of business when the Board returned to this subject.

Re: Monthly Financial Report

The superintendent stated that when they were on short funds there were two ways to solve the problem. The first was to curtail expenses and they had done some of that. The second was to come up with additional revenues. He noted that last month they were predicting a $2.3 million shortage, and this report increased that to $3.1 million. He pointed out that the General Assembly had put a cap on what the state would pay on the employer's share of social security, and MCPS had not budgeted for this. He said they had less money budgeted for fuel than they spent last year. He noted a decrease in the projected deficit in Category 15.

The superintendent indicated that they had received $600,000 in impact aid and hoped for another $1.2 million. They had additional funds from the state for transportation and social security. Mr. Ewing inquired about impact aid and whether they were working on FY 1981 dollars. Dr. Roy Stern replied that he was correct. Mr. Ewing wondered what would happen if Congress changed the impact aid before the end of FY 1981. He said that if Congress made a cut and the new administration proposed a further cut he wondered what they might experience. The superintendent explained that it was for this reason that they were trying to get the funds in hand. Dr. Greenblatt pointed out that they had a perennial argument about
surpluses coming back to MCPS. The superintendent replied that if the Council did not want to appropriate these funds including impact aid they did not have to. Mr. Barse inquired about the increase in the transportation deficit due to tires and tubes. The superintendent explained that they had made a mistake last month and had not included this in their report. Dr. Pitt added that they had new people in that department and they did not include these funds in their reporting.

Resolution No. 720-80 Re: Recommended FY 1981 Supplemental Appropriation from MSDE, Federal Government, and Local Funding Activity Toward Offsetting Projected Budget Deficits

On recommendation of the superintendent and on motion of Mr. Barse seconded by Mr. Ewing, the following resolution was adopted unanimously:

Re: New Business

1. Dr. Greenblatt introduced the following proposed resolution which was seconded by Mr. Barse:

   Resolved, That the Board asks that the superintendent draft an elementary school policy (K-8) which is to be a companion to the new senior high school policy and ready for implementation in September, 1981; and be it further

   Resolved, That Board members will list their concerns for the superintendent so that the staff can reflect these in the initial draft of the policy.

2. Mr. Ewing moved and Mr. Barse seconded the following:

   Resolved, That the Board set some time between now and the final adoption of the budget to review and discuss the report of the state commission of which Mr. Weintraub spoke.

Mrs. Spencer asked whether they had a work session on the budget that could be scheduled for special education. Mrs. Wallace said that she would be working with Mr. Bowers on the budget review schedule, and she asked whether Board members would be able to be present for the 4 p.m. meetings. Mr. Ewing replied that he had never agreed to these meetings. He indicated that he would be out of town on January 5 and 6. Re: Proposed Resolution on Departmental Examination Evaluations

On December 9, 1980, Mrs. Spencer moved and Mr. Ewing seconded the following:

Resolved, That an evaluation of departmental examinations administered in January, 1981, be made and recommendations concerning its continuation for the second semester and in subsequent years be brought back to the Board of Education during February, 1981, for timely consideration especially as concerned with the spring semester 1981.

Re: A Substitute Motion on Departmental Examination Evaluations

Dr. Greenblatt moved and Mr. Barse seconded the following:

Resolved, That an evaluation of departmental examinations administered in January, 1981, be made and recommendations concerning its implementation for the second semester and in subsequent years be brought back to the Board of Education during February, 1981, for timely consideration especially as concerned with the spring semester 1981.

Resolution No. 725-80  Re: An Amendment to the Proposed Substitute Motion on Departmental Examination Evaluations
On motion of Mr. Barse seconded by Mrs. Zappone, the following resolution was adopted with Mr. Barse, Dr. Greenblatt, Mrs. Spencer, Mrs. Wallace, and Mrs. Zappone voting in the affirmative; Mr. Ewing abstaining (Miss Williams affirmative):

Resolved, That the proposed substitute motion on departmental examination evaluations be amended by substituting "during March, 1981" for "during February, 1981."

For the record, Mr. Ewing stated that he would vote against the substitute motion. The reason he was voting against it was not because he was opposed to evaluation, but because he thought evaluation was a term that was misused on something that was intended to be of this quicky characteristic. Secondly he said an evaluation ought to give one information that one used to make a judgment about whether or not one was going to continue to do something. He said this was an evaluation to be used to decide not whether or not to do something but simply in order to adjust it slightly. He did not think evaluation was the right term for what was intended there, and he did not favor continuation in any event so he did not see any point in this.

Re: A Substitute Motion on Departmental Examination Evaluations (FAILED)

A substitute motion by Dr. Greenblatt that an evaluation of departmental examinations administered in January, 1981, be made and recommendations concerning its implementation for the second semester and in subsequent years be brought back to the Board of Education during March, 1981, for timely consideration especially as concerned with the spring semester 1981 failed with Mr. Barse and Mrs. Wallace voting in the affirmative; Mr. Ewing, Dr. Greenblatt, Mrs. Spencer, and Mrs. Zappone voting in the negative (Miss Williams negative).

Re: Proposed Amendment to Resolution on Departmental Examination Evaluations

Miss Williams attempted to introduce an amendment to the resolution on departmental examination evaluations. The chair suggested that this could be taken up after the Board considered Mrs. Spencer's proposed resolution. For the record, Mr. Ewing stated that he thought it was a wrong ruling.

A motion by Mrs. Spencer that an evaluation of departmental examinations administered in January, 1981, be made and recommendations concerning its continuation for the second semester
and in subsequent years be brought back to the Board of Education during February, 1981, for timely consideration especially as concerned with the spring semester 1981 failed with Mrs. Spencer voting in the affirmative; Mr. Barse, Dr. Greenblatt, Mrs. Wallace, and Mrs. Zappone voting in the negative; Mr. Ewing abstaining (Miss Williams affirmative).
