WHEREAS, Said negotiations and mediation in good faith have occurred, as directed by law, over the past three months, and
WHEREAS, The Board of Education took action on February 24, 1982, to approve funds in its budget request to implement the economic items agreed upon by the teams, and

WHEREAS, The Agreement has been duly ratified by the membership of the Montgomery County Education Association; now therefore be it

Resolved, That the Board of Education approve the Agreement for the period of July 1, 1982, to June 30, 1984; and be it further

Resolved, That the president of the Board of Education be authorized to sign the Agreement which will be implemented by the Board when funds are properly authorized, all according to the said Agreement and to the law.

For the record, Mrs. Wallace made the following statement:

"On January 19, 1982, when the Board of Education and MCAASP signed a three-year agreement, I supported the signing of said contract but reserved comment on one specific article until after the completion of negotiations with all three unions, which has now occurred.

"In the February 1982 issue of the MCEA Advocate, a story written by a student at Rockville High School was reprinted. The subject of this news item is basically the same as part of Article VIII of the MCAASP contract -- bonus pay for exceptional work.

"As the recipient of merit pay in Florida in 1964, I feel qualified to make what I believe are some pertinent observations. First, unlike Florida, the Montgomery County bonus plan has no objective criteria even in part. Second, there is nothing to insure the prevention of certain staff members from attempting to curry the favor of superiors. Third, peer relationships can become very strained during and after the selection of the recipients. Finally, I'd like to quote Dr. Kenneth Muir, 'Superintendent Edward Andrews is proposing money for merit pay and a voice for teachers as to how the money is spent.' Dr. Muir continued, 'The good ones (teachers) didn't want to go through the rigmarole, and it was the people who liked to toot their own horns that got the bonuses.' Which only goes to prove that one can certainly, accurately, in this case paraphrase Gertrude Stein, 'A stinkweed is a stinkweed is a stinkweed.'

"I think it becomes evident that although a majority of the Board supported this concept, I did not and will not. A bonus plan or merit pay by any other name is divisive, and according to Dr. Richard R. Doremus, the keynote speaker, at the Superintendent's and Principals Annual Spring Conference in Gettysburg, it has not worked elsewhere. In fact, it didn't work here in Montgomery County in the 1960's. Nothing has changed and nothing will until a truly objective method of identifying and evaluating exceptional personnel is found, at which time I might modify my position."

Re: Board/Press/Visitor Conference

The following individuals appeared before the Board of Education:

1. Mr. Terrence Wendell, Woodside Forest Citizens Association
2. Mrs. Marie Dashiell, Damascus High School PTSA

Re: Monthly Financial Report

The superintendent reported that they had very good news because the deficit was down by almost $100,000. In addition, impact aid had opened up again and they had received a check for $300,000. They
also anticipated that this was only half of the impact aid funds they would be receiving, and the superintendent believed they would not need a supplemental appropriation in the spring.

Mrs. Zappone asked whether it was reasonable of them to not request $62,000 increase for refuse disposal. The superintendent explained that the Council had approved the budget with the trash fees and then raised the fee and gave the county government a supplemental appropriation. He agreed that they would look at other ways to fund this increase.

Re: Procedures for Placement of Teachers from Closed Schools

The superintendent explained that because of the large number of schools closing this year they had large numbers of teachers to be placed. They would be following previously established procedures, but some things would be different because of the large numbers involved.

Mrs. Zappone asked whether there was a compiled list of vacancies the staff could see. Mr. Armando Gutierrez, director of the Division of Staffing, replied that this was published on a weekly basis.

However, principals were already beginning to interview teachers, and by the time a teacher called about a position it might be filled. Dr. Shaffner explained that the staffing allocations would go out to the areas after the final budget action and vacancies would be filled all summer. The problem was that many teachers would not know where they would be working. However, they were hoping that many teachers would follow the children to the consolidated school.

Mrs. Wallace inquired about the form used by Personnel. Mr. Gutierrez indicated that it had been revised about two years ago, and Mrs. Wallace felt that they should have two forms, one for
professionals and one for supporting services. Mr. Gutierrez explained that they had had separate forms, but when they had combined the offices it was felt that the forms should be combined. Dr. Shaffner indicated that the form would be revised for the next year's transfer activity.

Mr. Ewing inquired about the perceptions of teachers undergoing this process and whether there was the feeling that the school system would come through for everyone. He asked about how teachers were cautioned about the situation, and the superintendent explained that if they didn't notify teachers 15 days after the Council budget actions the teachers would have a job with the school system.

However, where that job was got to be the problem.

Mr. Barse said it had been suggested there be a freeze on voluntary transfers to give preference to teachers coming out of closed schools. The superintendent replied that on the surface there was nothing wrong with this recommendation; however, if they froze the voluntary transfers they would not have the vacancies and this would restrict the principals as well as the teachers. The vacancies created by voluntary transfers opened up vacancies for involuntary transfers. Dr. Greenblatt inquired about the concept of a new school and not considering the closed school the "surplus" school. The superintendent replied that they had tried not to rip up both communities, but they did talk to the staff in the receiving schools as well. Mr. Barse suggested that they should try to avoid the word "surplus."

Re: Executive Session

The Board met in executive session from 10:45 p.m. to 11:30 to discuss personnel matters.

Re: Board Member Comments

1. Mr. Barse stated that he had received some correspondence about the request to test the well water at Laytonsville Elementary School. There was a question of who was going to pay for these tests. Mr. William Wilder, director of the Department of School Facilities, explained that the school was served by a well and was beyond the danger area as defined by the EPA. He said that he was working with the Health Department to establish data in advance of those tests, and the tests would cost between $600 and $800.

2. Mr. Ewing reported that he, Mrs. Peyser, and Mrs. Zappone, sitting as the audit committee, had met with representatives of Touche Ross on March 10 to review the findings, recommendations, and staff response to the Touche Ross management letter. The consensus was that the school system had made a great deal of progress towards meeting the recommendations of the external auditor. The school system had a good chance to achieve certification. In the late spring the audit committee would be meeting with the internal auditors.

3. Mr. Lipson reported that last Friday two candidates were nominated for the student Board member seat. They were Devin Arkin of Kennedy High School and Kurt Hirsch of Walt Whitman High School. The new president of MCR was Peter Robertson, Woodward High School. Carole Mitnick of Springbrook was the vice president. Jacquie Duby of Key Junior High School was secretary, and Andy Towle of Walt Whitman was the treasurer.
4. Mrs. Zappone reported that she had attended the science fair at the Bureau of Standards, and it was exciting to see so many students receive awards. She said that Stephanie Telesetsky of Stone Ridge and Jaya Yodh of Springbrook High School were the top winners in the senior division. In the Junior division the winners were Frank Li of Ridgeview and Wendy Wright of Takoma Park Junior High School.

5. Mrs. Zappone indicated that on Saturday Head Start had its multicultural fair which was excellent, and she urged Board members to attend next year.

6. Mrs. Wallace reported that she had had the pleasure of being at Rock Creek Forest Elementary to meet Mrs. Barbara Bush, wife of the vice president. Mrs. Wallace said that she, the superintendent, and Mrs. Bush had visited several classrooms and Mrs. Bush was very much interested in education. Mrs. Bush had indicated that she would like to see the Cued speech program, and Mrs. Wallace would be extending an invitation to her. She asked if Board members had other programs they thought Mrs. Bush should see that they let her know.
