Re: Executive Session

The Board of Education met in executive session from 8:30 to 9:10 p.m. on personnel matters.

Ms. Sally Linn Nichols stated that she had been a member of the committee since 1980 and last year was the chairman. She explained federal and state law which required a council with membership appointed by the Board of Education and Montgomery College. The council served as liaison between the community and schools and the college. She said that they had trouble with their role because they did not want to duplicate the efforts of the Board's vocational committee and the College's craft committee. They had been trying to educate themselves about services offered by MCPS and Montgomery College, and Ms. Nichols listed the numbers and types of meetings they had held in the past year. She said that they were now seeking representation on the County's Private Industry Council and planned to ask a PIC member to be an ex officio member of their council. In June 1983, they elected their new officials and looked forward to reorganizing the council and redoing their bylaws. They felt there were interacting well with MCPS, Montgomery College, the state, the county government, and local employers. They would welcome the Board's suggestions.

Dr. Cronin indicated that he would like to hear the views of the council. He pointed out that the Board would be hearing from the Area 3 Task Force and asked whether the council would be working with the task force. Ms. Nichols replied they were aware of the need for another vocational center and would be happy to assist the task force.

Dr. Shoenberg asked whether it was their function to review programs offered in MCPS and in the College and to comment about their appropriateness. Ms. Nichols explained that they did have sign-off authority on annual plans involving federal funds; however, the other committees were closer to curriculum matters. Dr. Shoenberg was concerned that a lot of people were working over the same ground, and Ms. Nichols shared that concern. Dr. Frank Carricato, director of the Department of Career and Vocational Education, reported that the council would be involved in reviewing the needs of Areas 2 and 3. The council, the committee, and the foundations
would all be invited to be members of the Edison advisory group.

Mr. Ewing thanked Ms. Nichols for sharing the annual report.

Re: Interim Report - Area 3 Task Force

Ms. Janet Garrison, co-chairperson, reported that their first meeting was two weeks ago and they divided into three groups to study staffing standards, educational opportunities with regard to program, and facilities standards and transportation. The second group then divided into groups on the senior high school, the junior/middle school, and the elementary school. The facilities/transportation group also divided into two subgroups. All groups were meeting on a regular basis.

Mr. Tim O’Shea stated that they had no conclusions at this point because they were still collecting data. He complimented the area office for its assistance; however, part of the problem was their
need to look at data about Areas 1 and 2 as well. The good news was that they did not see discrepancy in staffing among the areas. In regard to magnet and special programs there was a concentration downcounty for certain reasons. They did see a possible magnet school proposal which might bleed off some of the overcrowding in Area 3. He noted the southbound morning transportation problem which has resulted in longer bus runs than in previous years. In general, they had to look to a movement of students counter to the morning traffic problem. Mr. O'Shea explained that they had collected data on Gaithersburg, and everyone was astounded that the schools in the Gaithersburg area were coming in far higher than a year ago and far higher than projections. For example, in 1985 the high school would have 2,100 students in a building with a capacity of 1,600. In addition, Area 3 had significantly more oversized classes than the other two areas. He pointed out that Gaithersburg High School was close to Blair in regard to reading scores, and they were looking into a way of taking some ideas from QIE and applying them to Gaithersburg.

In regard to educational background and experience level of teachers, Mr. O'Shea said the areas appeared to be similar. However, Area 3 might have a little less help available for disadvantaged students. He thought they should start thinking about facilities and transportation. He suggested that it might be necessary to shorten some bus runs because of the increase in traffic.

Dr. Lee Etta Powell, area associate superintendent, reported that they were trying to get input from a wide range of people. She felt that the final report would be quite comprehensive. Mr. Ewing thanked the task force for their dedication and effort.

Re: Monthly Financial Report

Dr. Pitt commented that they saw a potential problem in the substitute teacher account, transportation, and utilities. He said they were carefully reviewing every expenditure they made and were trying to establish more thorough financial controls. Mr. Robertson asked for information about the placement of surplus staff. Dr. Pitt explained that they did not have a reduction in force and were carrying about seven staff members. They were hoping that these people would be placed. They were in situations where there was a need for help and from where they could be moved without disruption to the program.

On recommendation of the superintendent and on motion of Mrs. Praisner seconded by Dr. Cronin, the following resolution was adopted with Dr. Cronin, Mr. Ewing, Mrs. Praisner, and Dr. Shoenberg voting in the affirmative; Mrs. Peyser abstaining (Mr. Robertson voting in the affirmative):

Mrs. Peyser left the meeting at this point.

Re: Board Member Comments

1. Mrs. Praisner called attention to the new photograph of Dr. Andrews which had been placed in the Board room with photos of previous superintendents.

2. Mrs. Praisner reminded Board and staff of the television programs about the CARE program which would appear on Channel 26 on November 2 and 9. She continued to be concerned about the lack of funding after February for the PACT II program. She asked that the Board president and superintendent communicate with the county executive about this funding.

3. Mrs. Praisner noted that Mrs. Nancy Wiecking, reporter for the Potomac Almanac had received the School Bell award from the Maryland State Teachers Association.

4. Dr. Cronin reminded Board members that the culminating activity for SAS Day would be held on November 3, at 7:30 p.m., at Richard Montgomery High School and Board members were invited.

5. Mr. Ewing reported that he had visited Rosemary Hills Elementary and was very heartened by what he had found. However, the school had a shortage of supplies and supply money, and he hoped that staff could look into this.

6. Mr. Ewing said that the Board had received a list of applications for its advisory committee on minority student education. He asked that the Board postpone appointment of this committee until November 21 so that a letter could be sent to minority group organizations. Dr. Cronin suggested that a letter be sent to other major organizations as well, and Mrs. Praisner asked that the letter make clear that this would not be an appointment by organization or a spot reserved for a particular organization.
7. Mr. Ewing stated that he was still concerned about the issue of citizen group involvement in the advisory group related to the Edison Center. He urged staff to make sure there was representation from groups concerned about the impact on the Wheaton community. Dr. Cody agreed that this could be built into the process.
