Re: PUBLIC COMMENTS

The following individuals appeared before the Board of Education:

1. Walter Lange, DuFief PTA
2. Helene Jennings, Olney Community
3. Roscoe Nix, NAACP
1. Dr. Cronin stated that he had given the Board three items. One was an issue that Mrs. Praisner had raised. He had asked the system to obtain copies of the Carnegie Middle School report. Dr. Villani was writing the school system report on middle schools. He would assume that unless the Board directed him otherwise, the Board officers could schedule an agenda item including both the Villani report and the Carnegie report at the same time. Dr. Pitt commented that he had reviewed the Carnegie report and a lot of what it said their middle school model was already doing. Middle schools were using a team approach and working with small groups of youngsters.

2. Dr. Cronin suggested that at a future time the Board consider an advisory committee to the Board on education in the year 2000. There was a need for them to have some good advice on where they expected the system to be by the year 2000 and beyond. He would discuss the issue further with Board members. At a future meeting, he would make a motion under new business to create a commission on education in the year 2000.

3. Dr. Cronin said he would also ask the Board to authorize discussion of coordination of services between the county government and MCPS.

4. Mrs. Praisner stated that she had a series of questions that related to the testimony they heard this evening. In the interest of time, she would put those questions in writing to the superintendent. She also recommended that staff obtain copies of "Visions of a Better Way" for Board members. Dr. Cronin recommended that other Board members put their concerns and questions in writing so that the superintendent could consolidate those.

5. Mr. Ewing explained that he intended to offer three motions under new business which were based on tonight's public comment. One would direct the superintendent to release test scores, another to ask the superintendent to assess what they had heard along with other suggestions that had been made and would be made on July 24 and develop a comprehensive approach, and finally a motion to proceed with the suggestion to employ some outside expertise in assessing the program.

6. In regard to the testimony, Mr. Ewing thought it was remarkable, of great substance, and deeply moving in its passion. The message was stunning in its consistency. There had been some progress, but there were serious problems which had not been effectively addressed. The problems were growing, and the good intentions of the Board and the school system had not been enough. The need for action was plain. The urgency of action was great, and there was an imperative which came through all the testimony for the school system to have an organized mechanism for reaching out and making use of the vast desire on the part of so many here tonight and many others to help to
solve this problem. One of their biggest problems had been, not that they refused that help, but they had not reached out and sought it as actively as they might have. It seemed to him that the opportunity was before them to accept the challenge and to move.

7. Mr. Goldensohn reported that the Magruder High School drama team was in Muncie, Indiana for the festival. They would be performing on Tuesday, June 27, at 8:45 p.m. He wished the team the best of luck.

8. Mr. Goldensohn noted that the Chesapeake Chapter of the National School Public Relations Association had an article about the Mariner award, the chapter's highest honor for a professional, that was presented to Sally Keeler, school business relations coordinator for MCPS. He extended his personal congratulations to Sally.

9. In regard to test scores, Dr. Pitt called attention to a memo he had written to the Board of Education. He had an ethical and moral problem with releasing test scores where they were only talking about one, two, or three youngsters who happened to be black or Hispanic and tested in a particular grade level. However, he did not have a problem with releasing scores as Fairfax had done where there were 10 or more youngsters involved, whatever that ethnic group happens to be, Asian, white, etc. He noted that about 25 percent of their schools had fewer than three youngsters in that category. About 45 to 50 percent of their schools had 10 or more.

10. Mrs. Hobbs reported that she had visited the arts festival at Strathmore Elementary School, and it was a pleasure to see the way the parents, children, and staff honored Vera Torrence, the new principal there. She had done an excellent job in a difficult situation. It was nice to be in a school where a principal was recognized in such a warm way.

11. Mrs. Hobbs said that this weekend she had visited several school construction projects. They had eight projects with a completion date of August 1. She had visited Cloverly, Highland, and Northwood. She was very concerned that they would not meet these completion dates of August 1. She was concerned about having staff and students ready for the first day of school. Dr. Cronin asked staff to provide the Board with periodic updates. Mrs. Praisner recalled that Board members had raised concerns about other projects, and she suggested the Board receive updates on all projects.
