Re: TITLE IX COMMITTEE ANNUAL REPORT

Ms. Connie Tonat, chairperson, said they had tried to emphasize the traditional gender roles and the attitudes about gender abilities which continued to prevail in society. These sexist attitudes were an integral part of their lives in the educational system. The committee tried to have recommendations to address this problem. They recommended changing the name of the committee from Title IX to Gender Equity. They would like to have a full-time gender equity specialist. In their report they had stressed the need for in-service training and workshops for staff and symposiums and conferences for students and parents. They had tried to emphasize educational techniques for reducing gender prejudices and gender stereotyping. They were asking to increase the size of the committee from 15 to 19 because they saw a lot of work that needed to be done.
Mr. Goldensohn expressed his agreement that the committee's name should be changed. Most people did not know what Title IX was.

Dr. Cronin said it was his understanding that Mrs. Whittier was now a voting member of the committee. Dr. Shoenberg explained that the Board voted to make the Title IX liaison a voting member, Dr. Cronin thought that Dr. Brimfield had become the liaison, and Dr. Shoenberg explained that the Board had indicated that the liaison person would come from OIPD but had not been identified.

Dr. Shoenberg called attention to the recommendations involving parent-teacher workshops and exposing parents and students to gender equity issues. He thought this was something that could be done in cooperation with PTAs or other organizations within the schools. He asked whether they had been in contact with the PTA. Ms. Nancy Rea replied that a former member of the committee had been working on trying to get PTA cooperation because most PTAs did not have a Title IX chairman. They hoped that changing the name of the committee would increase PTA awareness.

Mrs. Praisner recalled that when she had been on the executive committee of MCCPTA there had been representatives with responsibilities for human relations. These people had served on various committees and had come back to make reports to the executive committee and talked about workshops or topics for the delegate assembly. It seemed to her that they could not dictate to MCCPTA what they did during their delegate assemblies, but she knew they were also very receptive to suggestions for programs. She suggested that a committee representative might want to attend one of the executive committee meetings and make some suggestions about the work of the committee and possibilities for working together on these issues. It might also be useful to review school system workshops which had taken place to heighten parental knowledge of some of the activities.

*Mrs. Hobbs joined the meeting at this point.

Dr. Cronin reported that last year at the meeting at Montgomery College they had focused on outreach to the county government to get them involved in activities and to share their resources and responsibilities. The idea of film festivals and symposiums should be something the Commission for Women could help on. In this way they might be able to do a full county-wide rather than school system gender equity program. Ms. Tonat noted that they were recommending a three-year program starting with outreach to the schools and then moving out to involve more organizations. Dr. Cronin suggested that Myrna Goldenberg of Montgomery College should be a prime resource.

Mr. Ewing thought it was a good idea to encourage the committee to contact the PTA, but it seemed to him that if the Board
thought the suggestions were good ones the Board should take some
initiative here to encourage MCCPTA to work with staff and the
committee. Dr. Shoenberg expressed his agreement.

Mr. Ewing asked if the committee had more detailed suggestions on
the proposed courses and seminars on gender equity. Ms. Tonat
replied that they did not have anything specific at this point.
The committee would be working on this. Dr. Pitt commented that
they did have some courses and programs now. He had attended
part of one last summer. Ms. Nancy Rea noted that a two-day
conference was planned for this spring. Ms. Nguyen Minh Chau
reported that principals had told them there was a dichotomy
between needing the information from the Title IX group and the
conflict in schedules. Even though staff wanted to come to these
events, they could not. It was her impression that there was a
great wealth of courses and symposia, and she suggested looking
at the scheduling of these events to make them convenient for
staff.

Dr. Shoenberg explained that he did not mean the committee should
go off and start working with the PTA. He was asking about
exploration of that possibility with the PTA. He asked about
what was offered in the way of in-service courses and whether
they could bring a one or two session program to a school
cluster. Dr. Pitt replied that he would have to get that answer
from staff development.

It seemed to Dr. Shoenberg that they were dealing with societal
attitudes that would take some years to turn around. It might
take a generation. However, they certainly could help that
process along, and the committee had been urging them to do this
over a period of years and the Board had done that. They had
seen a lot of changes in the registration of women in courses and
some changes in attitudes and expectations in the classroom. It
was hard to do any one thing in such a way that it universally
reached everyone. He saw these as efforts to advance on a broken
front. He did not know if there were things that they could
reasonably do that would reach everyone in some way that would be
meaningful. Dr. Pitt replied that their goal was to reach
everyone involved in educating youngsters. He pointed out that
there were differences between reaching people and convincing
them. They needed to try everything from curriculum efforts to
counseling efforts.

Dr. Cronin said he would like to do a link between the
recommendations on parent/teacher workshops on gender equity in
several targeted schools and enrollments of female students in
higher level courses of math, science, and computer science. He
asked if they had looked at figures for women in ninth grade
algebra so that they could qualify for higher level mathematics
later. Ms. Tonat replied that this was one of the things they
would think about doing in order to make a decision about what
schools they would target. Ms. Ella Iams added that they had just looked at total numbers throughout Montgomery County.

Dr. Cronin recalled that the Board had looked at the math curriculum to see where students entered each course. They found that by the time some students entered algebra it was too late to advance to higher levels. At that time this question was raised about minority students. Dr. Pitt thought they had many more young women going into mathematics at the high school level and into some of the hard sciences. However, there were not as many women making career choices to go into those areas. Dr. Cronin also suggested that there were some courses where the majority of students were women. In some vocational education courses the enrollment was virtually all female. They should also look at how many men were also going into traditionally feminine careers.

Ms. Rea pointed out that this was also true of the higher level foreign language courses.

Mrs. Praisner stated that sometimes they fell into the habit of trying to create something separate for each specific agenda they might be interested in rather than looking at things that they were doing in other areas. It seems to her as they developed their cable television programs they could look at ways of incorporating gender equity issues into existing television programs. When they wanted to look at programs for females in non-traditional careers, they should look at their own Resource Connection. She thought there was a whole variety of things they could take advantage of if people became more sensitive to the goals of this committee. They had to stop compartmentalizing their priorities. Dr. Pitt agreed and suggested that if they invited an airline pilot in to visit with eighth graders that pilot could be a female.

Ms. Nguyen Minh Chau reported that they had looked into the past operations of the committee. This year they thought they would send committee members out to attend other committees as well as PTA meetings. They had to sensitize parents to the fact that if they wanted the best future for their girls they had to raise them the same way they did boys and vice versa. The committee had to do some more homework, and for this reason they had suggested increasing the size of the committee. In addition, they needed more staff time to do better coordination of activities. They needed MCPS and the Board to provide opportunity for the committee to be where the parents were especially in other committees. In this way they could approach the problem from different angles.

Mr. Goldensohn assumed that staff would be responding to the committee's report and the series of recommendations. He asked that the superintendent respond and indicate the quickest possible response to the recommendations starting off with the requested name change.
Dr. Cronin thought it might be interesting for the committee to get together with staff to talk about the variety of existing committees and their work. There might be the possibility of joint committee meetings to discuss common areas and lead to some common thrusts. Ms. Tonat replied that they were planning to do this.

Ms. Serino asked about issues that students could participate in for change. Ms. Tonat replied that the main thrust was to get away from stereotyping. They opened up areas of non-traditional careers both for women and men. Symposiums would give students an opportunity to have an interchange with women and men in non-traditional careers. Ms. Rea said this could also include some social items such as why the father always drove the car on family outings. Ms. Toni Negro said they had found that females enrolled in higher level math and science in high school, but they did not continue these courses in college. When they made career choices, they did not go into math, science, and engineering. The factors affecting those choices had to be addressed. In high school there were certain science courses that tended to be predominately female enrolled.

Dr. Shoenberg said that the superintendent would be responding to the recommendations; however, he believed the Board wanted to go ahead with the name change and would consider increasing the size of the committee in June. He thought the recommendations were good ones and quite forward moving. He thanked the committee for their work.

RESOLUTION NO. 143-90  Re: TENTATIVE APPROVAL OF A PROPOSED POLICY ON COMBATTING ALCOHOL AND OTHER DRUG ABUSE

On motion of Mr. Ewing seconded by Mr. Goldensohn, the following resolution was adopted with Dr. Cronin, Mr. Ewing, Mr. Goldensohn, Mrs. Hobbs, Ms. Serino, and Dr. Shoenberg voting in the affirmative; Mrs. DiFonzo and Mrs. Praisner being temporarily absent:

RESOLVED, That the Board of Education give tentative approval to the following policy on combatting alcohol and other drug abuse:

A. Purpose

The overall purpose of this policy is to promote vigorous and concerted efforts to keep drugs and alcohol, drug sellers and drug users out of schools and off school properties, thereby creating and maintaining a drug and alcohol free environment for teaching, learning and working within the Montgomery County Public Schools.

This overall purpose or goal will be sought and achieved through a series of objectives which include:

1. The provision and enforcement of effective measures to:
   a) prevent the entry of drugs and alcohol into schools or other MCPS facilities, properties, and vehicles; b) to provide for the security measures in MCPS that will address the associated problems of weapons and violence or the threat of violence where and when those become problems.

2. The provision of effective training for school staff members and parents in the identification of the circumstances which attend drug sales and use/abuse in schools, as well as identification of what the impact on behavior and attitudes is of drug and alcohol use and abuse.
3. The provision of effective education for students about the dangers of drug and alcohol use and abuse.

4. The provision of increased student access to the personal assistance students may need to prevent or treat drug and alcohol use and abuse, through involvement of parents, the provision of alternative programs, the availability of treatment programs, in-school counseling services, student organizations and other services and supports that may be available in the community and provided privately, or by county and state agencies.

5. Intensified cooperation with county and state agencies in finding ways to reduce the demand for drugs, through disincentives for drug users and abusers.

6. The provision of needed resources, either from the MCPS budget, or from private or other public sources, to meet the range of needs to address the problem.

7. The development, continuous review, refinement and vigorous implementation of effective rules and regulations which are designed simultaneously to protect staff and student rights, and to ensure that prompt action is taken to achieve the overall purpose of a drug and alcohol free school environment.

8. The development and publication of periodic reports on progress made toward achievement of these objectives, with a report to the public at least annually.

B. Process and Content

All MCPS employees are expected to convey by their actions, deeds, and teachings that they do not in any way encourage or condone alcohol or drug abuse by students. Staff members are committed to achieving the goals of this policy, to the extent possible, in the following ways:

1. Support federal, state, and local laws, guidelines, and initiatives that are designed to create an alcohol and drug-free environment for teaching, learning, and working.

2. Enforce effective measures to:

   a) Prevent the entry of alcohol and other drugs into schools or other MCPS facilities, properties, and vehicles

   b) Provide for the security measures in MCPS that will address the associated problems of weapons
and violence or the threat of violence.

3. Provide effective training on a regular and continuing basis for MCPS staff members and parents in the:

   a) Identification or the circumstances which surround drug sales, use, and abuse in and around homes, communities, and schools

   b) Identification of the impact of alcohol and other drug use and abuse on behavior and attitudes

4. Provide a comprehensive education for students, beginning in the elementary grades, about the dangers of alcohol and other drug use and abuse.

5. Promote increased student access to personal assistance that could help prevent or treat alcohol and other drug use and abuse through:

   a) Involvement of parents

   b) Provision of alternative programs

   c) Availability of treatment programs, in-school counseling services, student organizations and other services and supports that might be provided privately in the community or by county and state agencies

6. Cooperate with county, state, and federal agencies in finding ways to reduce the demand for drugs that is created by those who see and by those who use drugs, through disincentives for drug users and abusers.

7. Seek appropriate resources, either from the MCPS budget or from private or other public sources, to meet the range of needs to address the problem.

8. Implement effective rules and regulations that are designed to:

   a) Simultaneously protect staff and student rights

   b) Ensure that prompt action is taken to achieve the overall purpose of a drug- and alcohol-free school environment

9. Publish an annual report to the Board on progress made toward the achievement of the goals of this policy.

C. Review and Reporting
This policy will be reviewed every three years in accordance with the Board of Education policy review process.

Re: BOARD MEMBER COMMENTS

1. Mr. Goldensohn reminded the Board and members of the press that March 10 was the date for the Montgomery County Odyssey of the Mind competition. He hoped that the press and photographers would cover this event.

2. Mrs. Praisner said that the Department of Family Resources had issued some reports on demographic information around the county. They had done studies on Kensington, Wheaton, Bethesda, and Germantown. Having reviewed some of the earlier studies, she thought there was some useful information for MCPS about services and the demographic changes. She asked whether there had been staff use of the previous studies and whether there was some way they could incorporate this information into their planning.

3. Mrs. Praisner recalled that the Board had received a letter from ESOL teachers at Quince Orchard High School which raised some concerns about the functional writing test. She thought the teachers had raised some very valid concerns, and she wondered where they were in pursuing this with the state Board. Dr. Pitt said that teachers at Richard Montgomery had raised similar issues, and if staff agreed he intended to raise this issue with the state.

4. Mrs. Praisner stated that had she been present she would have voted in favor of the agreements with MCEA and MCCSSE. She and Mrs. DiFonzo would have voted for the drug policy if they had been present.

5. Dr. Cronin said there were some references to changes that were going to be made to Cutsail Elementary to bring the four additional rooms into the building, and he would like to see those modifications.

6. Dr. Cronin commented that the difficulty in attending the AASA convention was the choice that had to be made among the offerings such as "Youth in Crisis," "New Curriculum and Instruction," "School Reform," "Empowerment," "Complex Organizations," "Society's Challenges," "Working with the Superintendent," and "Leadership with Technology." He had attended a session on "Recruitment and Retention of Minority Teachers" and found that Dallas went to the United Negro College Fund and hired one of their staff members to find teachers. They also would take people who had retired from other school systems and paid them at their old retirement pay. He also noted that Dr. Carl Smith, associate superintendent, had done a very fine presentation.
7. Mr. Ewing stated that he had a strong reaction to the letter from the ESOL teachers at Quince Orchard. It was important for them to make sure that they did not ask students to write something that they did not understand. He did not agree that they should waive a writing requirement for students. He would be strongly opposed to giving students a diploma if they had not mastered the English language. Dr. Pitt explained that they were looking at certain things on the test that might have a cultural bias.

8. Mr. Ewing reported that the Commission on Excellence in Teaching had raised a number of recommendations including one on teacher evaluation that the Board had not yet acted on. He knew it was a sensitive issue related to the contract with MCEA, but it seemed to him the Board ought to consider further discussion on this issue.

9. Mr. Ewing said that a number of Board members received a letter from Betty Hepburn in her capacity as chairman of the Greater Wheaton Citizens Advisory Board. They were concerned about the growing numbers of immigrants who wanted to learn English but were turned away because MCPS did not have space for them. He appreciated the information the superintendent had provided and the request for more funds from MSDE. However, they did not know how many people had been turned away this year and had to get a handle on this. Dr. Pitt replied that they had enough space available to teach all the people, but the space wasn't always where these people lived. He was going to ask the Adult Education people to follow up on this. Mrs. DiFonzo said she had also raised this question. She had been told that people would show up at a center to take a course, but were turned away because they hadn't taken the pretest. She had been told there were insufficient teachers which was why people had been turned away. She had also heard that people went to one site when they could have gone to another site.

10. Mr. Ewing reported that there was a growing unhappiness in the Blair community in regard to the situation about athletic facilities, not only the building but in terms of the ability of the school to accommodate students on site. Nolte field was going to be closed down for a period of time, and that would be devastating. There was an extensive piece in the JOURNAL on student athletics. He asked staff to address these issues and develop a plan of action.

11. Ms. Serino stated that in regard to the Under 21 Club students were organizing themselves and had developed a two-year plan they hoped to implement. The draft of the plan would be available for Board members and other county officials.

12. Mrs. Hobbs reported that on March 9 at Seneca Valley High School there would be a job fair for students in Area 3, and on
March 24 there would be another job fair at Richard Montgomery High School. On April 20 at Blair High School, they hoped to have a career fair for students in Area 1.

13. In relating to the remarks made by Ms. Serino, Mr. Goldensohn reported that four high schools had an event at the Washingtonian. Mrs. Gemberling commented that about 500 students had participated. It was a successful meeting, and she had received a report from Mr. Masood. Ms. Serino added that six schools had participated.

On motion of Mr. Ewing seconded by Mr. Goldensohn, the following resolution was adopted unanimously:

RESOLVED, That the Board of Education review at a meeting the methods and approaches now in use in MCPS to assure that integration is encouraged within the schools and to discuss other mechanisms that might be employed including, but not limited to, research and the use of human relations specialists and others in efforts to bring about integration in the schools including parents as well as students.

RESOLUTION NO. 151-90  Re: DISCUSSION OF EDUCATION AND EXPERIENCE AS ELEMENTS IN HIRING NEW TEACHERS

On motion of Mr. Ewing seconded by Mrs. Hobbs, the following resolution was adopted with Mr. Ewing, Mr. Goldensohn, Mrs. Hobbs, Ms. Serino, and Dr. Shoenberg voting in the affirmative; Dr. Cronin and Mrs. Praisner voting in the negative; Mrs. DiFonzo abstaining:

RESOLVED, That the Board of Education schedule a time in the near future to discuss and act on the following resolution:

WHEREAS, The Montgomery County Public School system each year employs a large number of newly hired teachers; and

WHEREAS, Montgomery County needs to employ the best available teachers to provide excellent education for all
students; and

WHEREAS, It is important that the county employ a substantial number of highly experienced, highly educated teachers, in the interest of ensuring that the best available teachers are employed; and

WHEREAS, It is also important to bring into the school system a substantial number of teachers who may be highly qualified, but who lack experience and advanced education, in order to achieve balance in the teaching staff and to bring fresh new perspectives to bear on teaching; and

WHEREAS, The county now does not include experience as an explicit factor in the formula it uses for evaluating those it is considering hiring as teachers; and

WHEREAS, There is a need to ensure that the large pool of highly educated, highly experienced teachers is tapped and those that meet MCPS requirements are sought out and hired; now therefore be it

RESOLVED, That the superintendent be requested to bring to the Board for its approval one or more options for adding experience and advanced education as specific elements in the formula for hiring new teachers; and be it further

RESOLVED, That the Board of Education declares that it is the policy of the Montgomery County Public Schools that experienced and highly educated applicants for teaching positions shall be given more weight in hiring than those with lesser experience and education, unless there are specific reasons for a determination that advanced education and experience should not be weighted as highly; these reasons might include the need to employ specific categories of teachers to meet other objectives of the school system; and be it further

RESOLVED, That the Board of Education expresses its concern that the very substantial numbers of new teachers employed in elementary schools should receive substantial preschool-year training, beyond that now being offered; this training should be offered in such areas as: the Montgomery County curriculum, early childhood educational techniques appropriate to Montgomery County, and the management of aides and other teachers within the classroom, since the expectation is that in the future every classroom teacher in the early elementary years will need to manage other teachers or aides.
