RESOLUTION NO. 490-90  Re: CHANGE ORDERS OVER $25,000

On recommendation of the superintendent and on motion of Mrs. Praisner seconded by Mr. Goldensohn, the following resolution was adopted unanimously:

WHEREAS, The Department of School Facilities has received change order proposals for various capital projects that exceed $25,000; and

WHEREAS, Staff and the project architects have reviewed these change orders and found them to be equitable; now therefore be it
RESOLVED, That the Board of Education approve the following change orders for the amounts and contracts indicated:

ACTIVITY 1
Project: Gaithersburg Elementary School #9
(Hadley Farms Elementary School)
Additional Sitework

Description: The Gaithersburg Elementary School #9 site contains approximately two acres of land adjacent to wetlands that was not developed as part of the construction contract. This area can be converted relatively inexpensively into playfields that could be used jointly by the elementary school and the Phoenix II program.

Contractor: Regina Construction Corporation
Amount: $87,753

ACTIVITY 2
Project: Sherwood High School
Additional sitework

Description: During the demolition of parts of the existing building, unusable soil was encountered. A portion of the unusable soil had to be replaced. This work was approved on a previous change order. The balance of the unusable soil was treated with chemicals that allowed it to be reused at a significantly lower cost than the cost to replace it with acceptable fill material.

Contractor: Dustin Construction, Inc.
Amount: $80,278

ACTIVITY 3
Project: Sherwood High School
Mechanical equipment replacement

Description: As a cost saving measure, the architect recommended that certain mechanical equipment be evaluated during construction for reuse. The construction contract was bid with provisions to rehabilitate the classroom
unit ventilators in lieu of purchasing new items. Upon evaluation of the units during the demolition phase, it was determined that the equipment should be replaced rather than refurbished.

Contractor: Dustin Construction, Inc.
Amount: $115,513

RESOLUTION NO. 493-90  Re: POSTPONEMENT OF PROPOSED RESOLUTION AMENDING THE FY 1991 CAPITAL IMPROVEMENTS PROGRAM

On motion of Mr. Goldensohn seconded by Mr. Ewing, the following resolution was adopted unanimously:

RESOLVED, That the proposed resolution amending the FY 1991 Capital Improvements Program (Germantown area middle school and Germantown area elementary school) be postponed until the Board meeting of September 12, 1990.
Dr. Shoenberg stated that the superintendent was recommending "no action." However, he thought that if Board members wanted to take some action a motion would be in order. This would be the chair's ruling.

Mr. Ewing had thought this was going to be an action item. If he had thought it was going to come to the Board just as a discussion item with no recommendation for any action whatever, he would have made a new business item of it. The superintendent's recommendation merely postponed doing anything except studying the situation. The superintendent had said they ought to address the space issue, and Mr. Ewing agreed with that. There was no agreement among the affected community members on this issue, and while this was unfortunate it was not a new situation. He felt it would be much better for the Board to begin to take some action. They should lift the cap with regard to kindergarten for the school year beginning in September. They should re-establish their expectation that the program should consist of two classes per grade through sixth grade, starting perhaps in the fall of 1992. He thought the Board should direct the superintendent to propose in the capital budget an addition to Oak View sufficient in size to accommodate two classes per grade for the French program as well as ample space for all students in the English program.

Mr. Ewing said that the superintendent might want to propose some other options for housing these two programs. It had been a number of years since the County Council rejected the option of adding to Oak View. While there were those in the community who would continue to oppose any addition, he felt that this was the most reasonable option. Moving the program out of the community was still another option, although it was not one he favored. At an appropriate time, he would make a motion for the Board to consider formally.

Mrs. Praisner pointed out that the Board had approved their agenda with Oak View as a discussion item. She had concerns about changing an item from discussion to action in the middle of the meeting. It seemed to her that items were always appropriate for new business. She said that all Board members were not present, and the agenda had been mailed out listing this as a discussion item.

Mr. Ewing thought the Board was going to have an action item in front of it. When he had raised the matter at a previous meeting, he had been assured that they would have an item on the agenda. He had learned his lesson, and in the future he would offer a new business item regardless of what assurances he might
get. Dr. Shoenberg said that his expectation was Mr. Ewing's. He believed the superintendent was going to provide them with an action item. He asked that they take a vote on the ruling of the chair. Mr. Fess reported that five votes were needed to overrule the chair. Mr. Chang, Mr. Ewing, and Dr. Shoenberg supported the ruling of the chair. Mrs. DiFonzo, Mr. Goldensohn, Mrs. Hobbs, and Mrs. Praisner did not support the ruling of the chair. Therefore, the ruling of the chair stood that motions were appropriate.

Re: A MOTION BY MR. EWING ON OAK VIEW ELEMENTARY SCHOOL (FAILED)

The following motion by Mr. Ewing on Oak View Elementary School failed for lack of a second:

RESOLVED, That the Board of Education directs that there be a change in its action to limit all grades in the French Immersion Program at Oak View Elementary School, to permit two kindergarten classes for the school year beginning in September, 1990; and be it further

RESOLVED, That the French Immersion Program shall consist of two classes per grade, kindergarten through sixth grade, starting in the fall of 1992; and be it further

RESOLVED, That the Board of Education directs the superintendent to propose in the capital budget an addition to Oak View Elementary School sufficient in size to accommodate two classes per grade for the French Immersion Program, as well as ample space to provide for all students in the Oak View-New Hampshire Estates English program at Oak View in the upper grades; and be it further

RESOLVED, That the superintendent may wish to propose other options for housing these two programs, in addition to the provision of space for both at Oak View; and be it further

RESOLVED, That the superintendent shall consult with the PTAs at Oak View and New Hampshire Estates in developing the option for housing both programs at Oak View, and shall include their views of this and any other option with his proposals to the Board of Education.

Mr. Goldensohn indicated that he had to leave the meeting by 10 p.m. He was concerned that the document from the superintendent did not address the issue of a second French Immersion school in an area far enough removed from Oak View so that it would not have an impact on that program. This would give an option to other students, particularly minority students, who would like to be in the language immersion program but could not attend the
program. These students could attend a program in Monocacy Elementary School or a Germantown area elementary school where there was space. A number of people had called him to remind him about what a terrific program the French Immersion Program was. He also thought that the Spanish Immersion Program was an outstanding program. He wondered why they were not looking at another site to duplicate programs. He asked that this option be included in future discussions.

Mrs. DiFonzo commented that the discussion tonight was not a discussion of the success of the French Immersion Program. The issue here was the facility and the facility for uncapping the program. One parent asked that the cap be removed so that all youngsters could avail themselves of the program, but the Board had to deal with the reality of where there would be a facility to provide space for expansion of the program. Additionally, they had a facilities process which started in the fall and concluded in the spring. There was an exception in the policy which allowed the Board to make decisions outside of the process in the case of an emergency. However, she did not perceive this as being an emergency as spelled out in the facilities policy. She was concerned about the Board's making facilities decisions outside of the process. This might cause other communities to lobby the Board to consider issues outside of the process.

Mrs. DiFonzo remarked that if the Board did remove the cap on the program for the kindergarten she, as a parent, would assume that there would be a first grade program for her youngster the following year. Because of the crowded conditions, she did not think the Board was in a position to guarantee that to parents. She believed there were many options that could be considered. One was the second program that Mr. Goldensohn had mentioned. She thought there needed to be a great deal more analysis and a formal presentation within the confines of the facilities process. They could uncap the program, move it somewhere else and keep it capped, introduce a second program, or find a facility they could use as an immersion school for multitudes of languages. She did not think these options could be considered this evening, and she believed the superintendent had done the appropriate thing by looking at the issue, bringing it before the Board, and recommending staying where they were now. She would request that the superintendent look at all these options and consider them in the course of the facilities process in November.

Mr. Goldensohn reported that Dr. Cronin had left the Board a memo in which he stated that if the Board were to uncap the program for kindergarten they could ask parents to sign an agreement that they understood there would be no guarantee that the program would continue for those students.
Dr. Shoenberg read Dr. Cronin's memo into the record:

"While I have to leave the meeting early this evening, I believe I should leave a statement about my position on the Oak View French Immersion Program. I appreciate the concern of parents who wish to get their children into the program and also of the parents who fear a loss of children in a single class per grade program will jeopardize the program itself.

"As should be clear to everyone in the community, the only reason the Board capped the French program was because of insufficient space. This was caused by the County Council's vote against the planned addition to the school after substantial local community protest.

"I believe Mr. Ewing's motion presents us with an untenable position in a year or two from now. We would have raised expectations of lifting the cap and yet have no space to put the students. It is a solution without a fallback position.

"Therefore, I am prepared to lift the cap this year only on two conditions:

"First, that the Board votes to direct the superintendent to request in the FY92 capital budget the necessary space for a two class per grade French immersion program and sufficient space for the English language program, and

"Second, that every parent of a child entering the additional kindergarten class sign a statement acknowledging that, if funds for permanent construction are again denied by the Council, their child will attend Oak View for kindergarten alone and will return to his/her home school for the first grade. This will be clearly a waiver of a right to request transfer to Oak View for first grade French Immersion.

"I agree that a long term solution is necessary. I also have a concern that parents from the up-county cannot send their children to Oak View for the French program because of the cap. Therefore, I would also support investigation of the feasibility of opening a second program up-county. It would have a clearly defined attendance zone to ensure it does not compete for majority students with the Oak View program. However, it would also offer minority students an opportunity to attend a language program without upsetting racial balances at Oak View."

*Mr. Goldensohn left the meeting at this point.

Mr. Ewing stated that it was important for them to recognize some basic truths about what was going on here. All the talk about the facilities process could not conceal the fact that the
decision in 1985 was made on a purely political basis. It had to do with the way in which people lobbied the Council and the way in which they extracted promises from the Council and the way in which they lobbied school Board members less successfully. He was concerned that if they were not careful they would end up with a situation in which those students in the English program at New Hampshire Estates, those students needing their attention and concern, would not have the space they needed for the program in the upper grades. He was not sure that the Board had any commitment of a kind adequate to insure that. This concerned him. There were forces in that community, New Hampshire Estates and Oak View, who would prefer that the Board dismantle the pairing because they thought it was unsuitable for their children to go to school together. Not to recognize this basic issue was to fail to understand what was going on. The Board had to recognize this. Every effort would be made to take the decision out of the hands of the Board and put it somewhere else. This issue had to do in part with race, ethnicity, income, and social class. These issues also needed to be addressed by the Board.

Mr. Ewing thought that the French Immersion Program was a great program, but in his judgment it was not much of a magnet program in the sense that it promoted integration. He commented that it promoted segregation. He had served on the first committee recommending the establishment of magnet schools in Montgomery County, and that committee did not recommend that the French Immersion Program become a magnet because they did not think it met the test of being likely to attract a mixed group of students. This, too, was an issue for the Board. They had to consider whether they wanted to have a program that really didn't promote integration in the same sense that other programs did. He thought that the Board needed to come to grips with all these issues and to fail to do so was to fail the children.

Dr. Shoenberg said he agreed that the primary concern was to see that space for children in the English language program was adequate and that they dealt in as appropriate a way as they could with racial balance. When they voted on this three years ago, his decision was based on this. It continued to be his primary concern. The reason this matter was on the agenda was that the Board had to make some decisions on transfer appeals from people who wanted to enroll their children in the French Immersion Program. Therefore, the issue before the Board was the French Immersion Program rather than having space for the English language arts program.

Dr. Shoenberg thought that the recommendation made by the superintendent was the right recommendation. He did not think they should open up the kindergarten program this year because even if they had a signed statement there would still be expectations. He was unwilling to create that kind of
expectation. He did agree that they needed to come to grips with the space issue, but they needed to do that in terms of the facilities process. They had recommendations coming to them from the Blair community on an interrelated set of facilities issues. It would be a mistake to take a step and commit themselves in one direction at this point in time. However, it would be his intention to move forward to the degree that they could to increase the space at Oak View to allow both programs or to consider how they might explore the option of a French Immersion Program elsewhere in the county. When they capped the program at Oak View, it had been his hope that they would move in that direction. The superintendent had made a different set of recommendations about addressing elementary foreign language instruction in a somewhat different way. He would still hope that they would be able to expand the French program beyond the single class per grade. He thought they did need to address both of those issues by putting the English language arts program at the top of the list.

Mrs. Praisner said that in the interest of time she would like to be on the record as associating herself with Dr. Shoenberg's comments. In June, 1988 when the Board made the decision to cap the program, she thought there was a commitment to the pairing and a commitment to the English language arts program at New Hampshire Estates. Her support for that and commitment to that had not changed.

Re: CONSTRUCTION PROGRESS REPORT

Mr. Richard Hawes, director of the Division of Construction, reported that they were just about where they expected to be at this time. He was confident that all facilities would be ready for staff and students on the opening day of school. All of the relocatable classrooms had been moved with the exception of some new units. Mrs. DiFonzo inquired about the use of safety glass and asked that when they accepted new construction they make certain that safety glass was used. Dr. Shoenberg thanked staff for their report.

She thought that Board members would be interested in hearing from this group which was working on the use of technology and interdisciplinary instruction. She suggested that at one of the all-day meetings this fall they schedule a presentation from that group. Dr. Shoenberg asked that this item be put on their list of future agenda topics. Dr. Vance had also visited the project and felt that this was one of the most exciting summer projects he had seen.
