RESOLUTION NO. 664-90 Re: AN ALTERNATIVE FOR THE RICHARD MONTGOMERY CLUSTER

On motion of Mrs. DiFonzo seconded by Mr. Ewing, the following resolution was adopted with (Mr. Chang), Dr. Cronin, Mrs. DiFonzo, Mr. Ewing, Mrs. Hobbs, and Dr. Shoenberg voting in the affirmative; Mrs. Praisner abstaining#:

RESOLVED, That the Board of Education adopt the community plan as an alternative for the Richard Montgomery Cluster.

Re: REQUESTS FOR INFORMATION ON THE FACILITIES PLAN

Board members made the following requests:

1. Dr. Cronin suggested that the tables in the cluster write-ups be reorganized to add another column to include the previous year's enrollment projections. In this way the Board and public would be able to see what was projected and what was actual enrollment.

2. In regard to the Bethesda-Chevy Chase cluster, Mrs. DiFonzo asked for information comparing costs of reopening with expansion of existing buildings. Mr. Ewing wanted to know the costs of replicating Rosemary Hills if they opened a school.

3. Mr. Ewing requested information on the amount of money staff projected that Piney Branch would need in PLAR funds and what staff expected to do in that school.

4. Mr. Ewing requested a clear map of the Richard Montgomery High School plan.
5. Mrs. DiFonzo reported that there was a rumor in the Rockville area that Rockville HS was going to be modernized and all students would go to Peary. She asked that staff put this rumor to rest and inform the community that Rockville was under consideration for a gym and the Peary Center would not be available because it was being used as a holding school for elementary schools.

6. Dr. Pitt asked that staff communicate to the Damascus, Magruder, and Gaithersburg clusters that there would be a study next year on the assignment of students out of the Gaithersburg cluster.

7. Board members asked staff to look at the issue of assigning ESOL students to Gaithersburg and Springbrook. Mr. Ewing was concerned about the impact of ESOL students on the feeder schools to Gaithersburg HS. For example, what would happen if the Board were to defer the assignment of the ESOL center until September, 1992. If they could not delay the assignment, staff was to look at other options for solving this. Mr. Ewing cautioned that care be taken regarding the socioeconomic and racial balance at Gaithersburg if the proposal was to remove an elementary school or two in the next facilities go-around.

8. Staff was requested to provide a clearer explanation of the middle school issue in the pages for the Seneca Valley cluster.

9. Mrs. Fanconi called attention to the need for maintenance at Montgomery Village because of the fact that the school was not scheduled for modernization in the near future.

10. Dr. Cronin asked that the spring boundary recommendations for Stratford Woods and Briars Acres show projections from last year and actual enrollments for this year.

11. In regard to Springbrook, Mrs. Praisner requested information about the number of portables and the location of the portables on the Northwood site if the ESOL students were added.

12. Mrs. Praisner asked that the future school sites be designated by number and high school area in keeping with the Board's policy on school names.

13. Mr. Ewing asked staff to look at the issue of special education housing. He pointed out that if MCPS was projected to grow by 25,000 students, one might expect a proportional growth in handicapped students. The CIP appeared to assume that all of the increase except for ESOL would be accommodated in the regular schools. This had an impact on the design of the regular schools and on the operating budget. The superintendent agreed that staff needed to come back to the Board on this issue. He said that they had to add something to the CIP to qualify this issue in some way.
14. Mrs. DiFonzo called attention to the language on elementary 
gyms on pages 4-97 which she suggested should be moved to the 
front of the book.

15. Board members asked about the central food construction 
facility. Dr. Pitt suggested that it might be well to have a 15-
minute briefing on this. Mrs. Praisner thought they needed to 
document long-term savings and potential use of this facility 
beyond the school system.

16. Mr. Ewing asked that the language under the section on page 
4-115 on security systems should state that the system would 
cover buildings other than schools. He asked about how much 
upgrading of outside lighting they would be able to do each year. 
Mrs. Praisner asked about the criteria and process they would use 
to determine which facility received the upgraded lighting.
