The Board of Education of Montgomery County met in special session at the Carver Educational Services Center, Rockville, Maryland, on Tuesday, June 29, 1993, at 8:50 p.m.

ROLL CALL  Present:  Dr. Alan Cheung, President in the Chair  
Mr. Stephen Abrams  
Mrs. Frances Brenneman  
Mr. Blair G. Ewing  
Mrs. Carol Fanconi  
Mrs. Beatrice Gordon  
Ms. Ana Sol Gutierrez  
Mr. Jonathan Sims  

Absent:  None  
Others Present:  Dr. Paul L. Vance, Superintendent  
Mrs. Katheryn W. Gemberling, Deputy  
Dr. H. Philip Rohr, Deputy  
Mr. Thomas S. Fess, Parliamentarian

#indicates student vote does not count. Four votes are needed for adoption.

Re: ANNOUNCEMENT

Dr. Cheung announced that the Board had been meeting in closed session on personnel and negotiations.

RESOLUTION NO. 509-93  Re: BOARD AGENDA - JUNE 29, 1993

On recommendation of the superintendent and on motion of Mrs. Fanconi seconded by Mr. Sims, the following resolution was adopted unanimously:

Resolved, That the Board of Education approve its agenda for June 29, 1993.

RESOLUTION NO. 510-93  Re: PERSONNEL APPOINTMENT

On recommendation of the superintendent and on motion of Mrs. Fanconi seconded by Mr. Sims, the following resolution was adopted unanimously:

Resolved, That the following personnel appointment be approved:

<table>
<thead>
<tr>
<th>Appointment</th>
<th>Present Position</th>
<th>As</th>
</tr>
</thead>
<tbody>
<tr>
<td>Darlyne McEleney</td>
<td>Elem. Principal</td>
<td>Principal</td>
</tr>
<tr>

<td>Effective: 7-1-93</td>
</tr>
</tbody>
</table>

RESOLUTION NO. 513-93  Re:  PERSONNEL APPOINTMENTS

On recommendation of the superintendent and on motion of Mrs. Fanconi seconded by Mr. Sims, the following resolution was adopted unanimously:

Resolved, That the following personnel appointments be approved:
Dr. Cheung announced that the Board was continuing its review and tentative adoption of the long-range educational facilities planning policy. The Board agreed to change the date of the public hearing to Monday, September 20, and to change the Action Area meeting to Thursday, September 30.

In E. Implementation Strategies, 2. b) (2) and (3), staff is to check with the Board attorney about the term "where reasonable" and whether or not it can be changed to "where practicable."

The Board agreed that E. Implementation Strategies, 2. b) (1) would read as follows:

New school openings and boundary adjustments demand that consideration be given to the impact of various proposals on the affected school populations. The school population consists of students assigned from a specific geographic
attendance area regardless of the location of the school building itself.

The Board agreed that E. Implementation Strategies, 2. b) (2) be amended to place semicolons after "Quality Integrated Education Policy," "reliable indicators," and "special education programs and students." The Board agree to delete E. Implementation Strategies, 2. b) (3), and incorporate "mobility rates" as a factor in E. 2. b (2). It was also agreed to change E. Implementation Strategies, 2. c) (3) to read:

Recommendations for aggregate student reassignments should consider recent boundary changes and/or school closings and consolidations which may have affected the same communities.

Board members agreed to add the following to E. Implementation Strategies, 3. Calendar:

The long-range facilities planning process will be conducted according to an annual calendar that will adhere to the following calendar adjusted annually to account for holidays and other anomalies.

The calendar under November 1 is to be changed to read, "Superintendent publishes and sends to the Board of Education and county executive...." The calendar under December 1 should read, "County executive and Montgomery County Planning Board receive Board of Education adopted CIP for review."

The Board agreed to change E. Implementation Strategies, 4. second sentence to read, "Parents, staff, and students are primary constituents in the facilities planning process." There was agreement to put the calendar section on page 26 for late May to the beginning of the calendar.

The Board agreed that E. Implementation Strategies, 4. a) (3) be changed to read, "The site coordinator works with the cluster coordinators to form site selection committees composed of MCPS staff...." E. Implementation Strategies 4. a) Site Selection is to be corrected to read, (1), (2), (3), (4), and (5). E. Implementation Strategies 4. a) Site Selection (5) should read as follows:

The Board considers the committee and superintendent's recommendation before officially adopting a site.

Re: A MOTION BY MRS. FANCONI TO AMEND THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING (FAILED)

A motion by Mrs. Fanconi to amend the proposed policy on long-range facilities planning to amend E. Implementation Strategies
4. b) Facility Design (1) (c) to read, "Representative(s) of homeowner...." failed with Mrs. Fanconi and Mrs. Gordon voting in the affirmative; Mr. Abrams, Mrs. Brenneman, Dr. Cheung, Mr. Ewing, and (Mr. Sims) voting in the negative; Ms. Gutierrez being temporarily absent.

Re: A MOTION BY MR. ABRAMS TO AMEND THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING

Mr. Abrams moved and Mrs. Brenneman seconded the following:

Resolved, That the proposed policy on long-range facilities planning E. Implementation Strategies 4. b) Facilities Design (1) (c) read, "Representatives of adjacent homeowner...."

Mrs. Fanconi asked that the question be separated.

RESOLUTION NO. 514-93 Re: AN AMENDMENT TO THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING

On motion of Mr. Abrams seconded by Mrs. Brenneman, the following resolution was adopted with Mr. Abrams, Mrs. Brenneman, Dr. Cheung, Mr. Ewing, and (Mr. Sims) voting in the affirmative; Mrs. Fanconi and Mrs. Gordon voting in the negative; Ms. Gutierrez being temporarily absent#:

Resolved, That the proposed policy on long-range facilities planning E. Implementation Strategies 4. b) Facilities Design (1) (c) read, "Representatives of homeowner...."

RESOLUTION NO. 515-93 Re: AN AMENDMENT TO THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING

On motion of Mr. Abrams seconded by Mrs. Brenneman, the following resolution was adopted with Mr. Abrams, Mrs. Brenneman, Dr. Cheung, Mr. Ewing, Mrs. Fanconi, Mrs. Gordon, and (Mr. Sims) voting in the affirmative; Ms. Gutierrez being temporarily absent#:

Resolved, That the proposed policy on long-range facilities planning E. Implementation Strategies 4. b) Facilities Design (1) (c) read, "Representatives of adjacent homeowner...."

Re: A MOTION BY MR. ABRAMS TO AMEND THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING (FAILED)

A motion by Mr. Abrams to amend the proposed policy on long-range facilities planning by adding "The responsibility for developing options for school boundary changes rests with the Montgomery County Public Schools. Such options will be developed prior to
the commencement of the advisory committee process." to E.
Implementation Strategies 4, c) School Boundary Changes failed
with Mr. Abrams and Ms. Gutierrez voting in the affirmative; Mrs.
Brenneman, Dr. Cheung, Mr. Ewing, Mrs. Fanconi, and Mrs. Gordon
voting in the negative; (Mr. Sims) being temporarily absent,

RESOLUTION NO. 516-93  Re:  AN AMENDMENT TO THE PROPOSED POLICY
ON LONG-RANGE FACILITIES PLANNING

On motion of Mr. Ewing seconded by Mrs. Brenneman, the following
resolution was adopted unanimously#:

Resolved, That the proposed policy on long-range facilities
planning be amended in E. Implementation Strategies 4. (c) School
Boundary Changes in (1) to read, "In most cases where MCPS
facilities planning staff identify the need for possible changes
in school service areas an advisory committee will be formed to
assist in the development of those changes." and (2) to end with
"planning staff for consideration in developing options.", and a
new (3) Staff will then develop and present viable options...." and
renumber the following paragraphs.

The Board agreed to change E. Implementation Strategies 4. (c)
new 3 to read "MCPS planning staff will provide data...." The
Board also agreed to delete "identified by cluster coordinators
at the outset of the process" under E.4. (c) new 4. The Board
agreed to delete "as much as possible" under E.4. (c) new 6.
Under E.4. (c) new 7 the Board added "potentially" before
"affected communities."

RESOLUTION NO. 517-93  Re:  AN AMENDMENT TO THE PROPOSED POLICY
ON LONG-RANGE FACILITIES PLANNING

On motion of Mr. Abrams seconded by Mrs. Brenneman, the following
resolution was adopted with Mr. Abrams, Mrs. Brenneman, Dr.
Cheung, Mr. Ewing, Ms. Gutierrez, and (Mr. Sims) voting in the
affirmative; Mrs. Fanconi and Mrs. Gordon voting in the
negative#:

Resolved, That the proposed policy on long-range facilities
planning be amended in E. 4. e) Public Hearing Process (1) (c) to
read:

Public comments from individuals not represented by school
or civic groups will be heard by the Board of Education at
an appropriate place in the public hearing. Individuals
should contact the Board Office to schedule testimony.

Board members agreed to change the language in E. 4. e) Public
Hearing Process (2) to read:
Written comments from interested parties will be accepted at any point, but in order to be considered comments must reach the Board 24 hours before the time scheduled for action by the Board.

RESOLUTION NO. 518-93  Re: AN AMENDMENT TO THE PROPOSED POLICY ON LONG-RANGE FACILITIES PLANNING

On motion of Mr. Abrams seconded by Mr. Sims, the following resolution was adopted with Mr. Abrams, Mrs. Brenneman, Mr. Ewing, Ms. Gutierrez, and (Mr. Sims) voting in the affirmative; Dr. Cheung, Mrs. Fanconi, and Mrs. Gordon voting in the negative:

Resolved, That the proposed policy on long-range facilities planning be amended by deleting E.4. e) (3) and renumbering (4) to (3).

RESOLUTION NO. 519-93  Re: CONFIRMATION OF PREVIOUS BOARD AGREEMENTS ON THE LONG-RANGE FACILITIES PLANNING POLICY

On motion of Mr. Ewing seconded by Mrs. Brenneman, the following resolution was adopted unanimously:

Resolved, That the Board of Education adopt the following proposed changes in the long-range facilities planning policy as described in the minutes of June 15, 1993:

It was the consensus of the Board to change "considers" in A.4 to "supports." The Board asked staff to look at the second paragraph under B. Issue to avoid using "largest" and "large" in the same sentence. Mrs. Brenneman suggested defining terms such as "civic group" the first time the term was used. It was the consensus of the Board to delete "simple" in the fourth paragraph of B. Issue. Mrs. Fanconi suggested adding a sentence in C.1. a) to indicate that copies of the CIP would be provided in libraries. Mrs. Briggs suggested changing the sentence to indicate that PTAs, municipalities, etc. would be notified of publication of the CIP and its "availability."

In C. Position 3 b) it was the consensus of the Board to change "each spring" to "On or about April 1." Mr. Ewing suggested that in C. Position 4 a) that "25:1 is adjusted by .9" be changed to read "25:1 is multiplied by .9." Mrs. Brenneman suggested deleting "individualized" in C. Position 5. a.
RESOLUTION NO. 520-96  Re: CONFIRMATION OF PREVIOUS BOARD AGREEMENTS ON THE LONG-RANGE FACILITIES PLANNING POLICY

On motion of Mr. Ewing seconded by Mrs. Fanconi, the following resolution was adopted unanimously:

Resolved, That the Board of Education adopt the following proposed changes in the long-range facilities planning policy as described in the minutes of June 15, 1993:

Board members asked that "useable" in C. Position 6 be changed to "usable." Mrs. Fanconi suggested adding a few words about land needed for playing fields under C. Position 6, and Mr. Ewing thought this should go in the regulations rather than the policy. At the suggestion of Mr. Ewing, it was agreed that C. Position 7 would be changed to put a colon after "solicited through" and bullet the rest of the paragraph.

On C. Position 7. c (3), it was agreed that this section would read, "Written comments from interested parties will be accepted at any point, but in order to be considered comments must reach the Board 24 hours before the time scheduled for action by the Board."

RESOLUTION NO. 521-96  Re: CONFIRMATION OF PREVIOUS BOARD AGREEMENTS ON THE LONG-RANGE FACILITIES PLANNING POLICY

On motion of Mr. Ewing seconded by Mrs. Fanconi, the following resolution was adopted unanimously:

Resolved, That the Board of Education adopt the following proposed changes in the long-range facilities planning policy as described in the minutes of June 15, 1993:

It was agreed the policy would include language under the Capital Improvements Program regarding the date the CIP was released similar to language used under the Master Plan. It was also agreed that D. Desired Outcomes 1. would be rewritten to state "provide educational programs" rather than "meet the needs of students." The Board agreed to change D. Desired Outcomes 4 to substitute "Provide space to accommodate all students, where feasible, in their home school."
RESOLUTION NO. 522-93  Re: POLICY ON LONG-RANGE EDUCATIONAL FACILITIES PLANNING

On recommendation of the superintendent and on motion of Mrs. Fanconi seconded by Mrs. Brenneman, the following resolution was adopted unanimously:

WHEREAS, The Board of Education has had a policy to guide Long-range Educational Facilities Planning (LREFP) since the early 1970's and last amended its policy in October, 1987; and

WHEREAS, On May 12, 1992, the Board of Education discussed an analysis of the LREFP policy and an analysis of the policy on Quality Integrated Education (QIE) because of the impact of the QIE policy on the LREFP policy; and

WHEREAS, On July 7, 1992, the Board of Education held a worksession on the issues presented in the two analyses of the two policies; and

WHEREAS, On September 9, 1992, the Board of Education adopted a timeline for discussion/action on the LREFP policy and QIE policy; and

WHEREAS, On May 17, 1993, the Board of Education adopted the amended QIE policy; and

WHEREAS, At worksessions on May 26 and June 3, 1993, the Board of Education discussed substantive and editorial issues of the LREFP analysis; and

WHEREAS, On June 15, 1993, the Board of Education discussed standards related to educational facilities and reviewed a draft policy; now therefore be it

Resolved, That the Board of Education tentatively adopt the draft policy on LREFP; and be it further

Resolved, That the tentative adopted draft policy be sent out for public comment and discussed at a public hearing on September 20, 1993, with final adoption scheduled for September 27, 1993.

Long-Range Educational Facilities Planning

Related Entries: ACD, JEE, JEE-RA
Office: Educational Facilities Planning and Capital Programming

A. Purpose

1. The Board of Education has a primary responsibility to provide school facilities that address changing
enrollment patterns and that sustain high quality educational programs in a way that meets its policies. The Board of Education fulfills this responsibility through the facilities planning process.

2. The Long-Range Educational Facilities Planning (LREFP) policy provides direction on how the planning process should be conducted and prescribes criteria and standards to guide planning. This process is designed to promote public understanding of planning for Montgomery County Public Schools (MCPS) and to encourage community members, local government agencies and municipalities to identify and communicate their priorities and concerns to the superintendent and Board.

3. The Board recognizes the interrelationship of its facilities planning policy with other policies such as those on educational programs, quality integrated education, and capital modernization/renovation projects.

4. The Long-Range Educational Facilities Planning policy also describes the ways in which facilities planning for school sites and school service areas supports the Quality Integrated Education policy.

B. Issue

Enrollment in MCPS is never static. The fundamental goal of facilities planning is to provide a sound educational environment for a changing enrollment. The number of students, their geographic distribution, and the demographic characteristics of this population all concern facilities planning. Enrollment changes are driven by factors including birth rates, movement within the school system and into the school system from other parts of the United States and from other parts of the world.

Enrollment changes in MCPS do not occur at a uniform rate throughout the county. The MCPS system is among the twenty largest in the country in terms of enrollment and serves a county of approximately 500 square miles. The full range of population density, from rural to urban, is present in the county. Where new communities are forming, enrollment has been growing faster than in established areas of the county. In areas with affordable housing, there is often greater diversity in enrollment caused by immigration from outside the country.

MCPS is challenged continually to anticipate and provide facilities in an efficient and fiscally responsible way to meet the varied educational needs of students. The Long-Range Educational Facilities Planning policy describes how the
school system responds to educational and enrollment change, the rate of change, its geographic distribution and the racial, ethnic and socioeconomic diversification of enrollment.

School facilities also change. Aging of the physical plant requires a program of maintenance, renovation, and modernization. Acquiring new sites, designing new facilities, and modifying existing ones so that they keep current with program needs is essential. This policy coordinates planning for these capital improvements.

C. Position

The following procedures, criteria, and standards apply to the facilities planning process.

1. **Capital Improvements Program (CIP)** - On or about November 1, the superintendent will publish recommendations for a capital budget and improvement program. The Capital Improvements Program schedules needed changes to the MCPS physical inventory for the coming six fiscal years.

   a) After review of the superintendent's recommendations for a capital budget and six-year CIP, the Board will adopt a capital budget and a six-year CIP and submit them to the county executive for review and recommendations to the County Council for inclusion in the county CIP and for funding of upcoming fiscal year projects. The superintendent will notify PTA/PTSAs, municipalities, civic groups registered with the Maryland-National Capital Park and Planning Commission, student government associations, and other interested groups of its publication and availability in public libraries. The proposed CIP will be sent for review and comment to the Maryland-National Capital Park and Planning Commission, State Board of Education, State Interagency Committee on Public School Construction, county government, municipalities, MCCPTA, Montgomery County Region of the Maryland Association of Student Councils, and Montgomery County Junior Council. The six-year CIP will include:

   (1) Background information on the enrollment forecasting methodology

   (2) Current enrollment figures and demographic profiles of all schools including racial/ethnic composition, Free and Reduced
Meals program participation, English for Speakers of Other Languages (ESOL) enrollment, and school mobility rate

(3) Enrollment forecasts for the next six years by year, and longer term cluster forecasts for a period approximately ten and fifteen years into the future

(4) A profile of all school facilities showing physical and program characteristics, such as Head Start, kindergarten and pre-kindergarten, ESOL, and special education centers

(5) A summary of any capital requests by the Board of Education that would change the facility, as well as Board actions affecting programs at the facility or the service area of the facility (When necessary, supplements to the CIP may be published to provide more information on issues.)

(6) Montgomery County Project Description Forms for all requested capital projects (A project description form describes the needs for a particular facility or for several facilities with similar requirements and contains the project budget.)

b) The county executive and County Council are required to adopt a six-year capital improvements program (CIP) which includes MCPS projects, reporting construction schedules, and anticipated costs. This document includes:

(1) A statement of the objectives of MCPS capital programs and the relationship of these programs to the long-range development plans adopted by the county

(2) Recommended capital projects and a proposed construction schedule for schools and other educational facilities

(3) An estimate of cost and a statement of all funding sources

(4) All anticipated capital projects and programs of the Board including substantial improvements and extensions of projects previously authorized
2. Master Plan

a) On or about June 15 of each year the superintendent will publish a summary of all Board-adopted capital and non-capital facilities plans. This document, called the Master Plan for Educational Facilities, is required under the rules and regulations of the State Public School Construction Program.

(1) This comprehensive plan will incorporate the impact of all capital projects approved for funding by the County Council and any non-capital facilities plans approved by the Board of Education.

(2) The Master Plan for Educational Facilities will show projected enrollment and utilization for facilities for the next six years and for a period approximately 10 and 15 years in the future. This information will reflect projections made the previous fall as updated in spring, and any changes in enrollment or capacity projected to result from capital projects, boundary adjustments or other changes authorized by the Board prior to the date of the plan's publication.

(3) The plan will include demographic profiles of school enrollments and physical and program profiles of school facilities.

b) Schools that fail to meet one or more of the facility standards for enrollment and utilization based on projections will be identified in the Master Plan. The Master Plan for Educational Facilities serves as the review and reporting mechanism required by this policy.

3. Enrollment Forecasts

a) Each fall enrollment forecasts for all schools will be developed for a six-year period. In addition, longer term forecasts for a period of approximately ten and fifteen years in the future also will be developed. These forecasts will be the basis for evaluating facility space and initiating planning activities. The forecasts should be developed in coordination with the Montgomery County Planning Department's county population forecast and any other relevant planning sources.
b) On or about April 1, a revision to the enrollment forecast for the next school year will be developed to refine the forecast for all schools and to reflect any change in service areas or programs.

4. Capacity Calculations

a) The capacity of a facility is determined by matching educational programs to space. Program capacity is calculated as the product of the number of teaching stations at a school according to the following ratios:

<table>
<thead>
<tr>
<th>Level</th>
<th>Capacity Ratings Per Room</th>
</tr>
</thead>
<tbody>
<tr>
<td>Head Start &amp; Pre-K</td>
<td>36:1 (2 sessions per day)</td>
</tr>
<tr>
<td>Grade K 1/2 day</td>
<td>44:1 (2 sessions per day)</td>
</tr>
<tr>
<td>Grade K all day</td>
<td>22:1</td>
</tr>
<tr>
<td>Grades 1-6</td>
<td>25:1</td>
</tr>
<tr>
<td>Grades 6-12</td>
<td>25:1*</td>
</tr>
<tr>
<td>Special Ed. Intensity 4</td>
<td>13:1</td>
</tr>
<tr>
<td>Special Ed. Intensity 5</td>
<td>10:1</td>
</tr>
<tr>
<td>ESOL/SPARC/BASIC</td>
<td>15:1</td>
</tr>
</tbody>
</table>

* Program capacity differs at the secondary level in that the regular calculated capacity of 25 is multiplied by .9 to reflect the optimal utilization of a secondary facility.

Some special programs require classroom ratios different from those listed.

Maximum class size for preschool and special education programs is mandated by state and federal regulations.

b) Elementary, middle, and high schools should operate in an efficient utilization range of 80 to 100 percent of program capacity. If a school is projected to be underutilized (less than 80%) or overutilized (over 100%), facilities planning to address these utilization levels may be undertaken. In the case of overutilization, an effort to judge the long-term needs for permanent space should be made prior to planning for new construction. Temporary measures such as the use of relocatable classrooms may be appropriate. Underutilization of facilities also should be evaluated in the context of short-term and long-term enrollment forecasts.

5. Preferred Range of Enrollment

The description of preferred ranges of enrollment for schools refers to all students, except those receiving
instruction in self-contained classrooms, whose numbers are added to these ranges.

a) A preferred range of enrollment for schools, provided they have program capacity, is:

(1) Two to four classes per grade of students in an elementary school

(2) Two to three teams per grade in middle schools with team size averaging between 100 to 125 students

(3) 250 to 450 students per grade in high schools

(4) Enrollment as set forth in applicable education policies for the K-12 program

b) The preferred range of enrollment will be considered when planning new schools or changes to existing facilities. Departures from the preferred range may occur if educational program justifies or requires it. Fiscal constraints may also require MCPS to build schools of other sizes. If larger schools are built or created through additions, alternative approaches to school construction and school management or school staffing will be considered in order to facilitate effective delivery of educational programs.

6. School Site Size

Size for school sites are:

a) 12 usable acres for elementary schools

b) 20 usable acres for middle schools

c) 30 usable acres for high schools

Sites of these approximate sizes accommodate the instructional program including related outdoor activities. In some circumstances it may be necessary to use smaller or larger sites. In these circumstances special efforts to accommodate outdoor activities are necessary such as use of adjacent or nearby park properties or shared use of school fields. It may be necessary to acquire more than the standard acreage in order to accommodate environmental concerns, unusual topography, or surrounding street patterns.

7. Community Representation

Members of the community have several opportunities for direct input into the facilities decision-making process
including: actual participation as voting or non-voting members of advisory committees, submission of letters, alternatives, or other written material for consideration by the superintendent and staff; and testimony in written or oral form before the Board of Education. In addition, the views of the members of the community are solicited through:

- the Montgomery County Council of PTAs which is the largest group seeking views of school communities affected by facility planning activities
- cluster coordinators
- local PTAs
- student advocacy groups
- other organizations

a) PTA or other parent and student representatives along with appropriate MCPS facility and program staff should be involved in the facility planning process for site selection, school boundary studies, school closings and consolidations, and aspects of facility design (including modernization planning, new school planning, and architect selection).

b) In addition to parent and student representation, MCPS employees, municipalities, local government agencies, civic and homeowner associations, and countywide organizations contribute to the facilities planning process. A civic or homeowner association must be registered with the Maryland-National Capital Park and Planning Commission. Countywide organizations are those with members throughout the county, including organizations such as the League of Women Voters, Allied Civic Group, Montgomery County Civic Federation, etc.

c) The Board will conduct public hearings for potentially affected school communities prior to any action affecting attendance areas and the closure or consolidation of schools.

1) Public hearings will be conducted following publication of the superintendent's recommended budget and six-year capital improvements program in November.

2) Public hearings also may be held in March for any capital budget recommendations deferred from the fall or in cases where capital decisions must be made in March.
(3) Written comments from interested parties will be accepted at any point, but in order to be considered comments must reach the Board 24 hours before the time scheduled for action by the Board.

D. Desired Outcomes

This policy is intended to achieve the following outcomes:

1. Provide the facilities and future school sites necessary to sustain high quality educational programs at reasonable cost, including non-traditional facilities where these provide needed educational programs

2. Utilize schools in ways that are consistent with sound educational practice. Consider the impact of facility changes on educational program and related operating budget requirements and on the community

3. Provide opportunities for all students in accordance with the Board policy on Quality Integrated Education

4. Provide space to accommodate all students, where feasible, in their home schools

5. Provide a schedule to maintain and modernize older school buildings in order to continue their use on a cost-effective basis, and to keep facilities current with educational program needs

6. Provide a capital program and master plan that consider long-term enrollment trends, educational program needs, and capacity available over a broad region in determining:
   a) where and when new schools and additions will be constructed
   b) where and when school closures and consolidations are appropriate

7. Provide a meaningful role for the community in facilities planning

8. Provide as much stability in school assignments as possible
   a) Provide high schools for Grades 9-12 and, where possible, create clusters composed of one high school, and a sufficient number of elementary and middle schools, each of which send all students including special education and ESOL students, to the next higher level school in the cluster.
b) Efficient utilization of resources and facilities may require shared use of facilities by more than one cluster

E. Implementation Strategies

1. Evaluating Utilization of Facilities

a) In the fall of every year after new enrollment forecasts are developed, utilization of all school facilities will be evaluated. The effect of any proposed educational program changes or grade level reorganizations also will be evaluated. For schools that are projected to have insufficient capacity, excess capacity or other facility issues in the future, the superintendent will recommend:

(1) A capital project in the six-year CIP

(2) A solution such as boundary change, school pairing, facility sharing, closing/consolidation, or other similar solution which does not necessarily involve a capital project

(3) No action or deferral pending further study of enrollment or other factors

b) Facility recommendations made by the superintendent will incorporate consideration of educational program impacts. As part of the process of developing facility plans, facilities planning staff will work closely with appropriate program staff to identify program requirements for facility plans.

c) Recommendations that relate to school boundary changes will be made after the superintendent requests advice from a school boundary advisory committee.

d) The superintendent also may request advice for other types of facility recommendations, such as school closures and consolidations, grade level reorganizations, pairings and program moves.

2. Guidelines For Development of Facilities Recommendations

In cases where enrollment change requires the opening of additional facilities, or any other change in student assignments, a number of factors are to be taken into consideration by the Board of Education, the superintendent, and any advisory committee.

a) Area of Focus: Facility
(1) Facilities proposals should result in school utilizations in the 80% to 100% efficient range whenever possible.

(2) Proposals should be fiscally responsible and consider ways to minimize capital and operating costs whenever feasible. The geographic scope of facility studies should be broad enough to realize economies in costs and comprehensive long-range solutions to facility issues while preserving as much stability in school assignments as possible.

(3) Shared use of a facility by more than one cluster may be the most feasible facility solution in some cases. In these cases, not less than 25% of the shared school's enrollment should come from each cluster.

b) Area of Focus: Population

(1) New school openings and boundary adjustments demand that consideration be given to the impact of various proposals on the affected school populations. A school population consists of students assigned from a specific geographic attendance area regardless of the location of the school building itself.

(2) Where reasonable, school service area boundaries should be established to promote creation of a diverse student body in each of the affected schools considering the county's different racial/ethnic groups in accordance with the Quality Integrated Education Policy; the socioeconomic background of students as measured by participation in the Free and Reduced Meals Programs (FARMs), U.S. Census information, and other reliable indicators; the inclusion of special education programs and students; mobility rates at schools; and the mix of single family and multiple family dwellings within each service area. Data showing the impact of proposals on applicable factors shall be developed.

c) Area of Focus: Geography

(1) In most cases, the geographic scope of elementary school boundary studies should be limited to the high school cluster area. For secondary schools, one or more clusters of schools may be studied. Recognizing that at times changes must occur to facilities and boundaries, plans that are developed for
change should result in as long a period as possible of stable assignment patterns.

(2) Consistent with the school system policy on Site-Based Participatory Management, with its emphasis on community involvement in schools, boundary proposals should result in service areas that are, as much as practical, made up of contiguous communities surrounding the school. Walking access to the school should be maximized and transportation distances minimized when other priorities do not require otherwise.

(3) Recommendations for aggregate student reassignments should consider recent boundary changes and/or school closings and consolidations which may have affected the same communities.

3. Calendar

The long-range facilities planning process will be conducted according to an annual calendar that will adhere to the following calendar adjusted annually to account for holidays and other anomalies.

<table>
<thead>
<tr>
<th>Event Description</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>School principals, cluster coordinators, and PTA representatives meet with facilities planning and other appropriate staff and exchange information about facilities issues requiring consideration in upcoming CIP's.</td>
<td>Late May</td>
</tr>
<tr>
<td>Superintendent publishes a summary of all actions to date affecting schools (Comprehensive Master Plan) and identifies future needs</td>
<td>June 15</td>
</tr>
<tr>
<td>Cluster PTA representatives submit comments and proposals about issues affecting their schools to superintendent</td>
<td>July 15</td>
</tr>
<tr>
<td>Staff presentation of enrollment trends and September 30 planning issues for Board of Education information</td>
<td>September 30</td>
</tr>
</tbody>
</table>
Superintendent publishes and sends to the Board of Education and county executive Capital Budget and Six-Year Capital Improvements Program (CIP) with recommendations for capital projects, and any boundary changes, reorganizations or other facility plans as appropriate for changing enrollments, programs, and policies.

<table>
<thead>
<tr>
<th>Event</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>Board of Education worksession on CIP recommendations. Alternatives to recommendations may be requested by Board of Education at this time.</td>
<td>early November</td>
</tr>
<tr>
<td>Public hearings on recommendations and any Board adopted alternatives.</td>
<td>mid-November</td>
</tr>
<tr>
<td>Board of Education action on CIP and any related facility planning recommendations.</td>
<td>end of November</td>
</tr>
<tr>
<td>County Executive and Montgomery County Planning Board receive Board of Education adopted CIP for review.</td>
<td>December 1</td>
</tr>
<tr>
<td>County Executive-recommended CIP transmitted to County Council</td>
<td>January 15</td>
</tr>
<tr>
<td>Planning Board review of County Executive's recommended CIP</td>
<td>February 1</td>
</tr>
<tr>
<td>County Council public hearings on CIP</td>
<td>Feb – Mar</td>
</tr>
<tr>
<td>County Council review of Board of Education requested and County Executive recommended CIPs</td>
<td>Mar – Apr</td>
</tr>
<tr>
<td>Deferred facility planning issues published with superintendent's recommended amendment(s) to CIP for Board of Education review</td>
<td>February 15</td>
</tr>
<tr>
<td>Board holds worksession, requests any alternatives</td>
<td>March 1</td>
</tr>
<tr>
<td>Board holds public hearings</td>
<td>March 15</td>
</tr>
<tr>
<td>Board action on deferred recommendations</td>
<td>March 30</td>
</tr>
<tr>
<td>County Council approves CIP</td>
<td>June 1</td>
</tr>
</tbody>
</table>

In the event the Board of Education determines that an unusual circumstance exists, the superintendent will establish a different and/or condensed time schedule for making recommendations to the Board, for scheduling public hearings on recommendations for alternatives not previously subject to public hearing and for Board action.
4. Community Involvement Process

School and community involvement in MCPS facilities plans is important to the success of the plans. Parents, staff, and students are primary constituents in the facilities planning process. The county network of Parent Teacher Associations (PTAs), organized in each high school area by cluster coordinators, is the focus for involvement of the school communities. Coordination with municipalities and local government agencies also is appropriate. Information from other community organizations and individuals also is important.

The following sections describe the community involvement process in site selection, boundary changes, and in planning and design of new and modernized facilities. These sections refer to formation and operation of advisory groups. In addition to these activities all community members have opportunities to advise the superintendent and Board annually through cluster reports, written correspondence, and public testimony.

a) Site Selection

(1) MCPS staff will work with the Montgomery County Planning Board during the development of master plans to identify future school site requirements based on proposed residential development. General or floating locations of sites are identified on master plan maps. As subdivision occurs, site dedications may be requested.

(2) Specific site selection begins when MCPS projections indicate a new facility is required. The facility in most cases will be programmed in the six year CIP before a site selection committee is formed.

(3) The MCPS site administrator works with the cluster coordinators to form site selection committees composed of MCPS staff, PTA representatives, and appropriate municipal and county government agency officials. In cases of secondary school sites, representatives of more than one cluster may be involved in the committee.

(a) The MCPS site administrator and planning staff work with the committee reviewing alternative site options from the MCPS inventory, and in some cases study potential purchase of properties.
(b) The committee considers the geographic location, its relation to future student populations, the appropriateness of potential sites and makes a recommendation to the superintendent.

(4) The superintendent evaluates this recommendation and then makes his/her recommendation to the Board.

(5) The Board considers the committee and superintendent's recommendation before officially adopting a site.

b) Facility Design

(1) Parent and student representatives will serve with MCPS staff on planning advisory committees to modify, modernize, or construct new facilities.

(a) Parent representatives will be identified by cluster coordinators in coordination with school principals.

(b) Student representatives at the secondary level will be identified by the principal or chair of the committee.

(c) Representatives of adjacent homeowner, civic association, or other neighborhood groups also may serve on the advisory committee.

(2) Activities incorporating community viewpoints include development of educational specifications for schools, architect selection and review of architectural plans.

(a) Architectural plans should be available for review by homeowner and civic associations adjacent to the school site.

(b) Whenever possible, concerns of these groups should be addressed at the design stage before architectural plans are finalized.

c) School Boundary Changes

(1) In cases where MCPS facilities planning staff identify the need for possible changes in school service areas, an advisory committee will be formed to assist in the development of those changes. MCPS facilities planning staff
and program staff will organize and work directly with this group.

(a) The cluster coordinator(s) in consultation with the school principal(s) will identify parent representation from areas potentially affected by boundary changes.

(b) At the secondary level, the school principal(s) will identify interested students to serve on the committee.

(c) The cluster coordinator(s) in consultation with the school principal(s) also will identify any additional representatives from organized parent or student organizations who have knowledge of the schools involved.

(2) At the outset of meetings, the committee will provide guidelines, criteria, or priorities based on the factors outlined in the section of this policy titled "Guidelines For Development of Facilities Recommendations" (Section E.2) to planning staff for consideration in developing options. The superintendent and Board of Education also will consider factors outlined in Section E.2 in their review of boundary proposals.

(3) Staff will then develop and present viable options for the advisory committee to consider. An iterative process of modification to options may follow, directed by the members of the advisory committee. MCPS planning staff will provide data needed to develop entirely new options if the committee determines it wishes to develop its own options.

(4) Official membership on school boundary advisory committees will consist of individuals who are familiar with the affected school communities.

(5) Advisory committees may call on other community resources such as civic and homeowner associations.

(6) Membership on advisory committees should reflect the racial/ethnic and socioeconomic diversity of the area.
(7) MCPS staff will notify civic and homeowner associations in the potentially affected communities of proposed boundary changes being discussed in an area. Cluster coordinators and PTAs may also assist in notification of planning activities through their membership communication mechanism.

(8) An advisory committee report including recommendations or other forms of information from advisory committees will be forwarded to the superintendent.

(9) The superintendent will develop recommendations after considering staff advice, the advisory committee report, if any, and input from other organizations and individuals who have provided comments. The superintendent will publish his/her recommendations about November 1, with the CIP.

(10) Copies of the recommendations are distributed to the affected communities.

(11) The Board of Education will hold a worksession and may request by majority vote that alternatives to the superintendent's recommendations be developed for official review.

(12) Recommendations from the superintendent and Board-adopted alternatives will be the subject of public hearings prior to final Board action.

d) Cluster Reports

(1) By July 15, cluster representatives should state in writing to the superintendent any proposals, priorities, or concerns that the cluster has identified for its schools.

(2) The cluster may amend its views by September 15 in cases where fall enrollments or other events may change cluster comments.

(3) Cluster reports are to be considered in facilities recommendations made by the superintendent in the subsequent capital improvements program (published November 1).

e) Public Hearing Process
Public hearings usually scheduled for mid-November are open to the potentially affected public and are held annually following publication of the superintendent's recommended CIP. This document incorporates any boundary changes and school closure/consolidations that may also be recommended.

(a) The PTA cluster coordinator will coordinate testimony at the hearing on behalf of cluster schools.

(b) Civic groups, municipalities and countywide organizations should contact the Board of Education office to schedule testimony.

(c) Public comments from individuals not represented by school or civic groups will be heard by the Board of Education at an appropriate place in the public hearing. Individuals should contact the Board Office to schedule testimony.

Written comments from interested parties will be accepted at any point, but in order to be considered comments must reach the Board 24 hours before the time scheduled for action by the Board.

Public hearings may also be held on any CIP or facilities planning issues deferred from the fall. These usually would occur in late February or early March. In unusual circumstances public hearings may be called at other times to consider facility issues that do not fit into the fall or spring timetables.

5. School Closures and Consolidations

The Maryland State Board of Education requires all school systems to consider certain factors and follow set procedures in cases where a school closure is contemplated. The procedures described below are in accordance with those requirements and the guidelines as outlined in this Board of Education policy.

a) The following information on each school that may be affected by a proposed closing shall be prepared and analyzed:

(1) Student enrollment trends
(2) Number of transfers into school from outside attendance area

(3) Race/ethnic composition of student body

(4) Educational programs at schools

(5) Age or condition of building

(6) Review of school's location and site characteristics

(7) Building characteristics, including any modifications for special programs

(8) Physical condition

(9) Financial considerations including operating costs

(10) Feeder pattern

(11) Percentage of students transported

(12) Potential of the facility for alternative use

(13) Student relocation

(14) Impact on community in geographic attendance area for school proposed to be closed and school, or schools, to which students will be relocating.

Copies of the data are also to be sent to affected schools' principals and community representatives.

b) In conjunction with requirements, the superintendent shall provide an analysis of each school's current and projected enrollment given the enrollment and facility standards described in this policy and analysis of the impact of closure/consolidation options on racial/ethnic balance and objectives of the QIE policy.

c) Recommendations for closure or consolidation should move schools toward standards for enrollment and facility utilization and should represent fiscally responsible and educationally sound responses to changing enrollment. Recommendations should be consistent with the Board's policy on Quality Integrated Education. They should enable as many students to walk to school as possible, and minimize transportation distances except when transportation or longer distances are required to address racial and ethnic isolation.
d) The community's role in the process shall be as follows:

(1) The superintendent may request formation of a community advisory committee to provide input prior to making any recommendations. Procedures for operation of advisory committee found in Section E.4c (on boundary changes) shall be followed in instances where school closures/consolidations are being considered.

(2) The superintendent shall publish recommendations for school closures and consolidations by November 1. After providing recommendations to the Board of Education, copies are to be sent for review and comment to the M-NCPPC, State Board of Education, State Interagency Committee, County Council, municipalities, county government, MCCPTA and all affected school PTAs and cluster coordinators.

(3) Individuals, schools, and/or community organizations may react to the recommendations for their school within two months after they are distributed. All reactions and community-developed proposals will be shared with the Board.

(4) If an individual or community group wishes to develop an alternative proposal affecting its school and others in the area, it should involve representatives of all school communities affected by the recommendations or make efforts to secure such representation. Any community plans should be sent to the superintendent within two months after the recommendations are distributed.

(5) The superintendent shall develop formal recommendations after considering individual and community reactions and alternatives and submit them to the Board of Education by February 1.

(6) If the Board chooses to request alternatives to the superintendent's formal recommendations, affected communities will be informed about them promptly.

(7) Subsequent to these steps, the Board's prescribed process for public hearing shall be followed. (see Section E.4e) In addition, state requirements for adequate notice to
parents and guardians of students in attendance at all schools being considered for closure by the local board of education will be followed. In addition to any regular means of notification, written notification of all schools that are under consideration for closing shall be advertised in at least two newspapers having general circulation in the geographic attendance area for the school or schools proposed to be closed, and the school or schools to which students will be relocating.

(8) The newspaper notification shall include the procedures that will be followed by the local board of education in making its final decision. Time limits on the submission of oral or written testimony and data shall be clearly defined in the notification of the public meeting. The newspaper notification shall appear at least two weeks in advance of any public hearings on a proposed school closing. The Board reserves the right to solicit further input or to conduct further hearings if it considers them desirable.

(9) In making its decision, the Board shall take into account the superintendent's recommendations and the criteria outlined in this policy.

(10) The final decision of the Board of Education to close a school shall be announced at a public session and shall be in writing. The final decision shall include the rationale for the school closing and address the impact of the proposed closing on the factors set forth above in this policy. There shall be notification of the final decision of the local board of education to the community in the geographic attendance area of the school proposed to be closed and school or schools to which students will be relocating. The final decision shall include notification of the right to appeal to the State Board of Education.

(11) Except in emergency circumstances, the decision to close a school shall be announced at least 90 days before the date the school is scheduled to be closed but not later than April 30 of any school year. An emergency circumstance is one where the decision to close a school because of unforeseen circumstances cannot be announced at least 90
days before the date a school is scheduled to close or before April 30 of any school year.

F. Review and Reporting

1. The annual June publication of the Master Plan will constitute the official reporting on facility planning. This document will reflect all facilities actions taken during the year by the Board of Education and approved by the County Council, project the enrollment and utilization of each school, and identify schools that may be involved in future planning activities.

2. This policy will be reviewed every three years in accordance with the Board of Education's policy review process.
RESOLUTION NO. 523-93  Re:  ADJOURNMENT

On recommendation of the superintendent and on motion of Mr. Sims seconded by Mrs. Fanconi, the following resolution was adopted unanimously:

Resolved, That the Board of Education adjourn its meeting at 11:15 p.m.
