RESOLUTION NO. 323-97  Re:  GRANT OF STORM DRAINAGE EASEMENT AT QUINCE ORCHARD HIGH SCHOOL

On recommendation of the superintendent and on motion of Ms. Prager seconded by Mrs. King, the following resolution was adopted unanimously:
WHEREAS, The Montgomery County Government has requested a grant of storm drainage easement on a portion of the Quince Orchard High School site, located at 15800 Quince Orchard Road in Gaithersburg; and

WHEREAS, The proposed grant of storm drainage easement, consisting of 27,231 square feet, is necessary to provide storm drainage facilities to serve Quince Orchard Road; and

WHEREAS, The proposed grant of storm drainage easement will not adversely affect any land anticipated to be utilized for school purposes and would benefit the school and community by providing improved storm water drainage; and

WHEREAS, The storm drain, which was constructed when the school was built, will now be maintained by the Montgomery County Government, who with its contractors, will assume liability for all damages or injury; now therefore be it

Resolved. That the president and secretary of the Board of Education be authorized to execute a grant of storm drainage easement, consisting of 27,231 square feet, for the Montgomery County Government at Quince Orchard High School.

RESOLUTION NO. 324-97 Re: GRANT OF STORM DRAINAGE EASEMENT AND RIGHT OF WAY AT BRIGGS CHANEY MIDDLE SCHOOL

On recommendation of the superintendent and on motion of Ms. Prager seconded by Mrs. King, the following resolution was adopted unanimously:

WHEREAS, The Montgomery County Government has requested a storm drainage easement and right of way at Briggs Chaney Middle School, located at 1901 Rainbow Drive in Silver Spring; and

WHEREAS, Design and construction of a storm drain along the frontage of Rainbow Drive require a grant of storm drainage easement and right of way of 6,892 square feet of land; and

WHEREAS, The proposed grant of storm drainage will benefit both the school system and community by providing efficient storm water drainage and will not affect any land anticipated to be utilized for school purposes; and

WHEREAS, All construction and restoration will be performed at no cost to the Board of Education, with the Montgomery County Government and its contractors assuming liability for all damages or injury; now therefore be it
Resolved, That the president and secretary of the Board of Education be authorized to execute a grant of storm drainage easement of 6,892 square feet of land along the frontage of Rainbow Drive at Briggs Chaney Middle School.

RESOLUTION NO. 331-97  Re: NAME FOR THE NEW NORTHWEST AREA MIDDLE SCHOOL

On recommendation of the superintendent and on motion of Ms. Signer seconded by Mrs. Gordon, the following resolution was adopted with Dr. Cheung, Mr. Ewing, Mr. Felton, Mrs. Gordon, Mrs. King, Ms. Prager, and Ms. Signer voting in the affirmative; Ms. Gutiérrez abstaining:

WHEREAS, A committee representing the new Northwest Area Middle School community was formed to consider names for the new school in accordance with MCPS Policy FFA-RA, Naming of Schools; and

WHEREAS, The committee followed appropriate procedures in choosing a name for the new school; now therefore be it

Resolved, That the new Northwest Area Middle School officially be named Kingsview Middle School.

Ms. Gutiérrez made the following statement for the record: “The reason why I am abstaining is that we have as a Board adopted a policy that states that ‘it is preferred that
schools be named for distinguished persons, no longer active in their careers, who have made an outstanding contribution to the community, county, state, or nation. The Board of Education will give strong consideration to names of women and minorities so that these are equitably represented among county school names.’ Then, as a following point, ‘geographic names may also be considered for new schools. These names should be clearly identifying, widely known, and recognized.’ I do think that our policy recommends that we give higher consideration to names of distinguished individuals, and that we also consider names for women and minorities. I would hope that in the future, future schools that will be named, will look at our policy, and, hopefully, follow the statements that are contained there.”

Re: FINAL REPORT OF THE TEACHER EVALUATION SYSTEM ADVISORY GROUP

Dr. Vance invited the following people to the table: Mrs. Sharon Friedman and Dr. Robert Shoenberg, co-chairs of the Teacher Evaluation Advisory Group.

Dr. Shoenberg gave a brief background of the work of the committee including purpose of the work group, history of the MCPS Teacher Evaluation System, work group activities, purposes and components of an evaluation system, and examination of the current MCPS Teacher Evaluation System.

The following recommendations for the development of the MCPS teacher evaluation system are based on the assumption that the continuous improvement philosophy and principles will become an integral part of the MCPS organizational culture:

1. Develop a teacher evaluation system which has a primary focus on excellence in teaching through professional growth and development.
2. Base teacher effectiveness on teacher competencies and illustrative indicators (currently title “Performance Criteria”) which include the state requirements of scholarship, instructional effectiveness, management skills, professional ethics, and interpersonal relationships.
3. Develop a teacher evaluation system that establishes differentiated evaluation models.
4. Develop a teacher evaluation system in which the teacher and evaluator collaborate in identifying the objectives for professional improvement and determine the criteria by which success will be measured.
5. Develop a teacher evaluation system which provides more support for evaluators.
6. Centralize the authority, responsibility, and resources to implement and assess the evaluation system.
The Board members expressed their appreciation for a comprehensive report as well as thanking the members of the work group for devoting a great deal of time to this project.

Individual Board members voiced interest in the following issues:

1. Mr. Felton stated that the Board has indicated a keen interest in making changes to the present system, and it needed the input from the work group prior to moving forward with that commitment. He was pleased with the work groups comments on differentiated evaluation models. He asked if there were any discussions regarding the 360-degree approach where many people participate in evaluations — clients and supervisors?

2. Ms. Prager expressed support for and requested the superintendent to provide recommendations in the following areas: (a) student progress linked to teacher’s performance and evaluation; (b) mechanism for constructive feedback to the teacher from the students; and (c) recognition and rewards for teachers.

3. Mr. Ewing was delighted that the work group did not include merit pay as an incentive for teachers. Because the work group indicated implementation should start with bringing in outside expertise to lead the development effort, Mr. Ewing inquired about the availability of such expertise.

4. Dr. Cheung pointed out that the key elements of any evaluation system are trust between the participants as well as implementation/deployment. Other important evaluation elements are continuous improvement, customer focus, and feedback. An individualized student profile will easily provide data for students progress and the linkage with dynamic instruction. An individualized teacher profile would also aid in the professional development and evaluation of teachers. Former MCPS principals and teachers could serve as a pool of experts to facilitate the implementation of a teacher evaluation system.

5. Mrs. King observed the pitfalls in any evaluation plan, and there are many considerations the Board must assess prior to adopting a teacher evaluation plan.

6. Ms. Gutiérrez suggested other groups have developed excellent evaluation systems, and there might be a way of adapting those systems to a MCPS model. When a system is tied into the school performance plan, the teacher can be measured for objective and clear results. There also needs to be ownership of the teacher as to the mission of the school. She was also concerned about the implementation strategies in order to move the process along in a timely fashion.

7. Ms. Signer raised the following points: (a) emphasis on helping teachers improve their performance; (b) link to student performance; (c) differentiated evaluation models; (d) remediate teachers who need help and/or terminate those who are incompetent; (e) streamline the appeals process; (f) MCPS awards tenure too soon; (g) strong proponent of pay for performance; and (h) timeline for implementation.

8. Mrs. Gordon agreed that tying the evaluation system to professional development and growth was the most important part of the report. She thought the school system needed a method clearly defining the objectives and how a teacher’s
performance fits into the mission of the school and school system. There is also a need a plan to help teachers develop their full potentials.

Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Vance announced that Burning Tree Elementary School has won a national award for excellence in the Blue Ribbon Schools of Excellence Program, sponsored by the U.S. Department of Education. The school was selected for the recognition after undergoing a rigorous review and on-site visits by a panel of educators chosen by the Department of Education to review the 527 nominees for the national award. Winners were named based on criteria such as outstanding curriculum and instruction, and strong leadership, school climate, and parent and community support.

Ms. Signer recently attended the graduation ceremony for the Department of Alternatives Programs, and she was moved by the students and their stories. With the additional help offered by MCPS, 32 students received a diploma. She congratulated the students and staff for this milestone.

Mr. Ewing listed the following issues for consideration in the upcoming budget as well as long-range planning for the school system:

1. Conventional wisdom says that the average student needs help. What are the efforts to meet those needs? Are there special programs or resources needed? Is class size reduction the answer to the issue? Who are these students? If the school system is serious about the average student, there needs to be a statement about the problem, its origins, its nature, its extent, and the potential solutions.

2. The Board needs to think seriously about a substantial resource investment in the development of a teacher evaluation system as well as the training, maintenance, and operational costs.

3. There is a need for a comprehensive strategy and effective programs to deal with disruptive students. The key issues for parents in the school system are the safety of their children, the ability to attend school undisturbed by disruptive students, and the quality of education.

4. According to the Washington Post, there is rising poverty in the suburbs and the need for educational supports for these children. He hoped that the school system would research literature for strategies to deal with poor students and devise a plan of action.

5. He thought that curriculum reform is key to MCPS' future success. There has been enormous success with math and science; however, there are serious shortfalls in English, social studies, and disciplines having to do with communication, socialization, good citizenship, cultural values.

6. The Board needs to assess what it wants to do about character, moral values, or other kinds of values that the school system wants to teach children. He suggested
when we talked about this last, that we need to have a solid, intellectual underpinning to whatever we propose to do. He would recommend to the staff of the system and to the superintendent and to the Board a remarkable book by a remarkable man. The book is called *The Moral Intelligence of Children* by Robert Coles. This is a book which talks about what happens with children at that age, and what it is that parents, schools, and community can do based on a broad and deep knowledge drawn from anthropology, sociology, psychology, psychiatry, social science, and, whatever you feel comfortable. It is a basis for, not simply adopting it, but for debating some of the issues.

Mrs. King testified before the State Board of Education on the high school assessment. They are coming to Montgomery County on June 12 to meet with staff.

Mrs. Gordon announced the death of George Lisby, a member of the Harford County Board of Education. It will be a great loss to Harford County and all the children in the state because he always made child-centered decisions. Dr. Grasmick is sincere in seeking feedback on the high school assessment. Mrs. Gordon will be sending updates through MABE to all of the Board.

RESOLUTION NO. 332-97 Re: CLOSED SESSION RESOLUTION

On recommendation of the superintendent and on motion of Dr. Cheung seconded by Ms. Gutiérrez, the following resolution was adopted unanimously:

WHEREAS, The Board of Education of Montgomery County is authorized by the Education Article of the Annotated Code of Maryland and Title 10 of the State Government Article to conduct certain meetings or portions of its meetings in closed sessions; now therefore be it
