The Board of Education met in closed session from 8:30 to 10:00 a.m.

Re: ELECTION OF OFFICERS

Dr. Vance announced that as secretary-treasurer of the Board of Education he would preside until the election of the president. To be elected president or vice president, a member needed five votes, and all members were in nomination.

Mrs. Gordon asked for a point of personal privilege which Dr. Vance granted. Mrs. Gordon made the following statement: "There has been a great deal of discussion around the officers of the Board, and much of the discussion has divided the Board. Therefore, I am requesting that my name be withdrawn. I believe that it is important that we are able to unify behind the officers, and, therefore, I ask my colleagues to support someone who will unify the Board. I am asking them to support Mr. Felton for president."

Dr. Vance announced the results of the first ballot:
- Ms. Signer voted for Mr. Felton
- Ms. Gordon voted for Mr. Felton
- Mrs. King voted for Mrs. King
- Mr. Felton voted for Mr. Felton
- Mr. Butler voted for Mrs. King
- Mrs. O'Neill voted for Mr. Felton
- Mr. Abrams voted for Mrs. King

Dr. Vance presented Mrs. King with a gift in appreciation for her service as president of the Board of Education.

Mr. Felton was elected president and assumed the chair.

Mr. Felton announced the results of the first ballot:
- Mr. Abrams voted for Mrs. O'Neill
- Mr. Butler voted for Ms. Signer
- Mrs. O'Neill voted for Mrs. O'Neill
- Mrs. King voted for Mr. Abrams
- Ms. Signer voted for Ms. Signer
- Mrs. Gordon voted for Ms. Signer
- Mr. Felton voted for Mrs. O'Neill
Mr. Felton announced the results of the second ballot:
- Ms. Signer voted for Ms. Signer
- Mrs. Gordon voted for Ms. Signer
- Mrs. King voted for Mrs. O'Neill
- Mrs. O'Neill voted for Mrs. O'Neill
- Mr. Abrams voted for Mrs. O'Neill
- Mr. Butler voted for Mrs. O'Neill
- Mr. Felton voted for Ms. Signer

Mrs. O'Neill was elected vice president.

Mrs. O'Neill commended Mrs. King for her outstanding job as president and reaching out to all groups to build a consensus. She had witnessed Mrs. Gordon in action as the president of MABE, and she brought a wealth of knowledge to that position. Mrs. O'Neill commented that the Board must work together as a team since there are many things to accomplish in the coming year.

Mr. Felton thanked his colleagues for their confidence in him for another term as president. The past four years had given him the opportunity and vision to move the system forward. He thanked the Superintendent for his support which was needed to guarantee the success of the Board officers. He thanked Mrs. King and Mrs. Gordon for their leadership over the past year. There were many difficult decisions ahead, and he hoped that the Board would commit itself to excellence and a style that would build confidence in the public schools. The primary issue before the Board was to improve student achievement.

Dr. Vance commended the Board for its wisdom and foresightedness. As the outgoing Superintendent, the next six months of transition would impose additional responsibilities on the Board. It was incumbent for the Board to work together as a collective unit. Montgomery County was quickly becoming a leader in the state, especially with its excellent school system.

Ms. Signer congratulated Mr. Felton and Mrs. O'Neill. This had been a very divisive selection of officers, and she thought that was very unfortunate. It was the first time the Board had not elevated the vice president to president. Her support for Mrs. Gordon was strong, and Ms. Signer believed that Mrs. Gordon had been a strong and fair president when she served four years ago, and Ms. Signer felt she would have done the same this time. Also, she committed her support to Mr. Felton as president. It was time for the Board to put whatever differences it had behind it and work together on the upcoming important decisions.

Mr. Abrams remarked that Mrs. Gordon had been an able member of the Board, and he had
supported her over the years and as president. In fact, he had supported her during 13 rounds of balloting the year Mrs. Gordon sought a second year of presidency. To dismiss any suggestion to the unprecedented nature of the present election, it had been a tradition to elect the vice president as president, but it was not a requirement for the selection of the president. He added that Mrs. Gordon would be very busy this coming year in representing MCPS as president of MABE. The Board had a superintendent search to conduct that would occupy a great deal of time. The Board was made up of individuals, but it must do the public’s business. The elected officers would provide the Board with the image, leadership, and time commitment required for the Board’s actions to demonstrate unity.

Mr. Butler congratulated the president and vice president. He thanked Mrs. King for her service to the students of Montgomery County. He agreed with Ms. Signer’s statement that this election had divided the Board. The Board was made up of different people, and there would be a consensus on some issues while on other issues there would be division. The Board must keep its eye on the goal of quality education for all students.

Mrs. King voiced her support for Mr. Felton and Mrs. O’Neill as officers, and she looked forward to the work that must be done during the coming year.

RESOLUTION NO. 822-98 Re: APPROVAL OF THE AGENDA

On recommendation of the Superintendent and on motion of Ms. Signer seconded by Mrs. King, the following resolution was adopted unanimously:

Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Vance was pleased to congratulate the following MCPS athletes who achieved state championships this fall: (1) Walter Johnson High School, 3A boys=cross country; (2) Bethesda-Chevy Chase High School, 2A girls=field hockey; (3) Seneca Valley High School, repeat champions in 4A football; (4) Winston Churchill High School, 4A/3A boys=golf; (5) Walt Whitman High School, 4A girls=volleyball; and (6) Thomas S. Wootton High School, 4A girls=soccer. This was the very first year MCPS participated in this state soccer tournament since moving girls=soccer from the spring to the fall sports season.

In addition, there were nine individual state champions in girls=tennis from Sherwood, Walter Johnson, Walt Whitman and Thomas S. Wootton high schools - and the state first place
medalist in girls' golf is also from Wootton.

Speaking of champions, Dr. Vance stated that one of the Rhodes Scholars named this past Saturday was Jose D. Vargas, a 1996 graduate of Col. Zadok Magruder High School.

Dr. Vance congratulated Mrs. King and Mrs. Gordon for their service last year as Board officers. The accomplishments last year were monumental in so many areas, and it was due to their leadership.

Ms. Signer commented that the Board had received a copy of the financial management letter. After this meeting, she wanted the Audit Committee to convene and review both the management letter and the audit conducted by Peat Marwick. Ms. Signer requested that the Superintendent react to the McLean School's request for expansion, and his response should include options for MCPS and if the issues expressed by the community had merit.

Mr. Abrams wanted more information on the use of scanners for checking security at Springbrook High School's indoor athletic events. He asked if it was true that staff was scanned, and, if so, were there other options for admitting staff to the events.

Mr. Felton thanked Mrs. Ruby Rubens, Ombudsman/Staff Assistant in the Board Office, for her support, and he wished her well on her retirement.

Re: 7TH ANNUAL REPORT ON THE SYSTEMWIDE OUTCOME MEASURES OF THE SUCCESS FOR EVERY STUDENT PLAN

Dr. Vance invited the Executive Staff and Dr. Marlene Hartzman, director of the Department of Educational Accountability, to the table.

The Seventh Annual Report on the Systemwide Outcome Measures of the Success for Every Student Plan provided a comprehensive summary and analysis of the outcome measures for the 1997-98 school year, with comparative data for two previous years and a base-line year for each individual outcome area. The data and information, as well as the accompanying analysis and commentary, form the basis for a significant overview of the progress of the past year, the status of the Success for Every Student Plan, and areas for continued improvement. The report included data from the Maryland School Performance Program by the Maryland State Department of Education.

Significant Achievement Areas of the Success for Every Student Plan, 1997-98

Raising Proficiency Standards
An average of 60 percent of students in third through eighth grade reached the proficiency standard on the mathematics criterion-referenced test (CRT).

An average of 71 percent of students in grades three through eight reached the reading CRT proficiency standard -- the highest performance in five years. Students in Grade 5 are the first to have met the outcome measure of 75 percent or more students achieving the reading proficiency standard.

Overall, the average performance in reading for students in grades three through eight placed students at the 73rd to 79th percentile nationally - the highest range ever achieved.

Improving the Instruction of the Typical High School Student

69 percent of ninth graders completed Algebra 1 or a higher math course.

33 percent of eighth graders completed Algebra 1 or a higher math course.

54 percent of all high school students took honors and advanced placement courses.

83 percent of the 6,124 advanced placement exams taken earned scores high enough for potential college credit.

The average Scholastic Assessment Test (SAT) score of 1092 remained the highest in Maryland, with 77 percent of all 12th graders taking the SAT - the highest participation rate ever.

Taking Care of the Fundamentals

All but one of the state standards of the Maryland School Performance Program (MSPP) were achieved by elementary and secondary schools.

Nearly all students passed the state functional tests in reading, mathematics, writing, and citizenship for high school graduation - most while in middle school.

Student daily attendance reached 96 percent in elementary schools, 95 percent in middle schools, and 94 percent in high schools - the highest ever and met the state standard for the first time.
The dropout rate declined to 2 percent.

- To do this MCPS will:
  - maintain and enhance initiatives and systemic reform
Mr. Felton commended staff for an excellent presentation. The issue of FARMS linked to poor performance was not a value connection based on research. Based on the presentation, he asked what the message was to the Latino and African-American communities. Dr. Seleznow replied that the message was that all children can succeed and the school system expects that despite socioeconomic status. The emphasis would be to train teachers, deliver resources, and establish an instructional program to support achievement.

Ms. Signer understood why the school system reported data by racial and ethnic groups, but she was troubled that it perpetuated stereotypes. The data showed that at the 650 score on the CRT there was still a disparity in achievement, and it was based on socioeconomic factors. Dr. Seleznow replied that staff was analyzing all elements that influence student performance, especially socioeconomic factors.

Regarding the participation rate of African-American and Hispanic students in advanced placement and honors classes, Ms. Signer asked if the MCPS rate was mirrored nationwide. She wanted to know how many of those students were taking more than one class. She requested a list of the number of classes and participation. Dr. Seleznow stated that he would share that information in writing with the Board.

Ms. Signer asked about the regression equation, and in the past years staff had talked about outliers. On a case-by-case basis, she asked if staff had been able to follow the progress of those outliers, and whether or not the peer grouping had been successful. Dr. Seleznow answered that those groups had been tracked, and there had been improvement. Staff had learned that there was a need to look at success or failure on a school-by-school basis.

Ms. Signer pointed out that the data could be examined on a school and system basis, but she hoped that it would be used to look at the individual student. She would like to see the system developed by Bill Sanders in Tennessee with the value-added approach and the expectation that all students’ academic achievement would improve regardless of where they were on the standard indicators.

Mrs. O’Neill was optimistic that the reading initiative would have a long-term impact in improving CRT scores. Still, she had concerns about the mobile student population, and such an initiative cannot cease at the primary grades. There are students, especially at the poverty level, that join the school system in later grades without the benefit of the reading
initiative. Again, the successful participation of students in Algebra I would have an impact on SAT scores. She asked what the number of students was that did not take the advanced placement tests based on the expense.

Mrs. King was curious about the rate of student improvement that teachers were observing since the start of the reading initiative. Dr. Seleznow reported that teachers and staff have observed success, and the antidotal information was extremely positive.

Mrs. Gordon stated that she had been a firm supporter of Success for every Student since 1990 when Dr. Vance introduced the concept. She believed that SES was the right approach, and that philosophy had kept the school system moving forward. Whenever there was a classroom that was similar in demographics but dissimilar in performance, the school system must look at the expectations for those students. The Maryland Association of Boards of Education passed a resolution that it was committed to solve the problem of the different performance of Latino and African-American students. The state issued a report and asked each board of education to allot time on their agendas to discuss this issue, and MCPS was not exempt. She was sorry that the revised SES plan was not scheduled in a timely matter, and that the Board officers would make that a top priority in the future.

Mr. Abrams commented that there needed to be a measure of success for the non-college bound student. In light of the completion of Algebra I and the improvement in SAT scores, he asked if that were as relevant to vocational students or whether there was a need for an indicator that was similar to algebra, but related to vocational students. He had heard that basic business math was not mastered by non-college bound students. Dr. Seleznow noted that students interested in auto mechanics or automotive engineering needed the same math requirements. Mr. Abrams agreed that algebra may be necessary, but the connecting step was SAT scores, and the SAT score was not relevant to the non-college bound student. He asked what was the measure to reach each and every student since the data would leave out certain students.

Mr. Abrams noted that the report spoke in one section about racial/ethnic factors and in other section there was reference to socioeconomic factors, and the two factors never coalesced. It seemed to him that these two factors must merge, and the data must have an overlay of both factors. However, there was another factor of external influences. He asked what was the racial and/or socioeconomic factors between staff and was there a relationship with expectations for student performance. Clearly, the focus and objectives of SES were still valid, but disparities must be studied in more detail. Dr. Seleznow agreed and there was not one factor that influenced student performance.

Mr. Butler congratulated staff on a great presentation. He asked if the information was readily available to community since the data illustrated improved student achievement. He asked staff how students could be motivated to take more advanced courses, especially
African-American students. Dr. Seleznow replied that a work group was investigating honors and advance placement courses to determine enrollment practices and incentives for student participation. There were issues of expectations, counseling, support, and information.

Mrs. Gordon remembered that the Board had previous discussions about the practices of various high schools on how students enter honors or advanced placement courses. Across all high schools, there was a wide variation in how students enter and exit those classes. In many cases, students were not permitted to merely decide to enter the class, since there were a series of recommendations or criteria that must be met. If the school system was serious about increasing the participation by all students, the entrance into those classes must be evaluated and modified. She hoped that the Board would get the results of the review from the work group. She thought the commitment of the student was the single determining factor for success. Dr. Seleznow reported that the work group was not finished with the review, and it will be ready in February 1999.

Mr. Felton wanted to know what the specific plan would be for staff to address the issue of expectations for all students. Dr. Seleznow remarked that trained staff must use data more effectively, standards need to be set, and patterns that emerge must be studied.

Re: 1999-2000 SCHOOL CALENDAR

Dr. Vance invited the following people to the table: Dr. Patricia Hahn, Executive Assistant to the Superintendent, and Mrs. Katherine Bennett, Administrative Secretary in the Office of the Superintendent of Schools.

The recommended school calendar for the 1999-2000 school year includes a contingency plan identifying days that will be used to make up lost instructional time due to emergency closings. The school calendar includes the same non-school days that have been designated in the past. The number of holidays and the days on which they occur has required some changes in the proposed calendar.

The 1999-2000 school calendar proposes school to begin before the Labor Day holiday that does not occur until September 6, and to avoid continuing school for students into the week of June 19. We will retain the additional instructional hours for students by replacing the October and December early-release days for Success for Every Student with a full day of professional development for all employees (both professional and supporting services) on October 6. The recommended calendar is based on 184 instructional days and includes the following assumptions:

1. Starting school before Labor Day which falls on Monday, September 6
2. 191 duty days for teachers
WHEREAS, The establishment of school terms by the Montgomery County Board of Education is required by state law; and

WHEREAS, Montgomery County parents, community, and staff should be informed of the Board adopted school calendar each year and the subsequent contingency plan identifying days that will be used to make up lost instructional time due to emergency closings; now therefore be it

Resolved, That the proposed school calendar and contingency plan for 1999-2000 be adopted.

Re: DISCUSSION

Ms. Signer asked it staff knew the number of early release days. Mr. Bowers replied that there were two at the end of the 1st and 3rd marking periods, as well as parent conferences. Ms. Signer observed that there was a need for more staff training days, and she asked if there had been any consideration to use election days for in-service training.

Mrs. O'Neill commented that at the start of school there had always been a great deal of time off, and she asked why schools started on Wednesday and not on Monday. She asked if the Year 2000 concern had been factored into the calendar. Mr. Bowers stated that the delay in starting the school year was due to (1) nine construction projects, and (2) the gap between summer school and the regular school year and to need to allow a break for teachers. The county through effective remedies and careful contingency plans had addressed the Year 2000 problem.

Mrs. Gordon commented that teachers had suggested that the day before Thanksgiving be part of the holiday and extend the school year by a day. Also, she knew that several school districts in the state used the primary election day for staff development.

It was the consensus of the Board to postpone the vote on the school calendar. The following suggestions and/or actions should be evaluated prior to reintroduction of the item on January 12, 1999:

3. 184 instructional days for students
4. Non-school day for Yom Kippur which falls on Monday, September 20 (Rosh Hashanah falls on Saturday, September 11)
5. Combining two early release in-service days (October/December) into one full day on Wednesday, October 6
6. Presidential Primary Election Day which falls on Tuesday, March 7
7. The spring break before Easter which falls on Sunday, April 23 (Passover is April 20-27; begins at sundown on April 19)
1. Use the primary election day for in-service training with the possible elimination of two half days;
2. Have the day before Thanksgiving used as a day of leave;
3. Survey other jurisdictions; and
4. Check with the employees=organizations.

* Mr. Abrams temporarily left the meeting at this point.

Re: DISCUSSION

Ms. Signer noted that Ms. Liskov raised issues about the work plan and the extent to which the Ethics Panel had input. Also, there were issues on how the work plan assigned tasks. It was her hope that the consultant would serve as the temporary ethics officer. That person, working with the Ethics Panel, Board, and staff, would review the work plan and make decisions about priority tasks and their implementation within MCPS.

Mr. Felton stated that there would be a consultant to help work through the details on how the ethics officer position would operate.
