RESOLUTION NO. 367-99  Re:  PRESENTATION OF PRELIMINARY PLAN - WOOD ACRES ELEMENTARY SCHOOL MODERNIZATION

On recommendation of the Superintendent and on motion of Ms. Signer seconded by Mrs. King, the following resolution was adopted unanimously:

WHEREAS, The architect for the modernization of Wood Acres Elementary School, McDonald Williams Banks Architects, has prepared a schematic design in accordance with the educational specifications; and

WHEREAS, The Wood Acres Elementary School Facilities Advisory Committee has approved the proposed schematic design; now therefore be it

Resolved, That the Board of Education approve the preliminary plan report for the modernization of Wood Acres Elementary School developed by McDonald Williams Banks Architects.
Dr. Vance invited the following people to the table: Dr. Kathy Scales Bryan, chairperson for the Title IX Gender Equity Advisory Committee for the 1997-1998 school year, and Ms. Mary Ann Jobe, coordinator, career initiatives and family and consumer sciences and staff liaison to the committee.

Dr. Bryan presented the following recommendations for the Board to:

1. Approve and support the implementation of the Title IX Committee website.
2. Approve and support continued data collection on participation of males and females in Global Access and other technology education, and support further study of gender equity in relation to technology access and participation.
3. Approve and support further study of the implementation of sexual harassment training for staff and students (following up on 1996-97 recommendations).
4. Approve and support development of a sexual harassment curriculum unit for middle and high school students, similar to the one developed by Guidance for lower grades.
5. Clarify the role of the internal review process of advisory committee reports.

Mr. Abrams asked how much the website recommendation would cost, if implemented, and would it be maintained by the committee or some other entity. Ms. Jobe indicated that Mr. Walsh, chief information technology officer, thought that the office could implement the website at no additional cost using school system personnel.

Ms. Signer asked if any Board advisory committees were linked to the MCPS website, and, if not, could this be done. Dr. Vance stated that he would need to get a report. Ms. Jobe commented that this was the first committee to ask to be on the website.

Mrs. O’Neill thought it was the responsibility of the school system to train staff on gender equity, especially in light of the Supreme Court ruling. Dr. Vance replied that MCPS’ attorneys had reviewed current policy and practice and had concluded that MCPS was in compliance. Mrs. O’Neill requested information on the ongoing staff training on sexual harassment issues.

Mr. Burnett stated that each new employee in the corporate world receives sexual harassment training and that training is updated every year thereafter. He asked what the practice was in MCPS regarding the frequency of training. Ms. Jobe replied that in August 1998 a packet was sent to all principals with training materials for new staff, current staff,
and students. The Department of Human Relations continued training for central office staff. Mr. Burnett asked about the assurances that everyone within MCPS received training on an annual basis. Ms. Alvez (Department of Human Relations) replied that MCPS did not demand that every employee be trained on an annual basis, but administrators were charged with the duty to ensure that training was provided for staff and students, especially within the first year of employment.

Mr. Abrams interpreted that the private sector requirements were different from public institutions, especially with private companies with federal contracts. He asked for the school system’s recommendations for ongoing and updated information on changes in sexual harassment laws and implementation.

**Re: BALLFIELD WORK GROUP REPORT**

The Ballfield Work Group, established at the request of Councilmember Stephen Silverman, was organized by Planning Board staff and chaired by Dr. Tom Egan, who is active with private sports associations in the Burtonsville area. MCPS was represented by Mr. Vivian D'Souza, acting director of facilities management, and Mr. G. C. Edward Masood, director of aesthetic, health, and physical education. Mr. Donald Cochran, director of parks, Mr. Greg Bayor, director of recreation, and Mrs. Ginny Gong, director of the Interagency Coordinating Board (ICB), represented county agencies. Representatives from 13 youth sports associations in the county also participated in the work group. Dr. Vance had asked the work group to include representatives from the high, middle, and elementary school principals' associations in future meetings.

The group was charged with the responsibility of assessing and documenting the availability of playing fields in the county, recommending the creation of additional playing fields if land was available, and recommending the reconfiguration and/or lighting of existing playing fields to maximize their use. This report was presented to the Planning Board and to a joint Planning, Housing, and Economic Development/Education Committee of the County Council in April.

MCPS facilities staff shared information about the report with high school principals at their monthly meeting in May. Copies of the report were sent to middle and elementary school principal leadership and MCCPTA. Staff will meet with these groups to explain the advantages of this collaborative effort.

Dr. Vance believed very strongly that it was in MCPS' interest to participate and collaborate with other agencies in this initiative that will result in upgrading our playing fields. The installation of new backstops, soccer goal posts, player benches, and protective fences on some sites and the reconfiguration of existing fields to provide more effective use will be a tremendous benefit to our physical education program. In addition, because
school playing fields are not as well maintained as Parks Department fields, the Parks Department was asked to provide proposals to maintain school fields on a par with Park fields. MCPS will continue to retain the right of “first use” for school day and extracurricular activities and there will be no infringement on school activities.

Mr. Charles Steinbraker, recreation administrator, Mr. D’Souza, Mr. Masood, and other members of the work group made the following presentation with recommendations.

1. The Ballfield Work Group Report was consistent with the Scope of Work framed by the Planning Board -- FY2000 short-term field recommendations.
2. The Ballfield Work Group Report created a partnership opportunity among major field providers and users to maximize and efficiently utilize public and private resources and initiatives.
3. The Ballfield Work Group Report recommended innovative field solutions and a broad range of cost sharing initiatives.
4. The Ballfield Work Group Report recommended that public expenditures be dispersed throughout the County.
5. The Ballfield Work Group Report identified a number of overarching policy issues that require resolution by County decision-makers in the future.
6. The Ballfield Work Group Report recommends a 2.4 million dollar cost sharing partnership to deliver approximately...

40 Renovated and/or reconfigured fields,
7 Lighted fields,
3 New game fields,
15 Existing open practice field areas that can be permitted, and
New equipment (goals and backstops) to expand game and practice opportunities.

RECOMMENDATIONS

1. Support FY 2000 short term field recommendations and associated funding levels and allocations.
2. Develop a comprehensive field maintenance funding package to support FY2000 short term field recommendations and subsequent field initiatives.
3. Initiate a comprehensive reexamination of the Adopt-a-Field Program to provide greater incentives to users, while retaining sufficient community use.
4. Authorize the Ballfield Work Group to proceed with development of FY 2001-2004 proposals and long term CIP recommendations for Planning Board presentation in July.
5. Transmit the Ballfield Work Group Report - Phase 1 to the County Council and Executive.

The purpose of the presentation was to apprise the Board of the work group's activities and to seek the Board's endorsements of these efforts.

Re: DISCUSSION

Mrs. O’Neill was concerned about the shortage and condition of practice fields within the county. While there is a need for such a partnership, MCPS must maintain its fields to schedule school athletic competitions. MCPS must monitor its fields, especially the stadium fields where maintenance is an issue with the growth of boys’ and girls’ sports. The high school principals must be involved in the entire process of ballfield usage. Adopt-a-Field is wonderful, but there are outside groups who feel they have a priority for field usage. Also, the disposition of closed schools must retain access to those fields, and the community must be taken into consideration. Gender equity must be observed when lighting ballfields.

Mrs. King thought the recommendations of the committee had some merit; however, the principals had not been consulted prior to the recommendations. If the committee was projecting a deficit of over 100 fields, she asked what plan would be in place to ensure that the present fields were not overused. Mr. Steinbraker stated that the fields were overused and there was too much pressure on Park and Planning and school fields. Mr. Cockran believed that there was an obligation with school staff to provide a quality field, and the Recreation Department would be the permitting agency to control field utilization. Mrs. King asked what would happen to community and booster club maintenance. Mr. Cockran stated that there would need to be a memorandum of understanding to lay out the responsibilities for all agencies.

Ms. Signer appreciated the work to maintain fields and additional support, but she was not prepared to endorse the recommendations of the Work Group. The principals were left out of the loop, and they must have community involvement. She needed to hear more from the principals and executive staff about the impact of the recommendations on the school system. Mr. Steinbraker clarified that the Work Group needed the Board’s endorsement to expend allocated funds to rehabilitate school ballfields. Ms. Signer stated that she understood their request.

Mr. Abrams asked if there had been sites identified for rehabilitation. Mr. Steinbraker stated that the group was very close and the Recreation Department had its top priorities for middle schools. Mr. Abrams asked if there had been any consultation with the school system. Mr. Steinbraker indicated that there had been no formal contract. Mr. Abrams thought that if there was money available for school fields in another agencies’ budgets
and there were fields that had been identified, there should be some communication with the parties regarding those sites and should be brought to the table.

Mr. Felton wanted to know who had authority over fields when school was not in session. Mr. Masood stated that school facilities are permitted through ICB with the schools having top priority for their use.

Mrs. Gordon had served as a liaison to ICB for over two years and understood the partnership. She agreed with Ms. Signer that the report came to the Board too late. Since the Board was a key component of the agreement and the recommendations were received so late, she was not prepared to take any action or position on the recommendations. She did not know what it meant to expend the funds and what the commitment was once the fields were rehabilitated. It was unfair not to involve principals, executive staff, and the Board until the 11th hour.

Mr. Burnett stated that most of his concerns were voiced by other members of the Board, and he was not prepared to vote on the recommendations due to lack of information, staff input, and clarification of the responsibilities and role of MCPS.

Mr. Abrams thought the item should be discussed further with the ferreting out of specifics in the proposal. After all issues were clarified by staff, then there could be a discussion with the Board for appropriate action.

Mr. Felton appreciated the Work Group’s work, but the principals must be involved from this point. He wanted to know if there was a Board requirement for approval for the Council to expend funds on the fields. The response stated that the Council saw funds to rehabilitate fields in four budgets in the county. Therefore, the Council asked for coordination between the four agencies to establish funding efficiency as well expansion and rehabilitation of fields in the county.

Mrs. Gordon mentioned that Mr. Cockran had stated that some schools might not come into the agreement. That was an important issue that the Board should hear about. Another issue was that formal user groups had been looked at, but many elementary schools were located within communities that use the fields on an informal basis. She thought that was an important piece that was overlooked. She hoped that the communities would be involved in establishing or upgrading fields. If the fields were booked throughout the playing season, it would not allow for citizens to use the fields on an informal and impromptu basis.

Mr. Felton summed up the dialogue and the request of the Board was to continue the dialogue with principals and staff to develop a plan for the use of ballfields. Dr. Vance
thought that clarification was needed as to the next steps of the Work Group based on the Board’s ideas.

Mrs. Gordon asked if principal representatives would be added to the Work Group. Mr. Steinbraker assured her that the new work group would have principals.

Re: BOARD/SUPERINTENDENT COMMENTS

Mr. Butler expressed his thanks to the Board of Education for their support throughout his term as student Board member.

Mr. Felton accepted the presentation on behalf of the John F. Kennedy High School PTSA to the Board in recognition of the Board’s commitment to the school. He acknowledged that this was the last Board meeting for Mr. David Fischer who was retiring and Dr. Lucinda Sullivan who was accepting the position of deputy superintendent for instruction in Atlanta, Georgia.
