Re: FINAL UPDATE ON LEGISLATION

Ms. Lori Rogovin, legislative aide, reported on the following legislation.

SB 719 – Education Finance, Equity, and Excellence Act of 2001 extends funding for programs through FY 2003:
1. Governor’s Teacher Salary Challenge Program (except the transitional component of at least $9 million)
2. Academic intervention program (changes allocation formula–page 12) – $19.5 million
3. Teacher mentoring programs – $15.9 million
4. At least $19 million to fund programs that improve the academic achievement of students in pre-kindergarten through third grade that shall be distributed in accordance with the recommendations set forth in the 11/86 report of the Task Force to Study Funding of Special Education (Governor’s Budget Request).
5. At least $11.625 million for the Judith Hoyer Early Child Care and Education Enhancement Program
6. At least $9.8 million to fund the program for reconstitution – eligible schools
7. $50 million in additional funds for the Baltimore City Public Schools
8. PG County School Construction Funds

HB 828 – Tax Amnesty Program allows individuals to file late or neglected tax returns without penalties that would normally be applied. The revenue generated would be directed to:
1. First $2 million – special fund for publicity, hiring by comptroller
2. Next $30 million to General Fund – for mental health deficiency appropriation
3. Next $8 million to a special fund to be used only to provide grants for public education for FY 2002 to Allegheny, Baltimore City, Caroline, Cecil, Dorchester, Garrett, PG, Somerset, Wicomico
4. Next $10 million to Low Interest Revolving Loan Account of the Volunteer Company Assistance Fund (volunteer fire companies)
5. Remainder to Tax Amnesty Reserve Fund – for counties and Baltimore City to be used for primary and secondary public education purposes only

Textbooks for private schools allocated $5 million for textbooks to private/parochial schools.

HB 67 – Juvenile Law – Prohibition Against Possession of Portable Pagers on School Property – Repeal passed by the General Assembly. This bill repeals a prohibition against the possession of portable pagers on public school property; states the intent of the General Assembly that local education agencies, working with the State Department of Education, develop local policies regarding the use of pagers and cellular telephones on public school property during school hours; and declares it is not the intent of the General Assembly to encourage with the enactment of the Act the use of pagers and cellular telephones on public school property during school hours. Amendments added to the legislation during Senate deliberations exempt certain Eastern Shore counties and the Baltimore jurisdictions from the repeal. HB 835, the local bill supported by the Board, which addressed cell phones after school hours, was given an unfavorable report by the House Judiciary Committee.

HB 791 and SB 124 – Education – Public Schools – Firearms Accident Prevention Program passed by the General Assembly. As amended, it requires the State Board to write the gun safety education guidelines for K-12. Local school systems would decide which program to use (several are mentioned in the bills, including the NRA Eddie Eagle Program) or to develop their own program. Children in kindergarten through Grade 6 would be taught about firearms safety and accident prevention, but would be prohibited from being exposed to guns. Students in Grades 7-12 would have the option of learning about firearms safety or hunting safety, depending on what the local school system chooses. In the hunting safety classes, students would be allowed to handle a rifle, shotgun or other firearm, but only at an established shooting range.

HB 775/SB 399 – Education – Creation of a Task Force to Study Adult Education Services in Maryland passed by the General Assembly. The membership includes two county superintendents and language in the bill specifically requires the task force to study the statewide need for adult education services, including instruction for adults in basic skills, English for Speakers of Other Languages, and family literacy. The report is due
November 1, 2001.

**SB 713 – Arrest of a Student – Transfer to Another School System – Notification** passed by the General Assembly, which would allow a local superintendent to share information with another school system about a child who has been arrested for certain offenses).

**SB 438 – Elementary and Secondary Education – Procurement – Competition** passed the General Assembly (with amendments), which would have required county boards of education to draft specifications encouraging maximum competition in public school procurement contracts. When it became clear that this legislation was moving, MCPS staff and the Green Street coalition worked to draft amendments to make the bill less onerous. Much of the substance of these amendments was retained in the final version of the bill. The new provisions are virtually duplicative of what is already in COMAR.

**HB 1240/SB 810 – Child Abuse – Reports – Public School Contractors and Employees of Contractors** passed by the General Assembly. This Maryland Association of Boards of Education-sponsored bill would authorize the disclosure of reports or records concerning child abuse or neglect to public school superintendents for specified purposes following a report of specified abuse committed by an independent contractor, including a bus driver, or an employee of an independent contractor who supervises or works directly with students.

**HB 823 – Public School Students – Inspection of Records – Prohibitions on Use and Disclosure of Information** prohibits any person, organization, or community college that obtains specified information from a public school student’s records from using the information commercially or from redisclosing the information.

**HB 434 – Education – School Library Funds** passed by the General Assembly, which would make middle and high schools eligible for this funding.

**Collective Bargaining, HB 518, as amended, and SB 378** died in the Senate Finance Committee.

**SB 435 – Captive Audience/Stop Commercialism in Schools Act of 2001** was defeated and would have required local boards to develop and adopt policies prohibiting marketing and advertising in public schools and would have prohibited the sale of certain unhealthy foods in school vending machines.

**SB 604 – Public Charter School Act of 2001 and HB 29** passed the Senate and HB 29 passed the House, but differences were not worked out between the two versions, so the legislation died in the General Assembly.
HB 557 – Education – Admission of Students to Kindergarten – Age Requirements died in the House Ways and Means Committee after considerable discussion in the Children and Youth Subcommittee.

Some of the issues to be looked at during the interim:

SB 171 – Education – Children in Out-of-County Living Arrangements – Kinship Care would have required a local superintendent to allow a child to attend a public school in a county where the child is not domiciled with the child's parent or legal guardian if the child lives with a relative in the county due to a serious family hardship.

Special education issues including:

1. HB 1252 – Educational Placement for Handicapped Children – Required Agency Response to Parent’s Mediation or Hearing Request would have required a local school system to respond in writing within seven business days from the date of receipt of a request for special education mediation or a due process hearing.

2. HB 1392 – Special Education – Program Eligibility – Representation would have allowed a non-minor student to represent himself or herself in special education matters under certain circumstances.

3. Possibly SB 372/HB 358 – Technology for Education Program – Nonvisual Access – would have required the State Superintendent and the DBED to include a clause concerning non-visual access technology in any contract or grant awarded under the Technology for Education Program.

4. Thornton Commission funding deliberations – a meeting has been scheduled for June 7.

Re: DISCUSSION

Mrs. King suggested, and her colleagues agreed, that the Board should meet to discuss items for local legislation. The Montgomery County Delegate has agreed to file any bill to address the Board’s concerns.

Re: POLICY BMA – BOARD OF EDUCATION ADVISORY COMMITTEES

On recommendation of the Superintendent and on motion of Mr. Abrams seconded by Ms. Cox, the following resolution was placed on the table:

WHEREAS, State law (Section 4-112, Education Article, Annotated Code of Maryland) requires that each county board of education establish “at least one citizen advisory committee to advise the Board and to facilitate its activities and programs in the public schools”; and

WHEREAS, The Advisory Council on Career and Technology Education and a citizen advisory committee for evaluating family life and human development curricula and instructional material are required by state regulation; and
WHEREAS, There currently exist three policies related to Board advisory committees: Policy BMA, *Board of Education Policy on Committees*; Policy BMB, *Appointing Members of Board of Education Advisory Committees*; and Policy BMG, *Guidelines for Committee Operation*; and

WHEREAS, The Board of Education has had several discussions over the last few years about the role and purpose of Board advisory committees in order to encourage participation when warranted, ensure effectiveness, and clarify committee operations; and

WHEREAS, The Board continues to have a genuine interest in receiving meaningful and timely advice from its citizen advisory bodies; and

WHEREAS, On December 14, 1999, the Board adopted a resolution to retain the two required committees as Board advisory committees, dissolve the remaining six committees that existed at that time, and allow for the ability to create new standing or ad hoc committees that would advise the Board on current issues and concerns as they are identified; and

WHEREAS, All three policies relate to the authority and implementation of Board advisory committees, the three policies have been combined into one overall policy on Board advisory committees that reflects changes discussed by the Board of Education; now therefore be it

Resolved, That the Board of Education take tentative action to adopt draft Policy BMA, *Board of Education Advisory Committees*, as shown on the following policy, and send it out for public comment.

**Board of Education Advisory Committees**

A. **PURPOSE**

To establish a policy on committees designed to advise the Board on specific issues

B. **ISSUE**

Citizen advisory committees are required by the Annotated Code of Maryland, Education, to ensure that the Board will be informed by a variety of opinions from citizens and staff when considering specific issues.

C. **POSITION**
1. Establishment

The Board of Education will establish **standing and ad hoc** advisory committees to advise the Board on specific issues that may result in changes in Board policy. These committees will be created for general or special purposes in order to seek a variety of opinions from citizens, staff, and Board members. These committees would be formed at the direction of the Board to assume whatever tasks they are directed to do by the Board. For each advisory committee, the Board of Education normally will take the following actions with respect to each advisory committee.

a) Adopt a resolution:

   (1) Stating that the committee is advisory only
   
   (2) Setting forth a clear and unambiguous charge
   
   (3) Setting the task to be accomplished with alternative solutions, if possible
   
   (4) Establishing a schedule for interim and/or final reports
   
   (5) Stating the expected term or life of the committee

b) Adopt a resolution to appoint the initial and successor membership with terms of office. It will adopt one or more resolutions, as needed, to reappoint or replace members.

   It will adopt, once the committee’s task is completed, a resolution of appreciation and formally disband the committee if the committee is not a standing committee.

   It will request the committee to adhere to the Board’s “Guidelines for Committee Operation.”

2. Appointment of Members

a) Application

   (1) The Board of Education will announce openings on an advisory committee and solicit members in a display advertisement or news release in one or more Montgomery
County newspapers and through other internal and external media.

a) Members for standing committees shall be solicited on a regular basis each spring and fall with appointments to be made at the all-day meetings in June and December; on an ongoing basis; or on an annual basis to be determined by the Board. Members for new committees shall be solicited when the formation of the committee is announced.

b) Members of ad hoc committees shall be solicited in a manner determined by the Board at the time of the formation.

(2) Interested candidates shall fill out applications for advisory committee membership. Applications for membership will be retained for twelve months through two rounds of Board appointments unless the applicant is no longer interested or able to serve.

(3) In cases where the Board has determined membership on a committee will be by organization, the organization will be requested to submit nominees for vacancies. However, the final selection of membership remains the responsibility of the Board.

(4) Individuals who apply by the deadline stated on the application, and those who are to be recommended by the superintendent of schools and by organizations and agencies, will be considered for appointment to the advisory committee.

(5) The Board will not transfer members from one committee to another. However, members may apply to another committee for terms commencing after their current committee term has ended.

b) Appointment
The Board will endeavor to appoint advisory committees balanced by geographic area, race, *ethnicity*, gender, and a range of viewpoints.

c) Term of Office

(1) All appointments and reappointments shall be for a the two-year term unless otherwise designated in law, or regulation, or Board of Education resolution. Terms of office will end on June 30 or December 31.

(2) Students appointed to Board advisory committees shall serve one-year terms. All student member terms begin on July 1 and end on June 30 of the next year.

(3) If a new committee’s task is expected to take more than one year to accomplish, overlapping terms and rotating membership will be considered.

(4) No member shall be appointed to serve for more than two consecutive terms on the same committee unless specifically exempted by the Board. Reappointment to a second term is not automatic, particularly when a committee does not exhibit balance, as described above.

(5) The superintendent will be asked to designate a staff member as liaison to facilitate information-gathering for the committee, to ensure good communication between the committee and the Board, and, when requested, to assist the advisory committee in preparing the committee’s report(s).

(1) All advisory committee chairpersons are responsible for preparing agenda of meetings and sending these, together with supplementary materials, to committee members, the staff liaison person (if any), and the Board of Education office.

(2) All advisory committees shall keep action minutes of their meetings and forward them to the Board of Education office. These minutes should be approved by the committee at its next meeting and, within 15 days after approval, should be forwarded to the Board of Education.

b) Although the staff liaison person (if any is appointed) has the responsibility to maintain good communication between the Board of Education and an advisory committee, the committee chairperson should feel free to contact the president of the Board orally or in writing whenever necessary.

c) Any advisory committee member who is absent from 25 percent or more of the scheduled meetings during any one-year period will be considered resigned from membership 30 days after the committee notifies the Board of Education. The Board may, upon request, waive resignation for good cause; i.e., illness, emergency situation, or other extenuating circumstances. The individual shall be notified in writing by the Board whether or not a waiver has been granted.

If no liaison person is appointed to the committee, the chairperson should contact the Office of the Deputy Superintendent of Schools regarding any information or clerical assistance the committee may need in the course of its work.

d) All meetings of advisory committees must be open to the public pursuant to the Open Meetings Act and should be held in MCPS or other public facilities. A schedule of meetings for each school year shall be established in advance and communicated to the staff assistant to the Board for routine posting in the official bulletin board and on the Board’s web site.

e) If a member the chair of an advisory committee, acting at the behest of the full committee, wishes to obtain nonconfidential personnel information about an MCPS employee or to express concern about the performance of an MCPS employee, the member should
communicate that request or concern to the superintendent and/or the ombudsman/staff assistant to the Board.

f) The chair of each committee shall be granted access to the appropriate MCPS internal electronic forums and e-mail system.

   b) Prepare for the Board, in advance of appointment, briefing packets that contain lists of committee vacancies, persons who have applied or been recommended, current committee compositions, and copies of applications received
E. REVIEW AND REPORTING

1. All advisory committees will submit written reports to the Board of Education at least annually or on whatever schedule that shall be determined in advance by the Board and/or the committee.

   As a matter of practice, committees are requested to inform the Board of Education of statements they expect to make or reports they expect to release before they are made or released. All advisory committees will submit written reports to the Board of Education at least annually or on whatever schedule will be determined in advance by the Board and/or the committee. Written reports should contain a cover memorandum that highlights the major issues and recommendations that may require Board or administrative action. Reports, or their summary cover memoranda, will be duplicated by MCPS and distributed to interested citizens and staff. The Board will acknowledge in writing the receipt of an advisory committee report, meet with the committee at a mutually agreeable time to discuss the report, and request:

2. The superintendent will prepare a staff reaction to the committee's report which will be shared with the committee and the Board.

3. At a minimum the request of each advisory committee, the Board will meet annually with each of its advisory committees, at a time and place to be determined by the Board officers.

Resolved, That a copy of this resolution be transmitted to the county executive and County Council.

Re: DISCUSSION

Mrs. King noted that for the last week and a half, Board members and staff had wrestled with the horrendous job of identifying the non-recommended reductions. There is no way to reduce the budget by $26.4 million without causing some pain and upsetting various
groups. It is important for people to understand that the decisions at this meeting are not
the end of the budget process. Based on county law, the Board is obliged to present a list
of non-recommended reductions to meet the spending affordability guideline (SAG). The
County Council to determine the funding for the school system by next month.

Mr. Abrams thanked the superintendent for his leadership role in working on this budget
issue. The assumptions for efficiency put forward by the staff of the County Council were
not reflected in the list of the non-recommended reductions. He had asked what the
assumptions were based on, and no one seemed to know. It reminded him of
recommendations made by outside auditors reviewing a program, and the assumptions
they made did not bear out. Moreover, the Board added very little to the operating budget
when it reviewed the superintendent’s recommendation. The Board realized that this year
would be same services and a continued commitment to the Call to Action, which was
broadly supported by the community. He was disheartened that the SAG puts the Board
in a position to limit funding for its initiatives. He strongly urged the County Council to
identify additional resources for the school system.

Mrs. King noted that the County Council and county executive are supportive of the
Board’s initiatives and the Call to Action.

Mrs. O’Neill thought the decision on non-recommended reductions was very painful. She
urged people who had opinions on the reductions and wanted to protect the operating
budget to work with the County Council to help secure resources. Moreover, the Council
has indicated that the economics will not improve next year.

Mr. Felton thanked the superintendent and staff for the three-tier layout of the non-
recommended reductions. Throughout the county, time is spent making long-range
forecasts and planning for programs; however, there must be a long-range revenue plan
for the community to support those programs. The Board of Education acted in good faith
in putting together a long-range plan with the Call to Action, it engaged the community, the
community made a commitment to ensure quality education, and, yet, the revenue does
not support the demands of the community. He hoped that the Board’s dialogue with the
County Council, county executive, and citizens is a commitment to develop a revenue
stream for projections to assure support for the community’s demands, which it is willing
to pay for.

Ms. Cox appreciated the work of staff in presenting the reductions to give the community
a clear idea of what would not be eliminated assuming there is more funding. The Board’s
decision should be based on what is best for student achievement.

Mr. Burnett agreed with the comments of his colleagues. He thanked the superintendent
and staff for taking the time to explain the reductions. The school system has tremendous
support from the County Council and county executive. The Council will try its best to fund the budget. The school system has planned for the future, now there must be a commitment to fund long-range planning. The non-recommended reductions demand difficult choices. Hopefully, the Council will adequately fund the budget, and some of the reductions can be restored.

Mr. Lloyd thanked the superintendent and staff for their presentation. He echoed his colleagues in disappointment with the reductions. Many in the community support these programs and initiatives. He would like more community involvement in the budget process prior to the first draft of the budget.

Mrs. King remarked that a different budget process had been discussed. However, the Board's four-year plan and the full phase-in of the initiatives do not allow a great deal of fluctuation. The Board’s input was in developing and endorsing the long-range plan.

Mr. Abrams pointed out that the school system has multi-year contracts with its unions, and there is no room for expansion over the next several years. If the funding challenge is met, the school system can be held accountable for the promised outcomes.

Mr. Lange found the process painful. He thanked the staff for identifying in tiers how best to approach the decision on non-recommended reductions. He urged community members to become more familiar with the programs and recognize that the proposed budget should be supported.

Mrs. King had heard people ask when ineffective programs would be eliminated by the school system. There is a brochure that lists all programs, the objectives, and the outcomes.

Mr. Abrams asked if the bill on gun safety passed by the General Assembly was funded. Dr. Spatz stated that the funding was not in the current budget.

Mrs. King asked what the cost per student would be if the Outdoor Education Program was self-sustaining. Dr. Spatz replied that it would cost $110 per student for three days of the program.

Mr. Felton asked if the reduction in the Office of Shared Accountability would preclude the evaluation and data analysis necessary to validate the success of programs. Dr. Weast replied that staff would be less able to do in-depth analysis.

Mr. Felton asked if the reduction deferred Phase II for staff development for substitute teachers. Dr. Weast responded that MCPS would expand Phase II. This is a proven practice that works.
Mr. Felton assumed that the reduction would scale back the increase for counselors, pupil personnel workers, and psychologists. Dr. Weast answered that the budget had never funded the ratio established by standards from counseling organizations, states, and the federal government. The reductions would not allow the school system to reach those goals.

Mrs. King asked what was placed in the budget for special education and what was contained in the non-recommended reductions. Dr. Spatz replied that the biggest single item was to restore class size to 1995 levels for $2 million. In addition, there were resources for psychologists, special education instruction assistants, support for elementary schools, and resource teachers. The non-recommended reduction list included psychologists, support for elementary schools, and resource teachers.

Ms. Cox asked about the reduction for efficiency-based revised enrollment projections for special education. Dr. Spatz answered that the March revision is more refined than the fall projection, and next year there is a small decrease in enrollment.

Mrs. O’Neill asked if, with the reduction, there were sufficient building service workers to clean the requested relocatables this fall. Dr. Weast responded that there is a reduction on the original budget request. The school system calculates cleaning services based on square footage; however, the relocatables require moving all cleaning supplies to a separate location with little consideration for the increased square footage. Therefore, the job responsibilities have edged up every year without additional staffing.

Mrs. O’Neill noted that the non-recommended reductions eliminated the second air quality team. Dr. Weast noted that the walled-up “open” schools produce poor air quality. The first air quality team resolved problems; therefore, the funding for a second team was placed in the budget. Asthma seems to affect poverty students at a higher-than-normal rate.

Ms. Cox inquired about the consultant services increase due to realignment of services in technology and staff development. Dr. Spatz explained that the Workforce Excellence implementation required outside services, and the amount realigns the funding and program.

Re: **AN AMENDMENT TO THE FY 2002 OPERATING BUDGET NON-RECOMMENDED REDUCTIONS**

On motion of Ms. Cox and seconded by Mr. Abrams, the following resolution failed with Ms. Cox, voting in the affirmative; Mr. Abrams, Mr. Burnett, Mr. Felton, Mrs. King, Mr. Lange, (Mr. Lloyd), and Mrs. O’Neill voting in the negative:
Resolved, That the Board of Education replace the non-recommended reduction for Shared Accountability with a non-recommended reduction in Contractual Services ($215,112).

Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Weast remarked that eight students received scholarships at the NAACP Banquet. In fact, MCPS students have received a number of scholarships. Four students will represent MCPS at the International Science Fair in San Jose, California. Three students have been named semifinalists for Presidential Scholar Awards. Thirty-seven students in career-focused programs in the MCPS Career and Technology Education Program will be honored for their achievements at an awards ceremony on Wednesday, April 25, at 6:00 p.m. at the National Institute of Standards and Technology in Gaithersburg. In addition, five local businesses will be recognized with Friends of Career and Technology Education awards for their many contributions to education in the county.

Mr. Lange commented on the recognition of Leon F. Busche, social studies resource teacher at Quince Orchard High School, who received a 2001 Agnes Meyer Outstanding Teacher Award from The Washington Post. Richard Montgomery High School students organized a non-violence covenant, which several students signed. The Trend Benders meeting outlined the next steps in curriculum and information systems.

Ms. Cox reported that she went to GE Global Exchange Services to observe the students from Paint Branch High School’s engineering course present their projects.
