Resolved, That the Board of Education approve its agenda for June 10, 2003.

RESOLUTION NO. 280-03 Re:  LEADERSHIP MONTGOMERY YOUTH COMMUNITY SERVICE LEADERSHIP AWARDS

On recommendation of the Superintendent and on motion of Dr. Haughey seconded by Ms. Cox, the following resolution was adopted unanimously by members present:

WHEREAS, The Montgomery County Board of Education has a continuing commitment to support active student participation in community service learning activities; and

WHEREAS, Since 1997, Leadership Montgomery has offered the Youth Community Service Awards to identify, reward, and promote outstanding continuing community service efforts and accompanying demonstrations of leadership by high school students; and

WHEREAS, The law firm of Shulman, Rogers, Gandal, Pordy and Ecker, P.A., of Rockville, has generously sponsored and funded cash awards for up to five students per year for the past seven years; and

WHEREAS, Five Montgomery County Public Schools high school students have been honored as the Leadership Montgomery Youth Community Service Leadership Award recipients for 2003; now therefore be it

Resolved, That the Montgomery County Board of Education express its appreciation to Leadership Montgomery and to Shulman, Rogers, Gandal, Pordy, and Ecker, P.A. for their leadership in promoting and honoring youth leadership in community service; and be it further

Resolved, That the Board of Education congratulate this year's Leadership Montgomery Youth Community Service Leadership Award recipients for their outstanding leadership in community service.

Re:  RECUSAL

Pending an Ethics Panel decision, Dr. Haughey and Mr. Lange recused themselves from voting on the following resolution.
RESOLUTION NO. 281-03  Re:  

RECOMMENDATION TO APPROVE THE AMENDED AGREEMENT WITH THE MONTGOMERY COUNTY ASSOCIATION OF ADMINISTRATIVE AND SUPERVISORY PERSONNEL

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Felton, the following resolution was adopted with Ms. Cox, Mr. Felton, Mrs. O'Neill, and Mr. Romero voting in the affirmative:

WHEREAS, Section 6-408 of the Education Article, Annotated Code of Maryland, requires the Board of Education to enter into negotiations with designated employee organizations concerning “salaries, wages, hours, and other working conditions”; and

WHEREAS, The Montgomery County Association of Administrative and Supervisory Personnel (MCAASP) was properly designated as the employee organization to be the exclusive representative for these negotiations; and

WHEREAS, On March 11, 2003, the Board of Education approved the agreement for the period of July 1, 2003, through June 30, 2006, if the funds were properly authorized for said agreement; and

WHEREAS, Said funds were not fully provided by county and state governments; and

WHEREAS, The parties entered into renegotiations in accordance with the existing agreement and reached tentative agreement on modification of the agreement through delayed implementation of the negotiated salary increase; and

WHEREAS, The tentative agreement to amend has been duly ratified by the membership of MCAASP; now therefore be it

Resolved, That the Board of Education approve the amended agreement for the period of July 1, 2003, through June 30, 2006; and be it further

Resolved, That the secretary and the president of the Board of Education be authorized to sign the amended agreement, all according to said agreement and to the law.

RESOLUTION NO. 282-03  Re:  

RECOMMENDATION TO APPROVE THE AMENDED AGREEMENT WITH THE MONTGOMERY COUNTY EDUCATION ASSOCIATION

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Felton, the following resolution was adopted unanimously by members present:
WHEREAS, Section 6-408 of the Education Article, Annotated Code of Maryland, requires the Board of Education to enter into negotiations with designated employee organizations concerning “salaries, wages, hours, and other working conditions”; and

WHEREAS, The Montgomery County Education Association (MCEA) was properly designated as the employee organization to be the exclusive representative for these negotiations; and

WHEREAS, On February 27, 2001, the Board of Education approved the agreement for the period of July 1, 2001, through June 30, 2004, if the funds were properly authorized for said agreement; and

WHEREAS, Said funds were not fully provided for school year 2004 by county and state governments; and

WHEREAS, The parties entered into renegotiations in accordance with the existing agreement and reached tentative agreement on modification of the agreement through a combination of delayed implementation or modification of the negotiated salary increases, and delay of the addition of two duty days for one year; and

WHEREAS, The tentative agreement to amend has been duly ratified by the membership of MCEA; now therefore be it

Resolved, That the Board of Education approve the amended agreement for the period of July 1, 2003, through June 30, 2004; and be it further

Resolved, That the secretary and the president of the Board of Education be authorized to sign the amended agreement, all according to said agreement and to the law.

Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Weast commented that more than 9,200 students are graduating from MCPS this year. There are always special moments to remember at these joyous occasions. One thing that particularly impressed him was the number of senior classes that chose favorite teachers to be their graduation speakers. He recognized the teachers that were honored in this way by their students. They include:

1. Grant Goldstein, English resource teacher at Col. Zadok Magruder High School
2. Terry Murray, resource art teacher at Springbrook High School
3. Harry Klugel, secondary program specialist at Mark Twain School, who spoke at Stephen Knolls School
4. Michael Hunt, social studies teacher at Paint Branch High School
5. Jan Schultz, social studies resource teacher at Poolesville High School

Dr. Weast stated that on May 30, MCPS announced the results of Grade 2 scores on the Comprehensive Tests of Basic Skills, which showed extraordinary gains by students most at risk for academic failure. The impact of academic reforms on student achievement has been dramatic and very encouraging. As the school system moves forward to consolidate and expand these gains, he took a moment to publicly thank the women and men who teach in MCPS classrooms and lead county schools.

Dr. Weast announced that MCPS had 20 of 23 high schools in the top 4 percent of the country’s high schools for their offerings of advanced courses.

Mr. Lange commented about the goal setting of so many students. He hoped that MCPS would send representative to the Teacher and Counselor Mentoring Program sponsored by the trade companies in the area. A program on medical careers was highlighted in the Bethesda Navel Hospital newsletter.

Dr. Haughey commented on how quickly the new signature programs are producing great results.

Re: OUR CALL TO ACTION: PURSUIT OF EXCELLENCE

Dr. Weast and Mr. Bowers stated the presentation served to transmit and request Board approval of Our Call to Action: Pursuit of Excellence—The Strategic Plan for the Montgomery County Public Schools 2003–2007. This strategic plan reinforces the initiatives that have been implemented since the Board of Education adopted Our Call to Action in November 1999. The plan is clearly focused on the future and will establish the direction and priorities of the system for the next five years.

Feedback and input from various stakeholder groups were extensive and are ongoing. Input was sought throughout the process of developing the strategic plan. The guidance and insight
gained through this process proved to be invaluable. Stakeholder groups brought to light the need to strengthen the strategic plan in the areas of special education, English for Speakers of Other Languages (ESOL), gifted and talented education, career technology education, and the arts. This feedback was used to further develop these identified areas through additional milestones, data points, goals, performance measures, and identified strategies/initiatives. While all feedback and input were reviewed, it was determined that some was more appropriately managed in an individual office, department, or division strategic plan than in the school system’s strategic plan.

The most significant feedback received was from staff, parents, and community members who feel that the strategic plan is focused only on academic achievement, rigor, and preparation for college. Although it is true that much of the focus of Our Call to Action is on academic achievement and college readiness, the plan recognizes the broader purpose of public education to prepare all students for the roles in life that they will assume when they leave MCPS. This broader purpose is accomplished in collaboration with families and the community, including corporate and civic organizations. The school system has an important role in the social and emotional development of students and in helping them learn to take responsibility for their learning and actions. The school system also prepares students for careers that include college and those that do not include college and provides opportunities for students to develop proficiency in all of the Skills for Success—learning, thinking, communication, technology, and interpersonal skills.

The driving force behind the Strategic Plan is the Guiding Tenets, which include the following:

- Board of Education Academic Priorities
- The vision, mission, and core values
- Goals of the school system
- Critical questions

This strategic plan is first and foremost an accountability document. Under each of the four goals—ensure success for every student, provide an effective instructional program, strengthen productive partnerships for education, and create a positive work environment in a self-renewing organization—there are milestones and data points. The Board of Education will receive reports throughout the year that will include these data points and the progress that has been made. This data will be used to determine if strategies need to be changed or resources need to be realigned to achieve the expected results. It will be used to hold the Board of Education, superintendent, executive staff, and all other employees responsible for accomplishing the expected outcomes.

By approving Our Call to Action: Pursuit of Excellence—The Strategic Plan for the Montgomery County Public Schools 2003–2007, the Board of Education will set the stage for an unprecedented effort to improve the instructional program in every school. Schools will
develop and implement school improvement plans annually, based on the Board’s strategic plan. Office and department strategic plans will be aligned with Our Call to Action. This strategic plan will guide the staff throughout the school system in their work with schools, parents, and the community.

At the January 14, 2003, Board of Education meeting, staff reviewed the requirements to develop a master plan for The Bridge to Excellence in Public Schools Act. The act requires school systems to integrate state, federal, and local funding and initiatives and weave them into a comprehensive master plan to improve student achievement for all students and to narrow achievement gaps between subgroups of students. School systems must:

- develop a five-year comprehensive master plan describing goals, objectives, and strategies to improve performance for all students;
- align the school district’s budget with the master plan and show specifically how the use of resources will address the goals and objectives of the plan;
- address the No Child Left Behind Act achievement goals in the master plan; and
- ensure meaningful community involvement in the development of the master plan.

On May 12, 2003, executive staff members and representatives from their offices attended a three-hour regional technical assistance forum sponsored by the Maryland State Department of Education (MSDE). At that time, MSDE staff presented information about the program and fiscal components that must be addressed in the master plan, procedures for submitting the master plan, and the peer review process for evaluating each school system’s master plan. Members of the executive staff have assumed the lead responsibility for compiling the required information.

Our Call to Action: Pursuit of Excellence—The Strategic Plan for the Montgomery County Public Schools 2003–2007 will be a cornerstone of the master plan. The master plan is tentatively scheduled to be presented to the Board of Education on July 8, 2003.

Our Call to Action: Pursuit of Excellence—The Strategic Plan for the Montgomery County Public Schools 2003–2007 is a “living” document. It will continue to guide the work of MCPS on a daily basis. The plan will be changed continually, as staff determines what is working and what is not working and what needs to be done to improve results. It will be the basis of the allocation of resources in the annual operating budget. The plan will be the basis of school improvement plans and the office and department strategic plans and will be reviewed continually by staff throughout the system to ensure that all work is aligned. The Board of Education will review the data reports regularly to monitor the progress being made and determine the changes needed. Each year the Board will update the plan to reflect the opportunities for improvement that have been identified.
Ms. Cox clarified that when the comprehensive master plan is done, there will be more specifics about the expected progress on the milestones. Mr. Bowers replied that adequate yearly progress must be in the plan for *No Child Left Behind*. The milestones are part of work to be done, and it is part of the strategic planning process to set targets.

Ms. Cox asked if the annual report process would be appropriate in all cases and if there should be some flexibility. Mr. Bowers answered that there is no final recommendation. There may be a time when an annual report and quarterly updates are provided to the Board.

Ms. Cox noted that graduation rates are calculated in the same manner as used in the National Center for Education Statistics reports on Common Core of Data. Does that include as graduates students who leave the school system to get a GED? Mr. Fulton replied that the data does not include GED graduates. Ms. Cox wanted information on how the percentage of students who drop out of school is calculated.

Mr. Felton thought that data-driven management systems were very difficult to implement based on the amount of data that the school system should monitor. How does the school system begin to pull all the data together in a manner that is meaningful to parents? There will be the annual report card as required by *No Child Left Behind*. The goal of the Board is to ensure that information presented to the community is understandable as well as comprehensive. Also, the school system should not have numerous press releases that confuse parents or are ignored by the community. What do families really need to know for them to feel comfortable about the performance of the child, school, and district? Dr. Weast replied that the district will do everything that is possible to explain to the parents the changes within the school system.

Mr. Felton stated that as MCPS focused internally on the strategic plan, there is a need to work with the community so community members understand the data and the data is meaningful for teachers, students, and parents.

Ms. Cox remarked that it will depend on the commitment to parental involvement on the school improvement planning process. If the community is involved in the planning process, people will understand the data since they are empowered to make decisions on school improvement and become ambassadors to the greater community. Mr. Bowers commented that the report card will be driven by the state and federal government. There needs to be a better job of coordinating the data given to the Board and community.

Mr. Romero noted that this is a very complex document, and it has a multitude of audiences. Since the Long-Range and Strategic Planning Committee had difficulty understanding pieces of this internal document, Mr. Romero wanted to know if it would be presented to the public.
Mr. Bowers replied that the document is too dense, and the challenge will be to create concise documents for targeted audiences. Mrs. O'Neill thought it would be overwhelming for a parent to read the document.

Mr. Felton pointed out that the school system is a huge organization, and he thought it was amazing that the plan was only 50 pages long. Although he wanted it simple at the classroom level, he thought it was important to maintain the comprehensive document.

Dr. Haughey thought the document was a superb compression of many complex interactions and ideas. He urged the Board to go outside the school system to recruit people to develop a strategic document that will be comprehensible to people who are not frequently involved with MCPS.

Mr. Lange asked for clarification of the term “all students and all schools will achieve.” There was concern that this is a very high bar that in some cases would be unattainable. Mr. Bowers replied that in response to community concerns, the statement will read “although Our Call to Action states that all students are expected to attain certain milestones, some students, due to their disabilities, will not achieve these milestones and will follow alternative curricula.”

Ms. Cox stated that discussions with the Continuous Improvement Team (CIT) on special education point out the difference between diploma and non-diploma-bound students. Expectations are also high for students with IEPs.

Mr. Lange wanted to express his appreciation for the incorporation of strategies and initiatives in each section.

Ms. Cox noted that data points are reflected in some of the measures. However, in some instances there is no measure, such as suspension and serious incidents. Mr. Bowers replied that a template will be developed to connect the timing, milestones, data points, measures, and strategies in order to determine what is successful.

Ms. Cox asked if the statement “the percentage of students participating in extracurricular activities” referred to elementary, middle, and high school students. Mr. Bowers responded that there is more data available at the high school level. Mrs. O'Neill asked if the students eligible for extracurricular activities should be grouped together.

Ms. Cox pointed out that Objective 8 (MCPS develops and implements high-quality information systems to help manage information, improve work efficiencies, and support instruction) refers to the use of the data warehouse, which is not fully functional. Mr. Porter replied that the warehouse will be ready for all grades on or before July 7, 2003.

Mr. Felton asked what would address the options for the delivery of education that would be
different from the current model. As the school system grows and more technology becomes available, he asked if another document would be generated to deliver instruction. Mr. Bowers thought this could be incorporated into the strategic plan with alternative models for students to earn credit.

Mr. Lange asked that the statement on character education could be moved from “Ensure Success for Every Student” to “Provide an Effective Instructional Program.” He also asked that the section “Skills for Success” be moved to “Curriculum and Instruction” following “Develop and Implement a Standards-based Curriculum.” Under the “Skills for Success” (learning, thinking, communication, technology, and interpersonal), the Maryland State Department of Education’s document has a sentence to explain each item, and these sentences should be included in this document.

Mr. Lange pointed out that the strategic plan will drive the operating budget with significant commitments, such as textbooks.

Mr. Lange thought the statements on art instruction should be moved forward in this section prior to the discussion of the data warehouse, so that art instruction is tied to curriculum issues.

Ms. Cox asked why the parent survey data was not listed under Data Points for the implementation area “Provide an Effective Instructional Program.”

Ms. Cox asked for a description of the 11 cross-functional teams and how they operate. Mr. Bowers explained that the leadership team developed plans for organization and alignment of work to address priorities of the school system. As a result, cross-functional teams were established and chaired by a member of the leadership team with representatives from the other offices. The initial focus was to examine the 60 highly impacted elementary schools by utilizing data and research.

Mr. Felton observed that the document should move from “curriculum” to “staff” before “outside organizations.”

Mr. Lange thought the commitment to strengthen productive partnerships for education should be a continual focus and charge for the school system.

Ms. Cox pointed out that there was a reference to the NAACP Parents’ Council data, but no other parent organizations are listed. There could be an item, such as other parent data as available.

Ms. Cox noted that staff development substitutes are a data point, and she asked if this data point would be invalid with the reduction in the number of substitutes. Mr. Bowers remarked
that the reduction would be 20 percent in the high school because there was not full utilization of this initiative.

As a general comment, Ms. Cox was pleased with the document because it gave her information on the school system that would enable her to help her child.

Mr. Lange remarked that the school system cannot be successful without a positive work environment in a self-renewing organization. He was pleased that this section was specific about training, support, and encouragement.

Mr. Lange thought the information on the back cover could emphasize the importance of renovation and construction and the resource constraints. Dr. Haughey and Mrs. O’Neill thought the item on new and modernized space should be eliminated.

Mr. Felton asked if there was a communication plan for September. Mr. Kress replied that principals have seen earlier drafts of the document. Ms. Cox wanted the strategic plan to be included in the guides for school improvement teams.

• Bid No. 4106.1 High Volume Digital Copier for the Office of Staff Development, in the amount of $25,249, for a term of five years;

and

WHEREAS, Wachovia Bank has not extended the Master Lease Agreement; and
WHEREAS, The Master Lease Agreement with Banc America Leasing & Capital, LLC, is in effect until January 30, 2004, and is available for funding; now therefore be it

Resolved, That the Board of Education approve Banc America Leasing & Capital, LLC, as the funding agent for the above-listed lease-purchase acquisitions; and be it further

Resolved, That the Board of Education rescind Wachovia Bank as the funding agent for the above lease-purchase acquisitions; and be it further

Resolved, That the superintendent and the Board president be authorized to execute and deliver the documents necessary to implement these acquisitions under the Master Lease Agreement with Banc America Leasing & Capital, LLC.

RESOLUTION NO. 288-03 Re: CONTRACT FOR PROFESSIONAL SERVICES – MINORITY BUSINESS ENTERPRISE STRATEGIC PLAN

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Felton, the following resolution was adopted unanimously:

WHEREAS, The Maryland General Assembly enacted a statute in 2001 that increased the requirements for Minority Business Enterprise (MBE) participation on state-funded school construction projects; and

WHEREAS, The Board of Education has adopted procedures to meet these guidelines; and

WHEREAS, Staff has recommended that a professional services contract be awarded to Willis of Maryland, Inc., to provide business and financial support to assist with meeting the state requirements; and

WHEREAS, Funds are available in the capital budget to fund these services without having an impact on individual project program requirements; now therefore be it

Resolved, That a contract for professional services be awarded to Willis of Maryland, Inc., in the amount of $60,000 to provide business and financial support, as outlined in the proposal dated February 3, 2003, to assist with meeting guidelines for Minority Business Enterprise participation on state-funded construction projects; and be it further

Resolved, That staff submit periodic updates to the Board of Education during the term of the contract on the performance measures and outcomes of the professional services provided by Willis of Maryland, Inc.

RESOLUTION NO. 289-03 Re: AWARD OF CONTRACTS – ON-CALL ENGINEERING
AND INDOOR AIR QUALITY SERVICES

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Felton, the following resolution was adopted unanimously:

**WHEREAS,** On April 11, 2000, the Board of Education awarded annual on-call contracts to three contractors capable of responding to critical, facilities-related engineering and indoor air quality studies; and

**WHEREAS,** The three contractors have performed satisfactorily on all of the projects completed during the period of the contract; and

**WHEREAS,** The three contractors have agreed to extend their contracts for an additional one-year period for the same cost stipulations and conditions as the initial term; and

**WHEREAS,** Staff recommends a contract extension for the three firms; now therefore be it

**Resolved,** That the contracts with M. A. Cecil & Associates, Building Dynamics LLC, and Science Application International Corporation for on-call engineering and indoor air quality services be extended with the original terms and conditions through June 30, 2004; and be it further

**Resolved,** That the Department of Facilities Management be authorized to proceed with work procured from the on-call contractor that submits the lowest cost proposal for the specific project.

RESOLUTION NO. 290-03 Re: AWARD OF CONTRACTS – CONSTRUCTION SERVICES FOR RELOCATABLE CLASSROOMS

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Felton, the following resolution was adopted unanimously:

**WHEREAS,** Proposals were received from various firms on May 23, 2003, for construction services needed to move and install relocatable classrooms in FY 2004; and

**WHEREAS,** The following firms met the criteria established to prequalify to provide these services: Cottonwood Construction, Inc.; EMH Environmental, Inc.; Cynthia M. Hastings, Inc.; and J & L Services, Inc.; and

**WHEREAS** Sealed bids will be solicited from the four contractors as plans for relocatable moves are finalized with the lowest bid being utilized; and
WHEREAS, The four contractors recommended to provide these services have satisfactorily completed numerous relocatable placements for the Montgomery County Public Schools; now therefore be it

Resolved, That the Department of Facilities Management be authorized to solicit bids for the movement and installation of relocatable classrooms utilizing Cottonwood Construction, Inc.; EMH Environmental, Inc.; Cynthia M. Hastings, Inc.; and J & L Services, Inc., for the work planned in FY 2004; and be it further

Resolved, That the Department of Facilities Management be authorized to proceed with work procured from the prequalified contractor that submits the lowest cost proposal for the specific placements; and be it further

Resolved, That the contract awards and amounts be reported periodically for Board of Education review.

RESOLUTION NO. 291-03 Re: ACCEPTANCE OF WOOD ACRES ELEMENTARY SCHOOL

Re: FAREWELL TO DR. JAMES A. WILLIAMS

Dr. Weast and Board members acknowledged that this was Dr. Williams’ final Board meeting, and they all extended best wishes for the future.

Re: SPECIAL EDUCATION STAFFING PLAN FOR FY 2004-08

Dr. Weast invited the following people to the table: Dr. Carey M. Wright, associate superintendent, Office of Student and Community Services; Ms. Mary Lee Phelps, former acting associate superintendent, Office of Student and Community Services; and Ms. Dorothy J. Jackson, acting director, Department of Special Education.

The Code of Maryland Annotated Regulations (COMAR) requires each local school system to submit an annual special education staffing plan to the Maryland State Department of Education (MSDE). The plan must demonstrate public input and be approved by the local
Board of Education prior to its submission to MSDE. The locally approved staffing plan is submitted to MSDE annually by July 1 with the local application for federal funds. MSDE reviews the staffing plan and advises the local agency if there is a need for additional information or revisions. If revisions are required, the local agency must submit the revised staffing plan by September 30. The required elements of the staffing plan include the following:

1. Evidence of public input
2. Evidence of maintenance of effort within the meaning of 34 CFR §300.231, Maintenance of Effort, and COMAR 13A.02.05, Maintenance of Effort
3. Staffing patterns of service providers of special education and related services
4. The number and type of service providers needed to provide a free, appropriate public education (FAPE) for each student in the least restrictive environment
5. Local accountability and monitoring
6. Evaluation of the local staffing plan for effectiveness

The FY 2004 operating budget and staffing process began in summer 2002 when the Department of Planning and Capital Programming, in collaboration with special education staff, updated enrollment projections. In fall 2002, schools were notified of special education classroom needs for FY 2004. The superintendent’s recommended operating budget, including staffing guidelines, was presented to the Board of Education in December 2002. In March 2003, new enrollment projections were developed to take into account actual 2002–2003 school year enrollment. During March and April 2003, Department of Special Education (DSE) staff, the community superintendents, and staff from the Department of Management, Budget, and Planning (DMBP) prepared the 2003–2004 school year staffing allocations for schools. Adjustments to staffing will be made in July and August 2003, based on updated enrollment and special education data system (SEDS) information. Special education supervisors work closely with schools beginning in September and throughout the year to address any staffing issues or concerns that may arise. Any issues that cannot be resolved at the school or supervisor level are reviewed by the director of special education, the director of programs and services, and the director of placement and assessment services to determine additional staffing allocations and next steps.

In June 2002, the director of the DSE invited members of the Special Education Advisory Committee, the FY 2003 Special Education Staffing Committee, and DSE leadership to participate on the FY 2004 Special Education Staffing Committee. The Staffing Committee met during June, July, and August 2002 to review the previously approved Six-year Special Education Staffing Priorities for FY 2003–2008 and make recommendations for any modifications to the proposed FY 2004 Staffing Plan.

During the July Staffing Committee meeting, DSE staff presented updated information regarding current and future needs. Focus areas included resource teachers, speech and language pathologist caseloads, transition services staff, preschool assessments, program
support teachers, and parent educators. The Staffing Committee’s final recommendations for staffing improvements and priorities to be considered for the FY 2004 Staffing Plan and the action taken.

The DSE also received written input from the public as well as testimony at Board of Education budget meetings in January 2003. All of the input received was considered during the final stages of the operating budget process and in the development of the FY 2004 Special Education Staffing Plan that was placed on the MCPS Special Education and Call to Action folders on May 8, 2003. On May 22, 2003, the FY 2004 Special Education Staffing Plan was presented at a public meeting at which additional oral and written comments were received. The FY 2004 Special Education Staffing Plan presented today incorporates changes made after the May 22, 2003, public meeting.

The DSE recognizes and appreciates the Board of Education’s support of special education through previous budget initiatives and funding of required improvements. Because of the fiscal limitations for FY 2004, the Board of Education approved adjustments to the FY 2004 recommended budget that did not include all of the FY 2003 Staffing Committee’s recommended improvements and priorities. Taking into account current fiscal constraints, members of the FY 2004 Staffing Committee and DSE staff, in consultation with the DMBP, reprioritized the previously recommended FY 2004 improvements and priorities, which resulted in the FY 2004 Multi-year Special Education Improvements and Priorities. Those items that were not funded in the FY 2004 Staffing Plan were deferred for consideration by the Special Education Staffing Plan Committee, special education program staff, and the DMBP during the FY 2005 budget process that will begin in July 2003.

The FY 2004 Staffing Plan uses for the first time staffing guidelines based on the concept of teaching stations rather than solely on student-teacher ratios. The factors used to determine teaching stations include projected student enrollment, class-size guidelines, distribution of classes, specific disability service models, nature of the disability, staff time requirements for indirect service responsibilities, and legal considerations. The FY 2004 Staffing Plan is a vehicle to ensure that appropriate personnel are available to deliver the services that students with disabilities require to improve their academic performance and preparedness for high school assessments or, if appropriate, other assessments that measure student success within an alternate approved curriculum (Fundamental Life Skills).

MCPS continues to provide extra support to special education students, so that the school system can close the gap in academic achievement between special education students and their non-disabled peers. Although the fiscal environment has limited full implementation of the recommendations made for the second year of the multi-year staffing plan, significant improvements that will benefit students in the coming year have been achieved. The FY 2004–2008 staffing plan provides staffing recommendations that will continue to guide budget decisions in future years. It will be updated, reprioritized, and considered by the FY 2005
Special Education Staffing Plan Committee, special education program staff, the superintendent of schools, and the Board of Education yearly as budget decisions are made and funding becomes available.

Re: DISCUSSION

Ms. Cox asked about moving reading specialists from high schools to middle schools. Ms. Phelps replied that early intervention for reading and writing in middle school would equipment students for the high school assessments.

Dr. Haughey commented on teaching stations, and he asked if the term was used widely or only in MCPS. Ms. Phelps replied that it is a process that evolved in MCPS.

Dr. Haughey asked if the school system published the elements of a specific teaching station for a category of students. Ms. Phelps referred the Board to an attachment of the staffing plan that describes the program.

Ms. Cox noted that class-size guidelines are a factor in teaching stations. In learning for independence, teaching stations may not equate to a specific staffing allocation.

Mr. Felton was concerned that new terms are not fully understood and asked what advice a parent would receive about resources in a school. Dr. Wright stated that staff needs to do a better job of communicating with the parent community, and the principal would know the resources available and how to request additional support. Ms. Jackson added that the parent should be made aware of resources through the IEP process. Dr. Wright continued that there are publications that describe the programs available to Montgomery County children.

Dr. Haughey remarked that there was not substantial information for him to ascertain why ratios are different, and he requested more information. Staff volunteered to get that information for him.

Mr. Burnett stated that the explanation of a teaching station clearly relates to the ratios, which are flexible based on the disability and service model. At some point, he would like to ascertain if this model is transferable to general education.

Mr. Felton felt that the process was understandable, but he was concerned about the implication that the staffing plan starts with a blank slate every time. Or does staff start with the current plan that has been funded and build from there? Dr. Wright explained that the current plan is the springboard for the next staffing plan. There is a clear need to articulate that this is part of the budget process.
Mr. Felton pointed out that the needs must be weighed in light of the funding constraints. Will that be part of the process? Dr. Wright agreed that had to be part of the process since the budget is finite.

Ms. Cox remembered that last year the committee had three tiers of recommendations depending on funding level. This would give staff a sense of the priorities. Dr. Wright thought the staffing committee should come to a consensus on the priorities.

Ms. Cox noted the evaluation indicators through classroom observations, complaints, and decisions of due process hearings. These indicators relate the effectiveness of the staffing plan to student achievement. Dr. Wright thought that student achievement was the ultimate outcome.

Ms. Cox asked if the school system has data on whether or not students receive services that are indicated on the IEP. Ms. Phelps explained that if there is a gap in services, notices are sent to families to make accommodations.

Ms. Cox asked if the school system can aggregate the data across all the IEPs. Dr. Wright explained that was not available, but the office is investigating the possibility of gathering that data.

Ms. Cox asked if there was a process for recording the complaints and what the aggregate level is. Ms. Phelps replied that formal complaints are on a database.

Ms. Cox clarified that the complaints of service delivery on IEPs are not recorded until they reach a formal process. Dr. Wright agreed but stated that trend data is also important.

Mrs. O’Neill asked if data is shared with the community superintendents and principals to ascertain trends within schools. Ms. Phelps stated that information was shared about individual cases, but that was something that could be done routinely. It would be important information for supervisors to have for principals to serve all children.

Dr. Haughey asked about the sequence for the staffing plan. The state requires that staffing for next year be forwarded to the state by July 1. Ms. Phelps stated that the current staffing plan was based on the current budget.

Mr. Romero thought it was similar to any other part of the budget. Dr. Wright agreed since special education is not treated differently than other programs.

Mr. Felton asked how the community is advised of changes in the staffing plan when resources fall short. Dr. Wright thought any changes could be put on the website.
Mr. Burnett thought major programmatic changes should be communicated to the parents, but there was no need to publicize minor mid-course corrections.

Ms. Cox asked about the voluntary training modules. Does the school system have a method to capture staff development plans, and what is the relationship to special education training? Mr. Bowers replied that is not systematically done, but there is discussion to capture data that is relational.

Mr. Romero noted that special education is a very complex issue, and many parents would have difficulty with the identification of a disability, especially parents who do not speak English. How does the teaching station model work for ESOL children? Dr. Wright replied that there is a national concern about the over-identification of ESOL students for special education services. Staff from special education and ESOL are working to look at best practices, assess properly, and research literature. There needs to be more community outreach, such as Child Find, to identify all children for early intervention.

Mr. Burnett pointed out that the Board has a Special Education Ad Hoc Committee. The committee will address many of the issues and come to the Board with recommendations.

RESOLUTION NO. 317-03 Re: SPECIAL EDUCATION STAFFING PLAN FOR FY 2004-08

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Lange, the following resolution was adopted unanimously:

WHEREAS, The Maryland State Department of Education requires each local school system to submit an annual staffing plan; and

WHEREAS, The Department of Special Education has developed the FY 2004-2008 Multi-year Special Education Staffing Plan; and

WHEREAS, The FY 2004 operating budget, as requested by the Board of Education, includes recommendations from the FY 2004 Special Education Staffing Plan Committee; now therefore be it

Resolved, That the Board of Education approve the Multi-year Special Education Staffing Plan.

Re: NEW BUSINESS

Mr. Lange suggested that two issues be placed on the Board’s upcoming agendas: No Child Left Behind and Skills for Success.
Re: **ITEMS OF INFORMATION**

The following items were available:
1. Legal Fees Report
2. Construction Progress Report

**RESOLUTION NO. 318-03 Re: ADJOURNMENT**

On recommendation of the Superintendent and on motion of Mr. Felton seconded by Ms, Cox, the following resolution was adopted unanimously:

**Resolved**, That the Board of Education adjourn its meeting of June 10, 2003, at 4:35 p.m.
