**RESOLUTION NO. 611-05 Re: APPROVAL OF THE AGENDA**

On recommendation of the Superintendent and on motion of Mrs. O’Neill seconded by Ms. Cox, the following resolution was adopted unanimously:

Resolved, That the Board of Education approve its agenda for December 13, 2005.

**RESOLUTION NO. 612-05 Re: KAISER PERMANENTE WALK FOR YOUR LIFE CAMPAIGN**

On recommendation of the Superintendent and on motion of Mr. Abrams seconded by Ms. Cox, the following resolution was adopted unanimously:

WHEREAS, The Montgomery County Public Schools, the Montgomery County Education Association, SEIU Local 500, and the Montgomery County Association of Administrative and Supervisory Personnel, through the efforts of the Joint Employee Benefit Committee, have undertaken efforts to assess wellness opportunities and have begun working with health plan carriers to partner in promoting wellness initiatives; and

WHEREAS, Kaiser Permanente and MCPS introduced the “Walk For Your Life” campaign that challenged all MCPS schools to a walking competition during the month of October 2005; and

WHEREAS, Kaiser Permanente committed to rewarding the school that logged the most steps per participant/per day during the month of October with a $5,000 educational grant; and

WHEREAS, Kaiser Permanente has determined that Rock Creek Valley Elementary School logged the most steps per participant/per day during the month of October; now therefore be it

Resolved, That the efforts of all Montgomery County Public Schools staff who participated in the Kaiser Permanente Walk For Your Life campaign be recognized; and be it further

Resolved, That Ms. Catherine Jasperse, principal; Ms. Kathleen Amos, physical education teacher and Rock Creek Valley Elementary School champion; and the entire staff of Rock Creek Valley Elementary School be congratulated for their spirited and well-organized effort in the “Walk For Your Life” competition; and be it further

Resolved, That the Board of Education acknowledge and express its appreciation to the Kaiser Foundation Health Plan of the Mid-Atlantic States, Inc., for its commitment to improving the health of Montgomery County Public Schools employees; and be it further
Resolved, That the Board of Education authorize the deposit of the $5,000 grant, presented by the Kaiser Foundation Health Plan of the Mid-Atlantic States, into the Montgomery County Educational Foundation, Inc., account for the specific use of Rock Creek Valley Elementary School.

Re: DISCUSSION

Ms. Cox asked for a response to the public comment on the closing of the Grafton School of Maryland and the impact on MCPS. Also, she wanted a response to Ms. Loftus' testimony on time for physical education and staffing allocations.

Ms. Ervin asked if communications of support had been received from various groups. Staff replied that there were several communications, such as from the Sierra Club, Audubon Society, and Montgomery Blair High School students.

Ms. Ervin asked wanted to know the procedure for placing a resolution regarding Hampshire Greens' school assignments. Mr. Margolies replied that the Board had passed a resolution to monitor the utilization and advise the Board on the capacity on three middle schools. Furthermore, the state Board of Education affirmed the Board's decision. Policy FAA sets a process for boundary studies.

Ms. Ervin reiterated that she wanted to place it on the table for a Board discussion, and she asked what she had to do to start that process. Mr. Margolies noted that the community
wanted a reassignment without a boundary study, and he thought that would require an amendment to the policy.

Mr. Abrams stated that there is not currently a process or practice that allows the examination of an extraordinary circumstance that is not anticipated during the Capital Improvements Program (CIP) process.

Mrs. O’Neill commented that Policy FAA addresses boundary issues. This is done in the fall and spring, and she thought the Hampshire Greens community should have asked for an alternative in November. The draft regulation addresses the boundary issue process.

Mr. Abrams noted that the resolution on Hampshire Greens had a proviso that there would be monitoring of the schools and the superintendent would advise the Board of the capacity issues warranting a review. Mr. Bowers responded that the enrollment at William H. Farquhar Middle School was increasing.

Mr. Abrams thought the reporting requirement of the superintendent was out of cycle, and Resolution No. 656-04 said that there would be no boundary study at that time, and the situation would be monitored. Mr. Abrams requested information on the utilization numbers for middle schools and if there is a trigger for a boundary study as a result of the resolution. This resolution requires the superintendent to report to the Board and commence a boundary study. Mr. Abrams thought it was important for the public to know how to bring concerns to the Board.

Dr. Weast commented that there is a long-standing process for the Board to review boundaries – the CIP. The Board has placed indicators in the policy when a boundary study should commence. Boundary studies are not done in isolation, and when a study is started the domino effect engages other communities. Therefore, there needs to be reasonable notice to those communities for a study committee, hearings, and decisions.

Re: BOARD/SUPERINTENDENT COMMENTS

Ms. Ervin asked about a meeting at the County Council concerning CESC and Montgomery College. There was a comment about the Board’s lack of participation. She asked when the meeting was scheduled, and what the process was to invite the Board to the meeting. The Board is responsible for overseeing the school system. She wanted to know how it happened that the Board was not told about important meetings. The community sees Board members not responsive. When was the meeting scheduled? What were the opportunities to get information? Furthermore, $100,000 has been committed to do a feasibility study to expand Montgomery College to the CESC property.

Mr. Abrams replied that there was a memorandum from the Council about the needs of the college. He was not aware of a meeting, but last week he received a series of memoranda
that contained a sequence of discussions between the Education Committee and Montgomery College related to feasibility.

Mrs. O’Neill said the Board received a fax to update the Board. Also, the Board received Council agendas and committee meeting dates. Even though Mr. Subin made remarks about the absence of Board members, he was aware that Board members were not attending. If the college is fixated on evicting the school system from CESC and if the Board agrees and seeks a new administrative office building, the facility would compete with Capital Budget requests. She reminded everyone that there are 17,000 students in mobile classrooms.

Ms. Ervin and Dr. Haughey suggested that staff prepare a report on the status of Montgomery College’s request to obtain CESC.

Mr. Romero remarked that he wanted to follow appropriate protocol in dealing with the Hampshire Greens’ request. He asked that, when the discussion takes place, staff provide a briefing on the process and the steps taken by the Board. Since this issue happens often, the Board must be fair and careful about setting precedents.

Mrs. O’Neill reported that she was serving on a committee for comparable High School Assessments (HSA). The current freshman class will be the first students to have their diplomas tied to the HSA. She was concerned about students who will be at-risk of not graduating. This fact cannot be stressed enough because parents will be very upset if their child does not graduate. The HSAs are a train wreck heading for all Maryland jurisdictions.

Mr. Johnson said he had talked to middle school students about the achievement gap and leadership. His next television show will be on student government and nutrition.

Mrs. Navarro stated that she would welcome more information about Montgomery College. She thought Mr. Subin did not have accurate information regarding the Board’s participation.

Mr. Abrams asked for information on Pinallas County and the lawsuit on minority achievement as related to systemic causes. He was concerned that he was hearing the same issues in multiple jurisdictions, and he wondered if these issues were put forward by political movements.

Dr. Weast stated that there have been several memoranda to the Board on Montgomery College. MCPS has cooperated with the college with the parking lot in front of the Carver building. Also, the Board receives notices of all Council meetings. The college has not established the need for expansion.

Dr. Weast commented that 57MCPS teachers are among the 159 Maryland teachers who have achieved certification by the National Board for Professional Teaching Standards this
year. This brings the total of nationally certified teachers in MCPS to 229. Congratulations to these teachers for successfully completing this rigorous process. Nationally certified MCPS teachers receive an additional $2,000 in salary each year for a period of 10 years. The state matches the local salary incentive with a stipend of up to $2,000 per year.

The school system is very proud of Damascus and Sherwood high schools for reaching the state 4A finals in football. Both teams played excellent games at Ravens Stadium last Friday evening.

Thanks to the RFI Foundation and Comcast of Maryland for their support of the second season of National Philharmonic Concerts for second grade students at the Music Center at Strathmore.

Two special events occurred last week that highlight the excellent programs being offered in MCPS. The school system hosted a group of journalism fellows at a symposium on child and family policy sponsored by the College of Journalism at the University of Maryland. The new Institute for Global and Cultural Studies at Wheaton High School will offer an opportunity for students from the Downcounty Consortium who choose the program to earn up to 15 college credits before graduating from high school.

Re: SCHOOL CALENDAR FOR 2006-07

On recommendation of the Superintendent and on motion of Mr. Abrams seconded by Ms. Cox, the following resolution was placed on the table:

WHEREAS, The establishment of school terms by the Board of Education is required by state law; and

WHEREAS, The Montgomery County parents, community, and staff should be informed of the Board-adopted school calendar each year and the subsequent contingency plan identifying days that will be used to make up lost instructional time due to emergency closings; now therefore be it

Resolved, That the proposed calendar and contingency plan for the Montgomery County Public Schools for the 2006–2007 school year be adopted.

The following considerations are included in the recommended 2006–2007 school year calendar:

Resolved, That the Board of Education authorize staff to accept the offer from Comcast to donate the gymnasium and outdoor field scoreboards for the new Clarksburg High School.

Re: 2005 ANNUAL REPORT ON OUR CALL TO ACTION: PURSUIT OF EXCELLENCE

Dr. Weast invited the following people to the table: Mr. Donald H. Kress, chief school performance officer; Ms. Jody E. Leleck, associate superintendent, Office of Curriculum and Instructional Programs; Ms. Darlene Merry, associate superintendent, Office of Organizational Development; Mr. Matthew A. Tronzano, associate superintendent, Office of Human Resources; and Dr. Carey M. Wright, associate superintendent, Office of Special Education and Student Services.
The 2005 edition of the MCPS Annual Report on Our Call to Action: Pursuit of Excellence details the school system’s significant progress in implementing strategic actions and improvement initiatives by a high-quality workforce. The strategic plan, as approved by the Board of Education annually, has established an accountability framework that uses data points to help monitor the effectiveness of both academic and operational reforms. As a result, opportunities for continued improvement are identified. The student performance and operational improvements have been supported by a strong alignment among strategic planning, budgeting, program implementation, and assessment activities. To strengthen overall monitoring and continuous improvement efforts, a committee of non-school-based and school-based staff, under the direction of the Executive Leadership Team (ELT), has completed the initial work of identifying targets for many of the data points in the strategic plan.

The 2005 annual report provides a comprehensive accounting of the school system’s performance on the established milestones and data points of the strategic plan. The plan’s four goals—ensure success for every student, provide an effective instructional program, strengthen productive partnerships for education, and create a positive work environment in a self-renewing organization—align with the Board’s four core governance policies and provide a framework for monitoring the progress of ongoing reform and improvement efforts. Within each goal, the established milestones and data points are the rubric for monitoring performance.

**Mr. Abrams rejoined the meeting.**

Re: DISCUSSION

Ms. Ervin commented that although the SAT mean scores have increased, the disaggregated scores are flat for African-American and Latino students. Mr. Bowers and Mr. Porter knew this was a concern and it is a priority, which staff is addressing through such measures at implementing the PSAT and teacher referrals. Dr. Weast noted that the acquisition of certain higher level courses is a precursor to academic success.

Ms. Ervin noted that MCPS does a lot of data gathering, but she wanted to know what MCPS does with the data to followup on student achievement. Dr. Weast stated that the data goes into knowledge, and knowledge goes into action. He said there is a high mobility rate among these children, 18 percent of whom have entered MCPS in the last six years. Ms. Ervin requested that staff provide the data to her, and Dr. Weast agreed.

Dr. Weast stated that principals are requested to provide names of students who should be in higher-level course work. The school system is also providing interventions and support beyond the school day.

Mrs. O’Neill thought SAT prep classes for all students would be an intervention strategy prior to high school. Dr. Haughey assigned the Research and Evaluation Committee the
task of reviewing and studying the data on the proficiency and preparedness of minorities taking the SATs.

Ms. Cox noted that there is a great deal of effort placed on early childhood education which is working, but the press and taxpayer groups look at SAT scores to measure success. However, those students did not have the benefit of the initiative.

Ms. Ervin asked what happens to children from kindergarten through fifth grade who are achieving below standards. Dr. Weast replied that different interventions are used to bring them to grade level, such as summer school and other strategies of teaching.

Mrs. Navarro stated that Board members are here to support all children. Since MCPS has been successful with rigor in the elementary schools, Board members must address other issues as well. She will continue to pursue the concerns that she hears from the community.

Ms. Ervin asked for the percentage of classes that are taught by highly qualified teachers. Mr. Tronzano replied that at present, 80.2 percent of the classes are taught by highly qualified teachers, and the goal is 100 percent by June 2006. Dr. Weast added that every state has a different standard, and MCPS has higher standards than other Maryland counties.

Mrs. Navarro wanted more information on workforce diversity. Mr. Porter explained that 36 people from minority groups who are interested in administration are mentored on leadership skills within the school. Mr. Romero asked for a breakdown by certification of Hispanic teachers.

Mrs. Navarro thought there were a number of foreign-born and foreign-educated teachers who would love to teach in Montgomery County. If there were some partnerships for them to be certified, it would be a benefit for all. Dr. Weast thought it was a good idea, and there should be a way to certify these people through college partnerships.

Ms. Cox noticed that there was an alignment between the results of the CTBS, MSAs, and MCPS assessments. Will the school system do anything on the National Assessment of Educational Performance since Maryland has opted out? Is there a piece that will be missing to get assurance that MCPS is performing on a national level? Ms. Leleck thought that was a good question to ask the state.

Ms. Cox wanted to know if students participated in the work group to identify school quality regarding safety and drug-free environments which are conducive to learning. Ms. Connolly stated that students were involved in the survey.

Ms. Cox wanted to know how the school system evaluates the effectiveness of the curriculum. Parents have stated that the curriculum is very homework based. This can be
difficult for students who do not have support at home. Ms. Leleck replied that staff is creating a process for a systematic evaluation of the curriculum using a protocol that will address all issues.

Ms. Cox thought the evaluation should look at what is required of the student in the classroom versus homework. Ms. Leleck thought there was a great deal of variance, based on individual teachers and schools. Homework is not part of the curriculum.

Ms. Cox asked for a timeline on the local math assessment for K-Grade 2.

Ms. Cox wanted to know how the system identifies community needs through productive partnerships. Mr. Bowers stated that there are different strategies, such as study circles, study programs, and programs in individual schools to meet needs.

Ms. Cox asked why the number of underperforming teachers has decreased, based on consulting teacher case loads. Ms. Merry replied that in the beginning the toughest cases were worked on, and the intensive work with novice teachers is helping.

Mr. Abrams wanted to know who was responsible for collecting data that is reported in the data points. Mr. Porter replied that it is collected systemwide.

Mr. Abrams thought that one of the milestones to provide the infrastructure to deliver and analyze the requirements should be referenced in the annual report. Mr. Bowers replied that the Strategic Plan has other objectives and outcomes, and every school and office has data that is analyzed to provide information for the annual report.

Mr. Abrams noted that the budget request will be aligned with the information in the report. Mr. Bowers replied that the initiatives in the Strategic Plan determine what is working and not working, and the budget is aligned with that document.

Mr. Romero remarked that the Strategic Planning Committee reviewed the Strategic Plan, which is very complex. He asked about schools increasing instructional programs for gifted students, global screening, and the disproportionally lower numbers of African-American and Hispanic students who are identified as gifted. Ms. Leleck stated that staff had made changes in the test, and the data for another test was renormed. However, staff must focus on services for children, who do not receive an education based on labels.

Mr. Romero noted two points in strengthening productive partnerships for education: (1) alignment when working with another institution, and (2) the capacity of the partnership organization. How does the school system evaluate the effectiveness of the partnership? Mr. Bowers responded that staff must examine partnerships closely to determine alignment and success.
Mr. Johnson wanted to know how students are encouraged to continue with honors courses. Ms. Merry replied that teachers receive staff development for skillful strategies for honors courses. Mr. Johnson asked about best practices and implementation strategies. Mr. Kress replied that staff survey schools to determine interventions and supports.

Ms. Ervin inquired about homework and said the vast majority of children do not have someone at home who can help them. She also mentioned the ethos of collective achievement, and many African-American and Latino students are isolated because there are so few in a class.

Mrs. O’Neill noted that behind each data point is a wealth of information which is shared with Board members. Also, Board agendas focus on areas that are included in the report. However, the Board must continue to discuss gifted education.

Mrs. Navarro said she was still confused about family partnerships and the need for an inventory of programs, the system’s capacity to provide services, and outcomes/results. There are a lot of different programs and activities, and the school system needs to capture them into a framework.

RESOLUTION NO. 627-05  Re:  CLOSED SESSION RESOLUTION

On recommendation of the Superintendent and on motion of Mrs. O’Neill seconded by Mrs. Navarro, the following resolution was adopted unanimously:

WHEREAS, The Board of Education of Montgomery County is authorized by the Education Article and State Government Article of the Annotated Code of Maryland to conduct certain meetings or portions of its meetings in closed sessions; now therefore be it

Resolved, That the Board of Education of Montgomery County conduct a closed session on Tuesday, January 10, 2006, in Room 120 of the Carver Educational Services Center to meet from 9:00 to 10:00 a.m. and 12:00 to 2:00 p.m. to discuss personnel matters, as permitted under Section 10-508(a)(1) of the State Government Article; consult with counsel to obtain legal advice, as permitted by Section 10-508(a)(7) of the State Government Article; review and adjudicate appeals in its quasi-judicial capacity; and discuss matters of an executive function outside the purview of the Open Meetings Act (Section 10-503(a) of the State Government Article); and be it further

Re: SCHEDULING A BOARD DISCUSSION ON “GREEN” SCHOOLS

On motion of Ms. Ervin and seconded by Mrs. Navarro, the following resolution was placed on the table:

WHEREAS, The school system, in recent years, has planned two new elementary schools using the LEED [Leadership in Energy and Environmental Design] rating system, based on the documented benefits of sustainable design practices and high performance, “green” building technologies that result in significant operational cost savings, benefits to the environment; and improved building occupants’ comfort and health; and

WHEREAS, The recommended FY 2007-2012 Capital Improvements Program under consideration calls for six-year expenditures in excess of $1.17 billion, providing an opportunity to expand the school system’s commitment to more efficient and high performance, “green” building technologies; and

WHEREAS, The school system’s future efforts in this regard might be enhanced were there to be a distinct office dedicated to advancing sustainability and “green” building technologies; and

WHEREAS, The school system’s future efforts in this regard might be enhanced were the Board of Education to enact either a policy or a resolution that would commit the school system to advance sustainability and environmentally efficient processes in its facilities and operations; now therefore be it
Resolved, That the Board of Education schedule a presentation and discussion in the near future, as part of a regular business meeting, to educate all Board members on this important topic, after which a determination could be made as to future efforts.
