Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Weast commented on raising achievement for all students. The percentage of students in the Class of 2005 with SAT scores of 1100 or higher has steadily increased for all student groups. There is still a need to break institutional barriers to achieve access,
equity, quality, and support. Now that the pathway to success has been established, there is a need to have more children on that pathway.

Ms. Ervin asked for the actual number rather than percentages of students taking the SAT and the average school scores. Regarding student achievement, Ms. Cox was interested in knowing about the equity of resources, such as schools with similar profiles, outcomes, and supports provided to each.

Mrs. O’Neill expressed sadness on the passing of Gail Holder who served the Board for many years as an office assistant. Furthermore, Roz Phillips, who serves the Board as an administrative secretary, is on long-term medical leave. The staff in the office helps Board members in many ways to keep them on task.

Mr. Johnson thanked the superintendent and staff for their report on the rigor in the system and the gains made in African-American and Hispanic achievement. He has expanded his school visits and does seminars on academic equity in public and private schools.

Re: TENTATIVE ACTION ON POLICY JEB – EARLY ENTRANCE INTO KINDERGARTEN

On motion of the Policy Committee, the following resolution was placed on the table:

WHEREAS, On October 24, 2005, the Board of Education took tentative action to adopt Policy JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade, and released it for public comment; and

WHEREAS, Subsequent to the tentative adoption and release for public comment of Policy JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade, the Maryland State Department of Education provided additional guidance for setting requirements for early entrance to prekindergarten, kindergarten, and first grade; and

WHEREAS, The committee has recommended that the tentatively adopted draft Policy of JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade, be revised for consistency with the guidance provided by the state; and

WHEREAS, The committee considers the revisions to be substantial and, hence, desires additional public review and comment; now, therefore be it

Resolved, That the Board of Education tentatively adopt Policy JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade as revised; and be it further

Resolved, That Policy JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade be sent out for further public comment, with final action intended for the March 14, 2006, Board of Education meeting, prior to the commencement of kindergarten orientation.
Early Entrance to Prekindergarten, Kindergarten, and First Grade

A. PURPOSE

To ensure that the early years of a student’s education provide the solid foundation critical to ongoing academic success. Since the first years are so essential to a successful long-term educational experience, every effort is made to ensure that students entering pre-kindergarten, kindergarten, and first grade are ready to learn and be successful. Balancing current understanding of the long-term effects of early education with the unique needs of each student requires careful consideration. The Board of Education, in accordance with state regulation, holds that generally students are best served when they enter school at the ages research has indicated are most conducive to long-term success. However, this policy and state regulation have prescribed the consideration of the individual needs of students for early entrance.

B. ISSUES

The decision regarding early entrance to prekindergarten, kindergarten, and first grade requires careful consideration of all factors. The academic, social, and emotional readiness, as well as the student’s physical development and well-being, must be weighed and institutional factors may also be considered. Sound decision making in the area of early entrance to prekindergarten, kindergarten, and first grade is dependent upon reliable information regarding a student’s readiness and a thoughtful balancing of the myriad of factors implicated by the decision.

C. POSITION

It is the presumption of the Board of Education that students will enter prekindergarten, kindergarten, and first grade at the ages prescribed by state regulation. The Board of Education understands that students whose birth date closely misses the cut-off date for school attendance may have educational needs or demonstrated capabilities that warrant early admission to prekindergarten, kindergarten, or first grade.

1. Students from income-eligible families seeking early entrance into prekindergarten must demonstrate a need for early education, as identified by their readiness levels in developmental areas, warranting admission.

2. Students seeking early entrance to kindergarten must demonstrate capabilities warranting early admission.
3. Students seeking early entrance to first grade must demonstrate capabilities warranting early admission.

4. Decisions regarding early entrance must include consideration of the above regardless of race, color, gender, religion, ancestry, national origin, marital status, age, disability, or sexual orientation of children and/or their families. Institutional factors, such as capacity, may also be considered.

D. IMPLEMENTATION STRATEGIES

1. The superintendent will develop regulations for implementing this policy that will include a screening process for students whose birth date occurs within a six-week period beyond the state’s prescribed admission date, as well as procedures for appealing decisions arising out of such screening.

2. All regulations developed in support of Board of Education adopted policies shall be sent to the Board as items of information.

E. Review and Reporting

This policy will be reviewed in accordance with the Board of Education policy review process.

Re: AN AMENDMENT TO THE TENTATIVE ACTION ON POLICY JEB – EARLY ENTRANCE INTO KINDERGARTEN

On motion of Mr. Abrams and seconded by Ms. Ervin, the following amendment failed with Mr. Abrams and Mr. Ervin voting in the affirmative; Ms. Cox, Dr. Haughey, Mr. Johnson, Mrs. Navarro, Mrs. O’Neill, and Mr. Romero voting in the negative:

Resolved, That the Board of Education amend the policy at D.1. to read:

The superintendent will develop regulations for implementing this policy that will include a screening process for students whose birth date occurs within a six sixteen-week period beyond the state’s prescribed admission date, as well as procedures for appealing decisions arising out of such screening, provided that the applicant bears the burden of demonstrating the child’s academic, emotional, and social readiness; and provided further that evidence must be compelling for those applicants whose birth dates occur within seventh through sixteenth week beyond the state’s admission date.
RESOLUTION NO. 5-06  Re: TENTATIVE ACTION ON POLICY JEB – EARLY ENTRANCE INTO KINDERGARTEN

On motion of the Policy Committee, the following resolution was adopted with Ms. Cox, Ms. Ervin, Dr. Haughey, Mr. Johnson, Mrs. Navarro, Mrs. O’Neill, and Mr. Romero voting in the affirmative; Mr. Abrams voting in the negative:

WHEREAS, On October 24, 2005, the Board of Education took tentative action to adopt Policy JEB, Early Entrance to Prekindergarten, Kindergarten, and First Grade, and released it for public comment; and

Re: DIALOGUE ON CURRENT ISSUES: UPDATE ON MONTGOMERY COLLEGE EXPANSION

Dr. Weast commented that on December 12, 2005, the Education Committee of the County Council held a worksession on issues related to facility needs for Montgomery College. One of the topics discussed by representatives of Montgomery College and the Education Committee members was the expansion of the Rockville campus. As part of its master plan, the college has identified the need to expand the Rockville campus to address growing enrollment and related space issues.
Mr. Michael Subin, chair of the Education Committee, asked Dr. Charlene Nunley, president, Montgomery College, and Dr. Weast to discuss the possibility of the college acquiring the Carver Educational Services Center (CESC) site to expand the Rockville campus. Since such an expansion would require that MCPS relocate its administrative offices to another site, Dr. Weast met with Dr. Nunley and explained the school system’s growing capital budget needs for school facilities. It was agreed that, given the priority of other school projects, Montgomery College would take the lead in advocating for an expanded campus.

At the December 12 meeting, the Education Committee members indicated they believe the proposal to use the CESC site for the Rockville expansion should be explored further, based on the information provided by the college. MCPS has been asked for a response to moving its headquarters. While Dr. Weast did not disagree with the Education Committee’s findings that the college should subsume the CESC site as part of the Rockville campus expansion, there are significant costs and related issues associated with moving to new administrative space that need to be identified and understood.

First, staff has preliminarily researched potential locations for a new headquarters. While there are existing office buildings available, such as the former National Geographic Society facility on Darnestown Road, the most cost-effective approach given timing and other issues may be to purchase land and construct a building. Several suitable commercial office sites are available for a headquarters facility; however, the cost of the land acquisition and building improvements to house all of the central office functions at one location would be significant.

Second, there are substantial costs even if the central offices do not move. MCPS will be spending approximately $2.4 million to lease commercial office space in FY 2007 for central office functions that cannot be located at CESC. Some of this space is currently leased as sublets at a significantly reduced rental rate that eventually will have to be converted to market rates. Once this happens, MCPS could be spending close to $3 million annually for leased space. If the leasing cost is added to the cost of renovations that will have to be made at CESC to keep it functioning as the MCPS headquarters, the combined annualized cost would be comparable to the annual financing cost for a new headquarters over a 30-year period. Several school systems, including Fairfax and Harford counties, are using this approach to plan for new headquarters in their jurisdictions.

However, even though a financial argument could be made to support the proposal to use the CESC site for the college’s purposes, Dr. Weast believed it would be difficult to separate this issue from other capital budget needs. Therefore, he strongly recommended that the Montgomery College expansion be addressed by the Council before any discussion of potential next steps for MCPS.
The Education Committee has voted to recommend to the full Council that funds be allocated to begin preliminary/feasibility planning for the college expansion, pending a response from the Board on moving the MCPS headquarters. Dr. Weast suggested that the Board’s response to the Education Committee should outline the issues raised above and ask that any planning funds approved for the college also include the cost of potential relocation opportunities as part of the college’s expansion, outside of the Board’s capital budget request. This would give MCPS an opportunity to do a thorough financial assessment of the costs that will be incurred if it stays at CESC or relocates, as well as the options available to the college.

Dr. Weast believed that the Board can discuss this approach to responding to the Education Committee in public session and asked that the Board include a brief discussion item on the January 10, 2006, agenda. If the Board concurs with this approach, staff can draft a response for the Board president to send to the Education Committee chair or schedule a discussion item during the public session of the February 14, 2006, meeting to communicate this approach as part of a resolution.

Re: DISCUSSION

Mrs. O’Neill thought the Board is charged with the education of children in Montgomery County, and her first obligation is to those children. She understood the challenges of Montgomery College, but MCPS has 17,000 children in portables, among many other facility needs. In the past, the school system has tried to develop a public/private partnership to develop adequate space for central office only to be stopped by the City of Rockville. Another question concerns Rock Terrace School and what would happen to it.

Mr. Abrams thought the Board looks out for the interests of MCPS, which serves children, is the economic engine for the county, and is part of the reason people choose to live in Montgomery County. MCPS is an excellent school system because it stays current with systems in place for quick data-decision making. Also, MCPS is a system of people and many are not in the classroom. The Board has an obligation to assure that they have a clean, safe, modern, and efficient place to work. Within this discussion, will Carver meet the needs of the school system? What would it cost to bring Carver into total compliance as a 21st century administrative facility?

Ms. Ervin wanted to know why the expansion of Montgomery College was tied to whether or not MCPS finds another location. Furthermore, Carver is a historic site. Dr. Weast thought these were separate issues, and the college’s needs should be fully developed prior to MCPS’ issue. The college could think more vertically for instructional space as well as parking. There is a requirement to study thoroughly the colleges needs and options. Even if the school system had money, the priorities of the Board constituted a long list.

Mr. Romero believed the study should be comprehensive with rationales for the options presented. Dr. Weast stated that the college’s master plan includes acquiring Carver.
Re: MONTGOMERY COLLEGE EXPANSION

On motion of Ms. Cox and seconded by Mrs. O’Neill, the following resolution was placed on the table:

Resolved, That the Board of Education send a response to the County Council asking it to divide the $100,000 between the college and MCPS in order for each to review needs and options that are not connected.

Re: DISCUSSION

Mr. Romero stated that he did not want the money split. This might not be the wisest use of money. Ms. Cox wanted to send the message that these were separate issues. Mrs. O’Neill thought it was a clear message since both institutions have needs that must be addressed. Mr. Hawes thought it was important for a feasibility study to demonstrate the need, all possible options, and an analysis of the preferred choice.

Ms. Ervin agreed with the motion since the feasibility study for the college does not take into account any of the MCPS needs. Dr. Weast asked the Board to think about making sure that all of the college’s needs and options are fleshed out first, and then considering MCPS. He did not believe that a parallel path was advantageous because it would appear that the system was looking for a central office over the needs of children.

Mrs. Navarro supported the idea of sending the message that the college should present its issues and requirements.

Mr. Johnson agreed with the message that MCPS does not want to detract from the facilities program. He thought that a letter to the Council from the president outlining the Board’s concerns would be sufficient.

Mr. Abrams thought the Board should respond regarding the consequences in the event that the Education Committee continues on the same path. What would it cost the school system to move or to renovate Carver?

Mr. Romero believed that the motion would sound antagonistic to the Council.

RESOLUTION NO. 28-06 Re: MONTGOMERY COLLEGE EXPANSION

On motion of Ms. Cox and seconded by Mrs. O’Neill, the following amended motion was adopted unanimously:

Resolved, That the Board of Education believes that it is necessary before it takes any position that there be a full review of the college’s needs and options, and the potential consequences of those options for the school system.
RESOLUTION NO. 29-06  Re:  CLOSED SESSION RESOLUTION

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Mr. Abrams, the following resolution was adopted unanimously:

Re: SCHOOL REASSIGNMENT REQUESTS

On motion of Mr. Ervin and seconded by Mr. Johnson, the following resolution was placed on the table:

Resolved, That the Board of Education schedule a discussion as to the desirability of amending Policy FAA (Long-Range Educational Facilities Planning) to consider addressing extraordinary school reassignment requests, absent a full-blown boundary study, without being limited to the regular CIP cycle.

Re: DISCUSSION

Mrs. O'Neill stated that she would not support the resolution, especially since the policy was just adopted in May. These issues never came to the Policy Committee through the public comments. Furthermore, the regulations are being developed. Every year there is an opportunity to establish a scope for reassignment of students.

Mr. Bowers reported that the Hampshire Greens community thinks there is another remedy. The policy talks about utilization that triggers a boundary study.

Mr. Abrams stated that a Board member can put forward an alternative in Policy FAA, and it is not necessarily a full boundary study. Furthermore, there could be a motion for a minor adjustment in the boundary. These opportunities occur in November and March.

Ms. Cox stated that she opposed the resolution based on two concerns. When the policy was passed, there were a number of concerns in the community about the Board’s intent including concerns from the communities that would be affected by changes in the capital programming. This resolution could exclude people who may have a stake in the outcome. The interests of Hampshire Greens can be addressed through the current process. Furthermore, she opposed setting up an process outside of those established, therefore creating loopholes in the policy.

Mrs. Navarro noted that the policy development assured the communities that all stakeholders would be involved in Board decisions. However, she was still puzzled about a small number of students being bused outside their community.
