Re:  
RECOGNITION OF THE FATHERS’ CIRCLE PROGRAM AT KINGSVIEW MIDDLE SCHOOL

Mr. Dennis Queen, principal of Kingsview Middle School, and the co-presidents of the Fathers’ Circle Program, Mr. Patrick Gerdes and Mr. Morgan Thomas, spoke about the program, which started in January 2006. In November 2005, a teacher observed that “African American males do poorly in school because they do not have fathers in their homes.” The Kingsview administration knew that this perception was false. When teachers were told to invite fathers and mothers to conferences, all but one student’s father or stepfather came. Also, based on Kingsview’s emergency cards, the administration knew that statement was not true for the overwhelming majority of its students.

The administration decided to have a focus group of African American fathers to share data,
find out what motivated them to be successful when they were in school, and ask for suggestions and help. The first meeting was planned as a two-hour session; the fathers stayed and talked for more than three hours.

The Father’s Circle Program is an exemplary example of the positive impact of a productive partnership between the school and the parents and families that the school serves.

WHEREAS, This award recognizes the commitment that the Montgomery County Public Schools has made to support environmental stewardship; now therefore be it

Resolved, That the Board of Education applaud and recognize the collaboration and dedication demonstrated by the Montgomery County Public Schools staff, the project architect, and the contractor who helped achieve a Leadership in Energy and Environmental Design Gold certification for Great Seneca Creek Elementary School.

Re: BOARD/SUPERINTENDENT COMMENTS

Dr. Weast commented that MCPS has a Presidential Scholar for Academic Excellence and a Presidential Scholar in the Arts.

Ms. Horvitz congratulated Mr. Ben Moskowitz for being elected the new student member of the Board. She also congratulated all of the newly elected student leaders.

Dr. Docca said she attended the Blue Ribbon School celebration at Winston Churchill High School. She also attended the Howard Hughes Medical Scholarship Awards and the end-of-year ceremonies at the George B. Thomas, Sr. Learning Academy.

Mr. Abrams commented on the Champions for Children Gala with the selection of the Montgomery County Teacher of the Year. Florida passed a law required a half-hour of physical education a day in all schools, and Maryland schools should think about this initiative.

Ms. Brandman spoke about the Linkages to Learning program and the connection of school and community. She attended the MCCPTA Special Education ceremony.

Mrs. O'Neill attended the 50th anniversary of Walter Johnson High School. She was concerned about the lack of ACT administration sites in Montgomery County. She asked staff to review the issue.

Ms. Cox stated that she attended the Roberto Clemente Middle School presentation on environmental issues with a school in India. Also, she and staff attended a meeting in Harford County on grading and reporting.

Mr. Barclay represented the Board at the Agnes Meyer Teacher of the Year Award at The Washington Post. In addition, he saw the play, New Kid, about a family coming to the United States, at Imagination Stage. It was extremely moving and he encouraged his colleagues to see it.

Re: NO CHILD LEFT BEHIND ACT OF 2001 DISCUSSION

Dr. Weast invited the following people to the table: Mr. Erick J. Lang, director, Department of Enriched and Innovative Programs; Ms. Chrisandra Richardson, director, Division of Academic Support, State and Federal Programs; Dr. Karen Woodson, director, Division of ESOL/Bilingual Programs; and Dr. Carey Wright, associate superintendent, Office of Special Education and Student Services.

In March 2007, the National School Boards Association (NSBA) published a detailed analysis of federal education legislation, titled NSBA Issue Brief: Improving the No Child Left Behind (NCLB) Act of 2001. The NSBA argued that although the NCLB Act established the
expectation for a rigorous accountability system for the nation’s public schools, what has evolved is a measurement framework that varies from state to state and depends on an evaluation of school quality based on a single assessment of student performance that also varies by state. In addition, the law mandates a series of sanctions not always targeted to student needs and, to date, not yet proven to have a significant impact on improving either student or school performance. A summary of the NSBA analysis provides the Board of Education with a foundation for a discussion on the impact of NCLB on MCPS.

Re: NO CHILD LEFT BEHIND ACT OF 2001

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Mr. Barclay, the following resolution was placed on the table:

WHEREAS, On January 8, 2002, President George W. Bush signed into law the No Child Left Behind (NCLB) Act of 2001, which applies to all school districts and schools within states that accept federal Title I dollars; and

WHEREAS, The Montgomery County Board of Education, supports the goals of NCLB of raising student achievement, closing the achievement gap, and ensuring that each child has a highly qualified teacher; and

WHEREAS, The Montgomery County Board of Education continues to welcome accountability for improving student and school performance; and

WHEREAS, Improvements have been identified that could be made to NCLB that would eliminate barriers to full implementation of the federal law that would include the following:

• Flexibility in assessing students with disabilities and those not yet proficient in English.

• Greater flexibility in growth models so that changes in student performance are the key measures of the model.

• Alignment of sanctions so that School Choice and supplemental educational services (SES) are directly applied to students who are members of the subgroup that failed to meet adequate yearly progress targets and were themselves unable to demonstrate proficiency.

• Modification of the process used to identify alternative schools for sanctions.

• Use of highly qualified teachers to provide SES.

• Use of a portion of the SES set aside for administration of the program.

and
WHEREAS, The National School Boards Association (NSBA) developed draft legislation based on input from local school boards across the nation that would address the concerns of local school boards and improve the implementation of NCLB; and

WHEREAS, In April 2006, the NSBA Delegate Assembly reaffirmed its support of federal legislation that is consistent with the NSBA draft legislation; and

WHEREAS, In January 2007, Representative Don Young (R-Arkansas) reintroduced legislation, the No Child Left Behind Improvements Act of 2007, H.R. 648, which is consistent with the NSBA draft legislation; now therefore be it

Resolved, That the Montgomery County Board of Education strongly urge the Congressional representatives for the citizens of Montgomery County—Representative Roscoe G. Bartlett (R-Maryland Sixth District), Representative Chris Van Hollen (D-Maryland Eighth District), and Representative Albert Wynn (D-Maryland Fourth District)—to fully support H.R. 648 by becoming co-sponsors of the bill; and be it further

Resolved, That the Montgomery County Board of Education seek the support of all federal, state, and county elected leaders representing Montgomery County, as well as leaders of parent and employee representative organizations within the Montgomery County Public Schools, business and community leaders, and other interested citizens, for improvements in the No Child Left Behind Act by voicing their support for H.R. 648; and be it further

Resolved, That copies of this resolution and documentation from the National School Boards Association and the superintendent of schools accompany all requests for support for H.R. 648.

Re: DISCUSSION

Mrs. O’Neill stated that she supported this resolution. The NSBA has worked hard to have this bill put forward. Some issues need to be corrected in this legislation. At one time Congressman Van Hollen had introduced legislation for full funding since that is another problem. Congressmen Van Hollen and Wynn and Senator Cardin have signed the NSBA pledge, and the letter transmitting the resolution should refer strongly to this pledge.

Mr. Abrams thought this opportunity allowed the Board to do something broader. The funding concerns are both state and federal. The Thornton funding is a larger amount, and he was curious on how that fit into the fiscal picture. When the Board started its reform in 1999, the Board had already agreed to accomplish the goals in NCLB. Do the objections to the act concern the components or the funding? Mr. Abrams thought the Board had a rare perspective on the debate about the reauthorization of the act. This Board wants to comply for its own reasons and standards. He would enthusiastically endorse a statement from this Board outlining the problems encountered by a district that wants to comply.
RESOLUTION NO. 227-07  Re:  

NO CHILD LEFT BEHIND ACT OF 2001

On motion of Ms. Cox and seconded by Mrs. O’Neill, the following amendment was adopted unanimously:

Resolved, That the Board of Education direct the superintendent of schools to compose an addendum which outlines specific details that have a definite effect on Montgomery County Public Schools.

The addendum could include, among other things:

1. Reference to the NSBA pledge
2. MCPS wants to comply, but there are constraints/difficulties
3. Difference between minimum standards/rigorous standards that lead to college/work
4. Sanctions and implications on Montgomery County, especially Title I
5. State assessments are problematic
6. Lack of flexibility/one size fits all
7. Penalties versus incentives
8. Educating children with interrupted or inadequate education
9. NCLB influences state to aim at a lower level to attain proficiency
10. State test should mean something/entrance into college/work
11. Recognition of ESOL/special education students
12. Federal waiver based on achievement with incentives
13. Lessons learned with incentives
14. Disaggregated/subsets that build on performance of each group
15. Sanctions with egregious effects on instruction
16. Impact on losing time for social studies and science in elementary education
17. Narrow the focus on the impact to the school system
18. Impact on time of instruction and staff

Re:  NEW BUSINESS
Mrs. O’Neill stated that on May 3, 2006, she wrote a memorandum to Superintendent of Schools Jerry D. Weast, requesting consideration of a waiver of high school final exams for students taking Advanced Placement and International Baccalaureate courses. On May 24, 2006, Dr. Weast responded that MCPS would investigate the feasibility of implementing this suggestion. In his response, he also referred the suggestion to the Office of Curriculum and Instructional Programs for consideration by the Grading and Reporting Implementation Team. Mrs. O’Neill added that to the best of her knowledge, the Board had not been advised on the outcome of these reviews. In addition, the Board may be interested in addressing other issues related to high school final exams. Therefore, she offered the following resolution for the Board’s consideration.

Re: **HIGH SCHOOL EXAMS**

On motion of Mrs. O’Neill and seconded by Ms. Cox, the following resolution was placed on the table:

Resolved, That the Board of Education schedule a discussion as soon as possible on the issues raised in the earlier memos as well as other issues related to high school final exams.

RESOLUTION NO. 257-07 Re: **VOTE ON NEW BUSINESS**

On motion of Mrs. O’Neill and seconded by Ms. Cox, the following resolution was adopted unanimously by members present:

Resolved, That the Board of Education vote today on this new business item in lieu of the practice of new business laying over until the next meeting.

Re: **DISCUSSION**

Mrs. O’Neill stated that there are many issues connected with high school final exams, not withstanding requirements from the Maryland State Department of Education. Last year, the state superintendent announced that students could substitute the Advanced Placement (AP) government exam for the High School Assessment (HSA) government exam. Unfortunately, the caveat was that students would not received the results of the AP exams until July, and the opportunity was not there to retake the HSA until January. The state superintendent stated that there would an October administration of the HSA, but the school system has not received that information.

However, there is the issue of how many high-stakes tests children are taking. Typically, a sophomore would take AP government, HSA in government, and the MCPS final exam. These same children in 10th grade are also taking the HSA in English and the MCPS final exam.
On the subject of the high school countywide exams, the issue was raised that when the Board adopted the Grading and Reporting Policy, there was some belief among staff that the Board felt very strongly about the need for final exams. At the time of the action, the Board directed the superintendent that the Board’s thinking was that 25 percent would be the weight of the final exam as opposed to his recommendation of 30 percent. The Board did not feel that the final exams were absolutely essential for all high school courses, such as PE or journalism/yearbook. With the electronic grade book, there is a requirement for a final exam weighted at 25 percent.

Mrs. O’Neill thought the Board should take a look at these issues related to final exams, and, if possible, give students a break. It is onerous for the seventh graders taking algebra in middle school to take the MSA, HSA, and final exam. COMAR clearly states that if a student receives credit in middle school for high school courses, there must be an exam. The Board needs to have a discussion that is open ended.

Ms. Cox supported the adoption of the resolution because the Grading and Reporting Policy does speak to the importance of summative assessments. When the superintendent promulgates a regulation, the Board needs a discussion for his information on final exams. It would be better to have this discussion very soon.

RESOLUTION NO. 258-07 Re: HIGH SCHOOL EXAMS

On motion of Mrs. O’Neill and seconded by Ms. Cox, the following resolution was adopted unanimously by members present:

Resolved, That the Board of Education schedule a discussion as soon as possible on the issues raised in the earlier memos as well as other issues related to high school final exams.

Re: ITEMS OF INFORMATION

The following items were available to Board members and the public:
1. Legal Fees Report
2. Construction Progress Report
3. Minority-, Female-, or Disabled-owned Business Procurement Report for the Third Quarter of FY 2007
4. Update on Summer Training

Re: DISCUSSION

Mrs. Navarro referred to the Minority-, Female-, or Disabled-owned Business Procurement Report for the Third Quarter of FY 2007. She asked how potential vendors are contacted, what the technical assistance is, what the outreach is, if minority organizations are
contacted, and if there has there been an increase in vendors. Mr. Barclay wanted to know what the process looked like and the mechanisms for advertisement.

Re: SUPERINTENDENT’S LEADERSHIP PROGRAM

The Board of Education received a briefing on the Superintendent’s Leadership Program (SLP), a career and leadership development program for high school seniors that focuses on an honors-level humanities curriculum comparable to many college courses. This unique program is designed to educate future global leaders. Students who have demonstrated outstanding leadership and academic excellence are selected through a highly competitive process. The program is aligned with the goals outlined in Our Call to Action: Pursuit of Excellence—The Strategic Plan for the Montgomery County Public Schools (MCPS), particularly the initiative to strengthen productive partnerships for education. Through the SLP, students are connected with partners in business, higher education, and government.

The program, established to provide an enriching learning experience outside of the classroom for emerging leaders, was piloted in 2000 and became fully operational with the Class of 2002. The program’s structure allows the superintendent to interact consistently with a group of students, many of whom are making their own positive impact on Montgomery County and global communities. Each month Dr. Weast facilitates a two-hour seminar with the class, which also affords students the opportunity to better understand the leadership within the school system, in addition to other program components.

RESOLUTION NO. 259-07 Re: ADJOURNMENT

On recommendation of the Superintendent and on motion of Ms. Cox seconded by Ms. Brandman, the following resolution was adopted unanimously by members present:
