Re: BOARD/SUPERINTENDENT COMMENTS

All Board members and the superintendent congratulated Ms. Brandman and Mrs. O’Neill on their election as officers of the Board. Everyone looked forward to working together for the education of children.

Mr. Kauffman commented that he attended a meeting of the Weeds and Seeds program, which is a community group that represents residents in the Broad Acres and Roscoe Nix elementary schools areas that help to fund community policing. He was a guest of the Montgomery Blair High School’s PTA at the Pride and Prejudice performance. Also, he attended a jazz performance at James Hubert Blake High School. He observed that art events connect the students with all residents in Montgomery County, especially those without students in the schools. Finally, he congratulated Sherwood high School for winning the 4A state football championship.

Ms. Berthiaume stated that the Maryland Association of Boards of Education (MABE) orientation was a well-run and informative meeting. Also, she attended the Committee for Montgomery breakfast and heard remarks from the county executive and the Senate president.

Ms. Malik thanked the students who came to the MCR/MCJC meeting on December 2. Finally, she presented the MCR Legislator of the Year award.

Mr. Barclay commented that he will always look for opportunities to speak about the arts. He congratulated Mr. Melvin Moore, who was chosen to be the Maryland PTA Father of the Year. Finally, the student meeting provided information for the Board in terms of what is happening in the schools, and he welcomed an increase in student dialogues.

Dr. Docca remarked that the meeting with the students was well run by Ms. Malik, and the students posed some very important questions. She said that she had met with students involved in an environmental committee.

Ms. Navarro noted that the meeting with students was amazing and the questions with answers will be compiled for distribution to the students. She presented to students at John F. Kennedy High School in a program called Liberties Promise. Also, she visited with a group of Latino parents at Rolling Terrace Elementary School. She commended the
MCPS employees for voting on their agreements, and on their ability to work with the system.

Mrs. O’Neill commented that there is a need to advocate for the Geography Cost of Education Index (GCEI), cost of teacher pensions remaining with the state, and the need for school construction funds. She and other Board members attended the Organization of Chinese Americans dinner, and she thanked Ginny Gong and Michael Lin for their dedicated service to the national and local organization. Finally, she complimented Ms. Malik on her management of the meeting with students.

Re: GOAL 4: CREATE A POSITIVE WORK ENVIRONMENT IN A SELF-RENEWING ORGANIZATION: SUPPORTING SERVICES MENTORING PROGRAM

Dr. Weast invited the following people to the table: Mr. Jamie Virga, associate superintendent, OOD; Dr. Inger Swimpson, director, OOD; Ms. Monique Riddick, mentor coordinator, OOD; and Ms. Sandra Spruill, mentor, Glenallan Elementary School.

The purpose of this presentation was to provide an update on the implementation of the Supporting Services Mentoring Program, a new initiative of Montgomery County Public Schools (MCPS), which is designed to build the capacity, knowledge, and skills of our highly valued support professionals.

To support Goal 4 of the MCPS strategic plan, Create a Positive Work Environment in a Self-renewing Organization, one of the key efforts has been the development of professional growth systems for all three MCPS employee groups. The Supporting Services Professional Growth System (SSPGS) was developed in collaboration with the Service Employees International Union (SEIU) Local 500 and the support of the Board of Education. The purpose of the SSPGS is to establish a comprehensive system for recruiting, staffing, evaluating, recognizing, and retaining high-quality supporting services staff in all of our schools and offices. The SSPGS articulates clear expectations for the performance of all supporting services employees and delineates the supports provided by the system to help all support professionals enhance their skills and improve job performance.
The Supporting Services Mentoring Program is an important component of the SSPGS, providing additional strategies to ensure the employment of highly qualified and diverse support personnel, as envisioned in Goal 4 of the strategic plan. The Supporting Services Mentoring Program provides mentors to both new employees and current staff members to help them excel in their roles, direct them to training and on-the-job work experiences, and prepare them for career development opportunities.

Next steps include the following:
- Complete implementation of Year 1 of the Supporting Services Mentoring Program
- Monitor interest in the program via telephone contacts and website hits
- Continue ongoing professional development for mentors
- Gather feedback from mentors and mentees regarding successes and challenges of the program
- Adjust program based on data
- Recruit mentors and mentees for Year 2 implementation
- Continue communication with stakeholders

The Supporting Services Mentoring Program is a promising professional development opportunity for all staff members in MCPS and will enhance efforts that focus on professional development, recruitment, retention, and the creation of a more diverse workforce. This program will continue to create a positive work environment in MCPS by the renewal of its workforce through mentoring.

Re: DISCUSSION

Mr. Barclay asked how many employees are affected by the program, what is the goal for the ideal, and what is the cost. Staff replied that currently there are four working mentor/mentee working relationships, and it takes time to build relationships with a target of 20 for this school year. There is a video online that describes the program, and word of mouth will build the program. Finally, the cost is the stipend for the mentor.

Mr. Barclay wanted to know the range of employees, and who is the supervisor. Staff explained that mentors vary, such as building service managers, administrative secretaries, teachers, etc. Ms. Riddick is the supervisor of the program.

Mr. Kauffman inquired about the evaluation and measurements of success. How do we know this program will make a difference? Staff replied that the evaluation will be based on participation of mentors, requests and assignments, length of time of mentor/mentee, goals met, career development with application for new positions, and a follow-up survey.

Ms. Brandman commented that teaching or mentoring has value because there is more learning recognizing experience. What are the systemwide benefits, such as retention and pathways to areas of shortage. Staff commented that one of the goals is to review the relationships as well as develop higher-education partnerships.
Ms. Navarro asked a question: as there is a structure of culture change with the system and an equity framework, will this be a place to infuse staff development? Staff replied that mentors must have cultural competency.

RESOLUTION NO. 453-08 Re: LUNCH AND CLOSED SESSION

On recommendation of the superintendent and on motion of Ms. Berthiaume seconded by Mr. Barclay, the following resolution was adopted unanimously:

WHEREAS, The Board of Education of Montgomery County is authorized by the Education Article and State Government Article of the Annotated Code of Maryland to conduct certain meetings or portions of its meetings in closed sessions; now therefore be it

Resolved, That the Board of Education of Montgomery County conduct a closed session on December 9, 2008, in Room 120 from 12:45 a.m. to 1:30 p.m. to discuss the Human Resources Monthly Report, as permitted under Section 10-508(a)(1) of the State Government Article; and be it further

Resolved, That the Board of Education discuss collective bargaining negotiations and consider matters that relate to the negotiations, as permitted under Section 10-508(a)(9) of the State Government Article and Section 4-107(d)(2)(ii) of the Education Article; and be it further

Resolved, That the Board of Education receive legal advice, as permitted under Section 10-508(a)(7) of the State Government Article; and be it further

Resolved, That the Board of Education of Montgomery County dedicate part of the closed sessions on December 9, 2008, to acqit its administrative functions and to adjudicate and review appeals, which is a quasi-judicial function outside the purview of the Open Meetings Act under Section 10-503(a) of the State Government Article; and be it further

Resolved, That this portion of the meeting continue in closed session until the completion of business.

Resolved, That this resolution be made a part of the minutes of this meeting and a copy be forwarded to Ms. Slade-Young’s family.

Re:  MONTHLY FINANCIAL REPORT

Mr. Bowers stated that this financial report reflects the actual financial condition of Montgomery County Public Schools (MCPS) as of October 31, 2008, and projections through June 30, 2009, based on program requirements and estimates made by primary and secondary account managers. At this time, revenues have a projected surplus of $1,700,000, while expenses have a projected surplus of $10,400,000. Staff will continue to closely monitor both revenues and expenditures.

Re:  2008 ANNUAL REPORT ON OUR CALL TO ACTION: PURSUIT OF EXCELLENCE
Dr. Weast invited the following people to the table: Ms. Jody A. Leleck, chief academic officer; Mr. Stephen L. Bedford, chief school performance officer; and Dr. Stacy L. Scott, associate superintendent, Office of Shared Accountability.

The 2008 edition of Montgomery County Public Schools (MCPS) Annual Report on Our Call to Action: Pursuit of Excellence details the school system’s progress in implementing strategic initiatives and creating and maintaining a high-quality workforce. Our Call to Action: Pursuit of Excellence, the district’s strategic plan, is the catalyst for continuous improvement and guides the work of staff, students, parents, and the community. Its focus is on developing and implementing strategies and initiatives in the areas of curriculum, instruction, assessment, professional development, family and community partnerships, and operational support. The Annual Report provides a comprehensive accounting of the school system’s performance on the established milestones and data points of the 2007–2008 strategic plan.

High-performing organizations systematically focus their efforts on achieving meaningful goals that address the vision and mission of the organization. The goals are typically aligned with short- and long-term performance targets that serve to measure progress in achieving the goals. Student and district performance targets were established for selected data points in Goal 1 and Goal 2 that reflect the requirements of national, state, and local accountability mandates and take into consideration reasonable expectations about where MCPS wants to be in 2010 and beyond. Additionally, these targets serve to raise expectations and standards for student achievement and reinforce the commitment to increasing student performance for all students, while closing the gap in achievement by race and ethnicity, as well as for other student groups (e.g., limited English proficient [LEP], Free and Reduced-price Meals System [FARMS], and students receiving any level of special education services).

The targets designate both the percentage of students successfully meeting or exceeding a particular performance expectation and the number of schools that have all students and groups of students performing at or above expectation. For example, one of the system’s targets focuses on the percentage of students enrolled in at least one Honors and/or Advanced Placement (AP) course. The student performance target indicates the percentage of all students and all student groups expected to be enrolled in at least one Honors or AP course. The district target indicates the number of schools having all students and all groups of students at or above the expected rate of enrollment in at least one Honors or AP course.

Student performance and district targets for 2007–2008 pertain to the following data points:

- Meeting benchmark on Grade 2 MCPS Assessment Program (MCPS-AP) in reading
- Successful completion of advanced math by the end of Grade 5
- Proficiency or advanced rates for elementary and middle school students on the mathematics and reading Maryland School Assessment (MSA)
Board Minutes - 25 - December 9, 2008

• Successful completion of Algebra 1 by the end of Grade 8
• Passing rate for middle school Algebra High School Assessment (HSA) test takers
• Successful completion of Algebra 1 by the end of Grade 9
• Successful completion of geometry by the end of Grade 10
• Enrollment in at least one Honors or AP course
• SAT/ACT participation and performance for graduating students
• PSAT participation for Grade 9 and Grade 10 students
• AP and International Baccalaureate exam participation and performance for graduating seniors
• Suspension rates for elementary, middle, and high school students
• Graduation rate

Additional data points in Goals 3, 4, 5 include the following:

• Attendance and evaluation of systemwide workshops and meetings
• Results from feedback cards and online surveys
• Edline activation
• Professional Growth Systems data
• Staff who receive high-quality professional development
• Diversity in the workforce
• Customer, human resources, and organizational results

This report highlights many accomplishments. The coordinated systemic reform efforts are showing results and indications are that the school system is moving in the right direction. However, the report also illuminates areas where work remains to be done. For example, this update shows the need to intensify the system’s focus on ensuring that student performance is not predictable by race.

Bringing about change in a school system this large and diverse is a complex process that requires deliberative, data-driven decision making, collaboration, and real partnerships with parents, employee associations, and the larger community. The results in the 2008 Annual Report on Our Call to Action: Pursuit of Excellence underscore our success in nurturing a culture of continuous improvement that is sustained by effective partnerships, a high-quality workforce, and strong family and community involvement. We remain committed to shared accountability and, through our reform efforts, we expect continued progress toward meeting our overall goals.

Re: DISCUSSION

Ms. Navarro pointed out that the school system has a target of 80 goal for all studies by 2014. Time is of the essence, and resources are limited.

Ms. Berthiaume asked when the middle school reform data will be available, and staff responded that this information comes throughout the year. This report is for last year, but
staff volunteered to provide information on the middle school magnets compared with the first year of the middle school reform. Ms. Berthiaume asked for a comparison of MSA scores with similar districts in Maryland.

Mr. Kauffman asked about student performance targets such as SATs. One of the targets is 1642, and one of the subgroups (African Americans) is performing at 1536. Should the system be picking targets that are achievable? Staff replied that there is a need for Algebra 1 and 2 to hit the target. It is better to hold the bar and not set low expectations for students. Furthermore, this target is important for students to be college/work ready. Finally, all schools have targets for that school as well as the system target.

Mr. Kauffman inquired about the PSAT participation for merit scholarships. Staff stated that MCPS is paying for Grades 10 and 11 this year. He noted that the Annual Report states Grade 10 is used for the scholarships. Staff volunteered to review the data.

Mrs. O’Neill wanted to know about the middle school reform, and she inquired about the budget and this reform. Staff replied that there will be careful and targeted instruction until full funding is available.

Mr. Barclay stated that progress is being made, but how does the system address priorities without funding. He focused on suspensions and the training with teachers to help them stay engaged with students. Staff explained that the same expectations are in place for all students, in addition to clear goals and differentiated approach, teacher quality, and professional developmental on behavior issues. Furthermore, students most be engaged in meaningful instruction.

Ms. Navarro remarked about M-Stat and the connection with suspensions and engagement of students with management of the classroom.

Mr. Kauffman mentioned the milestones of graduates with two data points. Should there be data points on the success of MCPS graduates?

Ms. Brandman pointed out that there is a need to continue to monitor suspension; tease out the critical components based on funding; and collect data points broken down on those students who have reached proficiency on the HSAs.

RESOLUTION NO. 473-08 Re: INAUGURATION DAY

On recommendation of the superintendent and on motion of Mr. Barclay seconded by Dr. Docca, the following resolution was adopted unanimously:

WHEREAS, On January 20, 2009, Senator Barack Obama will be sworn in as the 44th President of the United States, and Senator Joseph Biden will be sworn in as Vice President of the United States; and
WHEREAS, The Board of Education extends best wishes for success to our President-elect in his historic election as the first African American president of our great nation; and

WHEREAS, Montgomery County Public Schools should instill upon our students a keen awareness of the Presidential Inaugural as a key aspect of our democracy and encourage active participation of schools in emphasizing the importance and historical significance of the inauguration; and

WHEREAS, Several jurisdictions in the Washington, DC metropolitan area have declared Inauguration Day a school holiday so that students and staff can fully participate in the Inauguration activities; now therefore be it

Resolved, That January 20, 2009, be designated as a Montgomery County public school system holiday for Inauguration Day, with three contingency days remaining (instead of four) in the 2008–2009 school calendar, and be it further

Resolved, That all future school calendars designate Inauguration Day a school system holiday, with appropriate adjustments made to account for emergencies and legally mandated instructional days.

Re: UPDATE ON THE KENNEDY CLUSTER PROJECT

Dr. Weast invited the following people to the table: Mr. Donald Kress, MCPS project manager; Dr. Heath Morrison, community superintendent for the Kennedy Cluster; Ms. Aara Davis, principal, Georgian Forest Elementary School; and Mr. Gabe Albornoz, director, Montgomery County Department of Recreation.

The Operational Group recently completed a set of recommendations and implementation plans for activities they believe are needed to effectively reduce the achievement gap for students in the Kennedy Project schools. These recommendations were presented to the Project Leadership Group on November 14, 2008, and to the joint Health and Human Services and Education Committees of the County Council on December 4, 2008. Prioritized recommendations follow:

- Priority 1 – Expand Linkages to Learning to all project middle and elementary schools.
- Priority 2 – Provide full-day universal pre-K for all 4-year-olds in the project area.
- Priority 3/4* – Fully operationalize Excel Beyond the Bell in the project middle and elementary schools.
- Priority 3/4* – Collaborate with Health and Human Services Homeless Services to provide housing support for families in the project area.

Other nonprioritized recommendations include the following:
● Develop and implement cultural competency training for county and nonprofit employees providing services within the project area.
● Include project secondary schools in the MCPS PLCI.
● Explore alternative staffing strategies in the project schools.
● Expand the summer meals program.

* The Operational Group was unable to reach consensus as to which of these was of higher priority.

● Allocate a 0.5 parent outreach coordinator position at each project school.
● Conduct additional resource fairs.
● Collocate the Gilchrist and Rocking Horse Road centers.
● Provide refurbished MCPS computers to qualifying families within the project area.
● Heighten focus on the county’s Positive Youth Development Initiative through the existing Kennedy Cluster Community-based Collaborative.
● Evaluate the use of programmed after-school space in the project schools.
● Expand activity bus service within the project area.
● As a component of the Housing First Initiative, collaborate with landlords, property managers, and property management firms to engage in activities that will help them effectively intervene with tenants who are in danger of being evicted.

While some of these recommendations can be implemented at little cost, many—especially the prioritized items—have substantial cost implications at a time when budgets are being cut. The Operational Group realizes this and is in the process of developing long-range time schedules for the implementation of its recommendations. Certainly, these recommendations will be items of discussion in this year's and future years' budget deliberations.

The Operational Group will continue to discuss appropriate ways to collaborate to work toward the goals of the Kennedy Project. Members will establish multiyear timelines for the implementation of their recommendations. They also will be meeting with local businesses and organizations to pursue possible alternative means of funding some of the recommendations. When the MOU is finalized, client-specific information can begin to be shared among multiple agencies and collaboration will begin to provide services for individual students and their families. The group will begin working with nonprofit organizations that are currently providing services to those within the project area, as well as other agencies whose services may be desirable, to include them in project efforts. The Operational Group has recently formed a multiagency committee to design an evaluation for the project. The following evaluation questions are being addressed:

1. Do the efforts of MCPS and county agencies to enhance equitable educational practices and parent engagement as well as health and social services for students in the Kennedy Project schools, contribute to closing the achievement gap between White and African American students?
Hypothesis 1: African American students enrolled in Kennedy Project schools will perform more comparably to White students in Grades 5, 8, and 12 than their counterparts in demographically similar schools.

Hypothesis 2: African American students enrolled in Kennedy Project schools who receive intensive services (as indicated under the MOU) will perform more comparably to White students in Grades 5, 8, and 12 than their counterparts in demographically similar schools.

2. Can we determine which services are most productive in terms of closing the achievement gap between White and African American students?

The Kennedy Project represents a new systemic response to children and families by the Montgomery County Government and MCPS. The tenets of the project recognize that student achievement does not happen only in the schoolhouse, and that closing the achievement gap for African American students will require a commitment of services from multiple agencies. The group is pleased to see the school system and the county agencies that are participating in the Kennedy Project look beyond their individual silos.

Dr. Weast and Board members were impressed with the accomplishments to date as Montgomery County works together at the difficult task of closing the achievement gap.

RESOLUTION NO. 474-08  Re: CLOSED SESSION RESOLUTION

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Mr. Barclay, the following resolution was adopted unanimously:
