Re: **BOARD/SUPERINTENDENT COMMENTS**

Ms. Berthiaume commented that she represented the Board at Rockville’s celebration of Dr. Martin Luther King, Jr’s birthday. She was a reader to the third grade class at Laytonsville Elementary School. Also, she and Mr. Barclay attended the Federal Relations Network (FRN) on Capitol Hill.

Ms. Malik commented that she attended Laytonsville as a reader to the kindergarten class. Also, she attended Montgomery Blair High School’s pre-inauguration celebration with many talented students involved in an impressive show.

Mr. Barclay stated that FRN lobbies through the National School Boards Association (NSBA). They had an opportunity to meet with representatives for Maryland to address adequate funding for education, including the reauthorization of NCLB and the stimulus package. He emphasized that everyone should stay involved in the process to provide a unified voice for clarity of message in order to secure funding on the federal, state, and local levels.
Dr. Docca commented on (1) the students receiving Nordstrom Awards—$10,000 for four years of college; (2) the awards presented from the Skills USA Region 5 Competition; and (3) reading to the third grade class at Laytonsville.

Ms. Navarro stated that she represented the Board at the 60th Anniversary of India at Montgomery Blair High School. She congratulated Paint Branch High School for Advanced Placement results.

Mrs. O’Neill stated that she and Ms. Navarro were at the press conference at Paint Branch, and they were Number 1 in the country for African American students in AP World History. The Asian Education Association held a banquet to raise money for student scholarships in the education field.

Dr. Weast stated that there are 50 states that have been under NCLB to develop tests for graduation. The Board has gone on record to provide education in order to make students college ready at the end of high school by 2014. The only national exam is the AP. He commented that the AP Report to the Nation is such an important study because it gives us a chance to measure how our students are doing compared with their counterparts in Maryland and around the nation. The MCPS Class of 2008 has set records in both participation and performance, the latest results in a nine-year upward trend. The Paint Branch High School Class of 2008 led the nation in the percentage of African American graduates who earned a 3 or higher in the AP World History exam.

Re: BOARD OF EDUCATION DISCUSSION ON THE FY 2010 OPERATING BUDGET

Mrs. O’Neill thanked the public for their participation and communication to the Board. There is no perfect budget within the current economic climate that places stress on the local governments. She thanked the employees’ associations for rebargaining to eliminate the cost-of-living adjustments (COLA) totaling $89 million, allowing for a responsible budget. There are many factors that will take place prior to final adoption in June 2009.

Ms. Navarro remarked that the budget is a challenge because of the current economic crisis. The budget process has been long since it started last summer, including collaboration with the bargaining units. She thanked them for their cooperation in looking at the COLAs amounting to $89 million. There are many issues close to her heart that she wished could be expanded and moved forward. She was optimistic that putting this budget forward will allow the school system to continue educating children with optimum outcomes. However, the economic picture is still very unpredictable. She thanked the residents of Montgomery County for continuing to invest and understand the importance of education for our children.

Dr. Docca was pleased with the level of collaboration of the employees’ unions and the PTAs. There is more transparency on how the budget is formulated and where the money
will be spent. However, the reductions will affect the classroom and teachers. The Board is interested in items that should be considered if money becomes available, such as the middle school magnet program.

Mr. Barclay thanked the superintendent and staff for preparing a very difficult budget during these hard economic times. He associated himself with the comments of his colleagues. The system has uncertain funding levels, significant needs, and concern about maintaining the gains that have been made in student achievement. The system has made amazing gains, and the Board is moving in the right direction. He was concerned about (1) special education, (2) academic intervention, and (3) middle school reform.

Ms. Malik joined her colleagues in their remarks. She thanked the staff for the development of the budget and community for their support. She supported the budget since it retains the results obtained to this point.

Ms. Berthiaume remarked that she will support the budget once it is passed. However, she was disappointed that the Board did not have the benefit of the results of the evaluation of the learning center transition before acting on the budget. The resolution before the Board approves the 2010 Special Education Staffing Plan, as proposed. The Board cannot provide oversight on or input into the plan when it is missing vital information on whether or not one of major moves on how we provide special education services over the past two years has worked for special education students receiving those services. Second, she agreed with the Board’s current approach to the budget without a change, and the county’s recommendation is uncertain every year. For the Board to approve the superintendent’s recommendation in February, the Board is limiting its role to behind-the-scenes advocacy for priorities that may or may not ever receive public exposure. The Board’s inaction now effectively dooms the Middle School Magnet Consortium and the reading and staff development positions. Taking this approach to the budget wastes time and effort by the Board and community. If the Board will not do its job, she stated that she would vote against the budget, but she would support it when it passes.

Mr. Kauffman commended the superintendent and staff for developing a fair budget. The reductions were difficult and many staff will be affected directly. He was prepared to support the budget without changes. He asked if the Board staff would give the Board a legal opinion on whether or not it is possible to revisit the budget recommendation in April, after the state has made decisions on the stimulus. It would be preferable for the Board to make recommendations to the County Council prior to them taking actions.

Ms. Navarro commented on Ms. Berthiaume’s statement. It is the superintendent’s role to understand and evaluate programs based on the strategic plan and there are many factors to take into consideration. Over the past four years, she has made amendments to the budget that were supported by her colleagues. In this instance, it is important to send a budget that is stable enough to move forward with educating students.
Mrs. O’Neill noted that last year she proposed to add a middle school to middle school reform and reduce playground equipment. This amendment passed, but in the end the Council did not fund that amendment. This is a long up-front and in-depth process with many points for input from the Board.

RESOLUTION NO. 32-09 Re: FY 2010 OPERATING BUDGET ADOPTION

On recommendation of the superintendent and on motion of Mr. Barclay seconded by Ms. Navarro, the following resolution was adopted with Mr. Barclay, Dr. Docca, Mr. Kauffman, Ms. Malik, Mrs. Navarro, and Mrs. O’Neill voting in the affirmative; Ms. Berthiaume voting in the negative; Ms. Brandman was absent:

WHEREAS, The superintendent of schools presented the Recommended FY 2010 Operating Budget of $2,106,919,276 to the Board of Education on December 11, 2008; and

WHEREAS, The Recommended FY 2010 Operating Budget includes the FY 2010 Special Education Staffing Plan; and

WHEREAS, Increases of state aid for Montgomery County Public Schools as recommended in the governor’s budget on January 21, 2009, total $23,740,560; and

WHEREAS, Possible increases in federal aid from the economic stimulus package under consideration by the United States Congress are uncertain at this time; and

WHEREAS, It is necessary to protect our employees as much as possible from reductions in future years to employee benefit programs, which can be done by using the additional state funds for expenditures in benefit programs that will require significant budget increases in FY 2011, including the Retiree Health Trust Fund, Other Post-Employment Benefits, the Employee Benefit Plan internal service fund, and retirement fund; and

WHEREAS, Because of the serious economic situation in the county, the state, and the nation, it is possible that MCPS may not receive all of the additional $44 million of state aid now projected; and

WHEREAS, Additional state and federal revenue for FY 2010 may make it possible to revisit these budget decisions later in the spring; now therefore be it

Resolved, That the Board of Education approve the FY 2010 Special Education Staffing Plan as outlined in the Superintendent’s Recommended FY 2010 Operating Budget; and be it further

Resolved, That upon final approval of the FY 2010 Operating Budget in June 2009, the Special Education Staffing Plan will be submitted to the Maryland State Department of Education; and be it further
Resolved, That the Board of Education adopt the Superintendent’s Recommended FY 2010 Operating Budget totaling $2,130,659,836, as follows:

Re: UPDATE ON IMPLEMENTATION OF THE BRIDGE PLAN/HIGH SCHOOL ASSESSMENTS

Dr. Weast invited the following people to the table: Mrs. Jody Leleck, chief academic officer; Mr. Stephen L. Bedford, chief school performance officer, Office of School Performance; Mrs. Chrisandra A. Richardson, director, Academic Support Initiatives, Office of School Performance; Mrs. Carole C. Goodman, principal, James Hubert Blake High School; and Ms. Ruschelle Reuben, assistant principal, Northwood High School.

Since the Maryland State Department of Education (MSDE) first instituted the High School Assessments (HSA) as a graduation requirement in 2001, MSDE has made numerous changes in the rules, processes, and format of the exams. As students in the Class of 2009 are the first to be required to pass all four exams in order to earn a Maryland diploma, these modifications have had a significant impact on students and staff and have had cost implications for the school system.

Montgomery County Public Schools (MCPS) staff members have developed resources and implemented procedures to support student success on the HSAs. In addition to enrollment in rigorous courses, all students in the Class of 2009 and beyond have the opportunity to prepare for the assessments by participating in intervention and remediation sessions before and after school and during High School Plus (HS+). MCPS developed the HSA Workshop Preparation course with related instructional materials that is offered during the school day and in HS+. Additionally, an annotated practice tool for all four HSAs, HSA Prep Online, was created for in-school and home use. MCPS staff will continue to support students in meeting the graduation requirements.

The Bridge Plan for Academic Validation (Bridge Plan) option did not become available until the senior year for students in the Class of 2009. Many students need to complete multiple projects in one or more content areas, while simultaneously fulfilling other graduation requirements.

** Mr. Barclay rejoined the meeting at this point.
Mrs. O'Neill commented that the time had finally come that students were required to pass the HSA for graduation. She wanted to know if the state would help fund the Bridge Plans. Staff replied that there was no funding from the state to develop or administer the Bridge Plans. Mrs. O'Neill appreciated the work of school principals to ensure that students graduate.

Dr. Docca noted that this was an incredible project, and the state had no clue about the amount of work involved in the Bridge Plan. Staff explained that work was done on planning time and the resource teachers are working above and beyond their roles. Ms. Leleck stated that the Bridge Plan could be done in a system with two to four high schools, but MCPS has 25 high schools and the scale is overwhelming and very different from other systems. Mr. Bedford added that English language learners (ELLs) present a challenge to this mandate.

Mr. Kauffman asked about the current thinking on scheduling. Is it better to schedule the courses in 9th and 10th grade or wait until 11th and 12th grade? Mr. Bedford replied that courses are taken traditionally, but biology is variable based on education philosophy. A principal stated that more science before biology produces a strong pass rate.

Mr. Kauffman noted that there may be students who satisfy graduation requirements but do not pass HSA or Bridge Plans. What is their future? Mr. Bedford stated that any student who does not finish graduation requirements prior to June has options, such as summer school or return to school in the fall.

Ms. Malik was interested in a compilation of students with a potential of not graduating in June. Staff stated that all high schools are reviewing students for graduation and the identifying the graduation needs for each student. Ms. Malik asked who decides on the Bridge Plan or waiver. Staff replied that the best thing for students is to master the content of the course. They only look at the option of a waiver in special circumstances.

** Ms. Berthiaume left the meeting at this point.

Mr. Barclay stated that the family plays an essential role in communicating the timelines for passing HSAs. He asked if there were lessons learned from this year’s experience? Staff replied that there are parent meetings, the Bridge Plan, and they have parents sign a contract. The parents and students know that this applies to their graduation. After a Bridge Plan has been scored, a letter goes to the parents explaining where the student is in terms of graduation, including tests needed and the scores.

Mr. Barclay commented on the impact on ELL students and their families. Staff commented that ELL students took English in summer school and then take the HSA.
Also, information for parents of seniors to make them aware of the process is available in different languages on the MCPS website.

Ms. Navarro and Mr. Barclay requested that staff review data after the Bridge projects are completed, to determine lessons learned regarding graduation rates based on poverty, mobility, and unfunded mandates from the state. Also, staff could determine if there are gaps in the middle school years that lead to difficulties in passing the HSAs.

RESOLUTION NO. 48-09 Re: ITEM OF LEGISLATION

On recommendation of the superintendent and on motion of Mr. Barclay seconded by Ms. Navarro, the following resolution was adopted unanimously by members present:

Resolved, That the Board of Education supports SB 285 – State School Construction Payments – Remittance of Reimbursement to County, which would require the state, when the state provides reimbursement of forward-funded public school construction or public school capital improvement projects, to remit the funds to the county government and not to the county Board.
