RESOLUTION NO. 224-13  Re:  PUPIL PERSONNEL WORKER WEEK

On recommendation of the superintendent and on motion of Mrs. O'Neill seconded by Ms. Brandman, the following resolution was adopted unanimously:

WHEREAS, The Honorable Martin J. O'Malley, governor of the state of Maryland, introduced a proclamation acknowledging May 5–11, 2013, as Pupil Personnel Worker Week to recognize pupil personnel workers for outstanding service to our children, families, and schools; and

WHEREAS, The Maryland Association of Pupil Personnel encourages all Maryland school systems to recognize the work pupil personnel workers do to promote students' academic and personal success; and

WHEREAS, All children and youth learn best when they are healthy, supported, attend school regularly, and receive an education that meets their individual needs; and

WHEREAS, Pupil personnel workers are trained as liaisons, advocates, and consultants to assess school and community resources, conduct home visits, and implement attendance and behavioral interventions to help eliminate barriers to learning and allow teachers to teach more effectively; and

WHEREAS, Pupil personnel workers facilitate collaboration that helps parents and educators identify and reduce risk factors, promote protective factors, create safe schools, and access community resources; and
WHEREAS, It is appropriate that Montgomery County Public Schools recognizes the vital role pupil personnel workers play in the individual and academic development of its students; now therefore be it

Resolved, That the Board of Education hereby proclaims May 5–11, 2013, as Pupil Personnel Worker Week in Montgomery County Public Schools.

Re:  BOARD/SUPERINTENDENT COMMENTS

Mr. Mannes commented that he attended (1) the rededication of Jackson Road Elementary School; (2) MCCPTA’s principals’ and presidents’ dinner; (3) the Seven Locks Elementary School’s dedication; and (4) the Distinguished Service Awards.

Mrs. Smondrowski reported that she attended the following: (1) Performing Awards Gala; (2) Thomas S. Edison School of Technology graduation and awards; (3) NAACP
Freedom Fund Dinner; (4) MCCPTA’s principals’ and presidents’ dinner and special education awards; and (5) Lakelands Park Middle School’s play, and (6) read aloud at Goshen Elementary School.

Mr. Durso commented that there are many culminating activities at this time of year. He attended many of the same events that had already been mentioned by his colleagues.

Dr. Docca had attended the (1) MCCPTA special education awards, (2) Distinguished Service Awards, and (3) the opera at Stedwick Elementary School.

Mrs. O’Neill agreed with her colleagues, and she attended the 50th anniversary of Thomas W. Pyle Middle School.

Mr. Barclay associated himself with the remarks of his colleagues. He attended scholarship awards from the Black School Educators, and the Every 15-minutes Program at Magruder.

Dr. Starr commented on the following: “America’s Best High Schools,” Teacher Appreciation Week, Presidential Scholars and Gates Millennium Scholars, Champions for Children, and the Superintendent’s Book Club.

Dr. Starr gave an INNOVATION SCHOOLS update on the selection of ten Innovation Schools for the 2013–2014 school year. The ten Innovation Schools will receive intense support in designing and implementing innovative school improvement and professional learning plans to accelerate the closing of achievement gaps. This on-the-ground support will be provided by the Chief School Improvement Officer (CSIO), based in the Office of School Support and Improvement (OSSI), in partnership with the Interventions Supervisor (IS), located in the Office of Teaching, Learning, and Programs (OTLP). The CSIO will focus on providing support to these 10 schools in whole-school improvement processes while the IS will work with these schools in holistically and systemically addressing the needs of specific groups of students who are in need of additional supports. Through the implementation of these complementary supports, we will work to accelerate the closing of the achievement gap in the Innovation Schools. It also is expected that practices implemented in Innovation Schools will inform school improvement and interventions work in schools across the system in future years where appropriate.

Schools were prioritized in the selection process based on the school leader’s readiness and desire to initiate the difficult work of improvement and to accelerate closing student achievement gaps. Innovation Schools are, in many ways, already "on the cusp" of making great strides in improvement for all learners. We will support these schools and school leaders in achieving their next level of work by first getting to know our schools well so that we can serve them well. Innovative school improvement processes, designed and implemented in partnership with the CSIO, IS, and members of the Innovation School network who will engage in ongoing learning together, will serve as our basis for the collective work of
improvement.

Through the described selection processes, the following schools have been identified as Innovation Schools for the 2013–2014 school year:

Each school principal has been contacted by representatives of OSSI and OTLP to inform them of their selection as an Innovation School. We have subsequently met with each principal to discuss supports that will be provided to the Innovation Schools during the coming year. Following the announcement of each school’s selection as an Innovation School, we will initiate a needs-assessment process at each school site, with the school principal serving as a key communicator of the school’s existing strengths and needs. The needs assessment process will lead to the design of a customized plan of support for each innovation school.

The CSIO will serve as a case manager for each school and will work closely with the designated associate superintendent, as well as Executive Staff members across central office, to secure needed supports to accelerate school progress.

The Board received an update from Dr. Starr and engaged in a discussion on how the district will look into high final exam failure rates in high school, especially in MATHEMATICS. Dr. Starr emphasized that final exam performance is only one data point and must be considered in context. Overall, he said, students in MCPS perform well in mathematics, but it is important to address concerns about exams and offer support to students who have gaps in their mathematics knowledge. A group of MCPS administrators and teachers will convene to determine how the district can best support students who are not doing well on the exams. The work of this group should be completed before the beginning of next school year. Dr. Starr will also bring together a
A multi-stakeholder group, including parents and students, to provide ongoing feedback and input on systemic issues in mathematics education in MCPS.

Mr. Kauffman asked for information comparing math grades with other courses such as English and biology. Also, Mr. Kauffman wanted to know whether the students are prepared by mastering the fundamentals in earlier grades. Ms. Brandman asked about the high school students’ strength in math based on the courses they completed in middle school.

Re: ENVIRONMENTAL SUSTAINABILITY REPORT UPDATE

Dr. Starr invited the following people to the table: Mr. James Song, director, Department of Facilities Management; Mr. Sean J. Gallagher, assistant director, Department of Facilities Management; and Ms. Hillary H. Kirchman, program manager, School Energy and Recycling Team, Department of Facilities Management.

The Board of Education has a long-standing commitment to energy conservation and responsible environmental stewardship. The discussion reflected this commitment that dates back to the 1970s when the first energy policy was adopted and the first energy program took shape in Montgomery County Public Schools (MCPS). As the energy program evolved in the decades that followed, MCPS now has become a recognized leader in several areas of sustainability and environmental stewardship. On April 22, 2013, the U.S. Department of Education recognized Cedar Grove and Summit Hall elementary schools with National Green Ribbon School Awards and recognized MCPS with the National Green Ribbon District Sustainability Award. These awards are a result of the collaboration of many offices and departments aligning successful programs that incorporate sustainable best practices.

This presentation provided an update on the successes and efforts of each office and department to incorporate embedded, sustainable practices. Among the highlights of
the many MCPS sustainable programs and initiatives are:

- Education and Awareness
- Resource Conservation/Utilities
- Solid Waste and Recycling
- Construction and Land Use
- Transportation
- Technology

Many governmental and private organizations have been interested in MCPS' environmental sustainable efforts and programs. A number of mandates and requirements relating to energy efficiency and sustainable practices have been adopted at the county, state, and federal levels. The focus is to continually lead the way by developing and implementing sustainable best practices in every facet of school system.

MCPS has continued to build on an excellent foundation of energy and environmentally responsible programs. This is the basis of the environmental sustainability management plan that is being developed into an organizational framework for future sustainability.

Re: DISCUSSION

Mr. Barclay pointed out that the Board supports and promotes the development of edible and perennial gardens. He asked staff to make sure that the public is aware of this initiative and guide them to the website.

Ms. Brandman asked about the options for continuing the use of solar panels. Mr. Song stated that recent legislation on stormwater encourage green roofs. Sun exposure is also a consideration; therefore, it is a balance on the best option for a roof.

Ms. Brandman inquired about the greatest impact on recycling efforts. Staff replied that the effort in schools is to reduce the number of copies. Also, Copy Plus is a service that reduces paper and copier maintenance.

Mrs. Smondrowski asked if LED lighting was standard for all new construction. Staff replied that they are studying the cost and efficiency of the lighting since it may not be appropriate in all situations.

Mr. Barclay asked what the options were in using polystyrene trays. Staff explained that they are exploring several options from various school districts throughout the country. Furthermore, schools have initiated various pilots to reduce the use of polystyrene trays.

Mrs. O'Neill thanked staff for the presentation, and she commented that the school system has made great strides in environmental stability.
Re: **MONTHLY FINANCIAL REPORT**

Mr. Larry Bowers, chief operating officer, explained that the financial report reflects the actual financial condition of Montgomery County Public Schools (MCPS) as of March 31, 2013, and projections through June 30, 2013, based on program requirements and estimates made by primary and secondary account managers. At this time, revenues have a projected surplus of $2.7 million, and expenses have a projected surplus of $16.4 million.

Due to Fiscal Year (FY) 2011 comprehensive expenditure restrictions, MCPS ended the year with an expenditure surplus. The FY 2012 Operating Budget included a fund balance of $17.0 million of the total savings as a source of appropriation, leaving a fund balance of $11.9 million. This balance, together with the FY 2012 expenditure and revenue surplus of $28.6 million, equals $40.5 million that will be available to fund future operating budgets. The County Council used $17.0 million of the fund balance as a source of revenue for the FY 2013 Operating Budget, leaving an available balance of $23.5 million. Based on the revenue and expenditure projections as of March 31, 2013, the FY 2013 fund balance will be $42.6 million at year end. My expectation is that the available fund balance will be used for appropriation over several years to avoid any sudden increase in the need for local contribution to replace fund balance as a revenue source.

Re: **CHANGES IN COMAR REQUIREMENTS FOR CURRICULUM ADVISORIES**

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Dr. Docca, the following resolution was placed on the table:

WHEREAS, In 1970, the Montgomery County Board of Education convened a Citizens Advisory Committee on Family Life and Human Development, to advise on Comprehensive Health Education in the district; and

WHEREAS, Many community members have shown dedication and commitment spanning 43 years as they served as members of the Citizens Advisory Committee on Family Life and Human Development on behalf of students in the district; and

WHEREAS, The Maryland State Board of Education has changed requirements for local review of Comprehensive Health Education; and

WHEREAS, The Montgomery County Board of Education approved Policy IFA, *Curriculum*, and Policy IIB, *Evaluation and Selection*; and

WHEREAS, The superintendent of schools has developed regulations IFA-RA, *Curriculum*, and IIB-RA, *Evaluation and Selection of Instructional Materials and Library Books*; and
WHEREAS, All content area teams engage parents, community members and educators in review of curriculum, instruction, and assessment resources and all content area teams engage educators in evaluation and selection of instructional materials in accordance with district policies and regulations; now therefore be it

Resolved, That the Montgomery County Board of Education dissolves the Board-appointed Citizens Advisory Committee on Family Life and Human Development; and be it further

Resolved, That the superintendent of schools directs the Health Education team to convene a Curriculum Advisory Committee comprising community members and educators, as articulated in Regulation IFA-RA, Curriculum; and be it further

Resolved, That the superintendent of schools directs staff to notify members of the 2013–2014 Citizens Advisory Committee on Family Life and Human Development about the decision and to express Board members' appreciation for their service.

RESOLUTION NO. 247-13 Re: AN AMENDMENT TO THE CHANGES IN COMAR REQUIREMENTS FOR CURRICULUM ADVISORIES

On motion of Mrs. O'Neill and seconded by Mr. Barclay, the following amendment was adopted unanimously by members present:

WHEREAS, Board of Education Policy IFA, Curriculum, calls for a systematic and ongoing program of curriculum review and development, and requires that each subject's curriculum will be reviewed on a cycle every five years; and

WHEREAS, When the Grade 8 and Grade 10 Health Education Curriculum was last revised and adopted on June 12, 2007, there was a requirement that teachers follow a scripted lesson; and

WHEREAS, On September 13, 2011, the Citizens Advisory Committee on Family Life and Human Development issued several recommendations in their annual report including continued support to revise the curriculum (see attached); now therefore be it

Resolved, That the superintendent and his staff perform a comprehensive review of the Grade 8 and Grade 10 Health Education curriculum, benchmarking with other districts, reconsider the requirement for the scripted lessons and the recommendations from Citizens Advisory Committee on Family Life and Human Development report, and bring to the Board of Education proposed changes so that they may be in place no later than Fall 2014.
