Re: STRATEGIC PLANNING FRAMEWORK

Dr. Starr invited the following people to the table: Dr. Donna S. Hollingshead, community superintendent, Office of School Support and Improvement; Mrs. Kathleen C. Lazor, director, Department of Materials Management; and Dr. Susan F. Marks, former acting associate superintendent, Office of Shared Accountability.

Dr. Starr presented the revised Montgomery County Public Schools (MCPS) strategic planning framework—Building Our Future Together: Students, Staff, and Community. During the past 18 months, senior staff members have utilized feedback and input from a vast array of stakeholders to orient the work of the school system to better serve and support principals and schools in their focus to improve teaching and learning. To
complement this work, the strategic planning framework articulates what students need to know and be able to do in the competency areas of Academic Excellence, Creative Problem Solving, and Social Emotional Learning as well as the roles and responsibilities of students, staff members, parents, and the community to ensure that all students have the college and career readiness skills to thrive in the 21st century. A fourth and critical component to our strategic planning framework, Organizational Effectiveness, provides the foundation for the system’s work by delineating the operational and human resources needed to efficiently and effectively prepare all students for their future.

The Montgomery County Board of Education (Board) engaged in an extensive process to develop the guiding tenets for the strategic planning framework. On April 23, 2013, subsequent to stakeholder meetings and community forums, the Board adopted the draft core purpose, vision, mission, and core values that inspired and shaped the development of the strategic planning framework.

Beginning in March 2012, Dr. Starr initiated a year-long process to review and revise the district’s strategic plan, Our Call to Action: Pursuit of Excellence. Based on research and our current understanding of what the future will demand of our students, the plan incorporates the three competencies linked to 21st century success: Academic Excellence, Creative Problem Solving, and Social Emotional Learning. Additionally, as we heard from our stakeholders, we understood that the framework needed to be concise, easily accessible, and compact.

**Structure and Process for Development of the Framework**

*Development of Core Values*

Throughout last summer and fall 2012, under the direction of the Board’s Strategic Planning Committee, the full Board engaged in an intensive process to draft new core values. These core values—Learning, Relationships, Respect, Excellence, and Equity—drove our work to identify the knowledge and skills students need to be college and career ready in the 21st century. Critical to the Board is its unwavering commitment that student achievement will not be predictable by race, ethnicity, gender, socioeconomic status, language proficiency, or disability. The core values adopted by the Board in April 2013 embrace this deeply held belief.

*Creation of Network Teams*

Building on the Listen and Learn events held during my first year and community forums held during the past two years, Dr. Starr believed that the stakeholders—students, staff members, parents, and community representatives—have a great deal to say about what they want for the future of MCPS. To ensure that their voices were incorporated into the document from the onset, MCPS solicited volunteers to participate in Strategic Planning Network Teams. We received 148 applications and 60 representatives were selected to be members of one of the three network teams—Academic Excellence, Creative Problem Solving, and Social Emotional Learning. The range of applicants mirrored the diversity of our county with representatives from higher education, health and mental health services, county advocacy groups, community organizations, government agencies, and the
Coordination by Internal Stakeholders
Internally, the deputy superintendents, chief operating officer, and an internal strategic planning work group seamlessly organized, managed, and coordinated all efforts to develop the framework. Input and feedback were solicited from the Board's Strategic Planning Committee and the Executive Leadership Team at regularly scheduled update meetings. Additionally, the internal strategic planning work group held focus groups with a variety of stakeholders to obtain feedback on the draft knowledge and skills statements in the three competency areas (Attachment 3).

Components of the Strategic Planning Framework
The strategic planning framework is grounded in the principles developed by the Board. The Board's core values—Learning, Relationships, Respect, Excellence, and Equity—provide clarity on the role of staff members, parents, and the community in the work of the district. The competency areas of Academic Excellence, Creative Problem Solving, and Social Emotional Learning, along with the foundation of organizational effectiveness, provide the armature of our framework.

Academic Excellence
A strong academic program has long been the hallmark of MCPS. The strategic planning framework builds on this history, ensuring that all students have the knowledge and skills to thrive in the 21st century. Aligned with the Common Core State Standards (CCSS), curriculum across a wide range of subject areas will be robust and relevant to the real world. With MCPS students fully prepared for their futures, our communities will be best positioned to thrive in a complex and competitive global society. Academic excellence will be measured at five key milestones in Grades 3, 5, 8, and 9, as well as by college and career readiness upon graduation.

Creative Problem Solving
Preparing students for success in the 21st century means that we will be educating our students to become citizens of a global society. They will need to work collaboratively to solve complex problems, generate novel ideas, and find creative solutions, even with scarce resources. They will need to consider the thoughts and ideas of others and be open to having their thinking change based on new evidence or information. Communicating in a variety of ways, explaining one’s thinking, and knowing many ways to answer a question will be critical to our students’ success. Their ability to question facts and claims, check the reliability of information, and see problems as opportunities to solve difficulties in novel ways will position our students for success in their future.

Social Emotional Learning
The challenge of raising knowledgeable, capable, caring, and responsible children is widely recognized. When school systems intentionally create and support environments that foster students’ social and emotional skills, academic achievement increases,
positive social interactions increase, and the quality of relationships among students and teachers improves.

Social emotional learning is the process through which we learn to recognize and manage emotions, care about others, make good decisions, behave ethically and responsibly, develop positive relationships, and avoid negative behaviors. Our students’ futures will demand that they value diversity and respect differences. As global citizens they will need to enhance their ability to integrate thinking, feeling, and behaving to achieve success in a complex world.

Organizational Effectiveness

Successfully managing and operating a school system of more than 202 schools, 149,000 students, and 22,000 employees requires a comprehensive infrastructure of supporting business services. These services are provided by a team of employees who work behind the scenes to ensure that principals, school staff members, and students have the resources, materials, services, technology, and facilities they need for successful teaching and learning. MCPS hires for excellence and equity and strives to build the capacity of all employees in a self-renewing learning community that reflects our core values. Strategic processes are in place that are reflective of engagement with our business partners and the community to support the success of all students.

Student Knowledge and Skills Statements
Over the course of several months, the Strategic Planning Network Teams generated recommendations for the knowledge and skills students should have in each of the three competency areas. Additional input was obtained at a community forum held this spring. Finally, feedback on the knowledge and skills statements generated by the Network Teams was solicited from a broad range of stakeholders, including principals and central services administrators, the Montgomery County Education Association Councils on Teaching and Learning, students, and parents.

Adult Actions and Community Role
A new and critical component of the strategic planning framework is the articulation of expectations for adult actions and the role of the community in supporting our students’ success. Members of the Network Teams discussed these expectations and generated recommendations. As we engage the greater community as true partners in educating our county’s youth, the framework allows all stakeholders to see their role in Building Our Future Together.

Measuring Our Success
The measures outlined in the strategic planning framework provide significant milestones that will allow us to monitor our progress as we strive to prepare all students to be college and career ready. While these milestones begin in Grade 3, we are well aware that early childhood success in kindergarten through Grade 2 continues to be a critical component to closing the achievement gap. It is expected that schools will review and monitor local formative and summative assessments beginning in kindergarten. We will continue to monitor our achievement by racial/ethnic groups, as well as by gender, and special
services. All schools will be accountable for meeting the milestones, as well as reducing the achievement gap.

Additionally, the Gallup Student Engagement Surveys will provide school level data that will indicate the hope, engagement, and well-being of our students, thereby giving us insights into the social emotional learning competency. Understanding how our students are solving problems and thinking critically is indicated by achievement results on measures such as SAT/ACT and performance on Advanced Placement and International Baccalaureate exams. At the elementary school level, the implementation of Curriculum 2.0 will continue to provide us with assessment of thinking and academic success skills that reflect creative problem solving. In the future, we envision that students will graduate having completed a capstone or culminating project that highlights the knowledge and skills they have learned as MCPS students.

Organizational effectiveness will continue to be assessed through performance measures in customer service, human resources, financial results, and employee engagement. Additionally, each office and department will review how its work contributes to our focus on teaching and learning, as well as organizational excellence.

The milestones in the strategic planning framework will enable school and central services staff to monitor student outcomes as we plan for school and district improvement. It should be noted that implementation of the new Partnership for Assessment of Readiness for College and Careers (PARCC) aligned with the CCSS, scheduled for implementation in 2015, will require that we recalibrate our baseline data; therefore, if PARCC is implemented according to its current schedule, our baseline data and targets will require recalibration in 2015–2016.

**Rollout of the Strategic Planning Framework**

*Building Our Future Together* will be rolled out during the 2013–2014 school year. It will guide our work as we transition to curriculum and instructional changes aligned to the CCSS and educational practices that support the three competencies—Academic Excellence, Creative Problem Solving, and Social Emotional Learning. During the upcoming school year, schools and offices will be aligning their strategic plans to the strategic planning framework.

**Strategies to Know and Support School Improvement**

At the school level, the School Support and Improvement Framework (SSIF) is the primary tool we will use to understand and know the strengths and needs of all our schools so we may serve them well. Additionally, the selection of the Innovation Schools and the implementation of the Intervention Network will enhance how we monitor and share successful practices to support all students and to close the achievement gap. Each school will align its improvement strategies to the three competency areas based on its performance as measured by the milestones and the school’s holistic environmental scan driven by SSIF. Schools and offices will augment existing professional learning to focus on school improvement.
Budget Review Process

Most importantly, the new multiyear budget process will ensure alignment of resources and support for schools based on *Building Our Future Together*, the strategic planning framework. The operating budget will emphasize the implementation of CCSS, elimination of the achievement gap, and ensuring college and career readiness for all MCPS graduates. We will take this opportunity to review with our school-based and central services staff members and parent representatives how resources currently are allocated and request their input on recommendations for changes or realignment of these resources.

Community Partnerships

MCPS is fortunate to have the support of a community that takes pride in the quality of its public education. Together, parents, businesses, civic and county agencies, along with higher education representatives are coalescing to ensure that all children have the opportunities and resources to succeed in the 21st century. We want our parents and community partners to be actively involved in supporting schools, advocating for resources, creating opportunities for experiential learning, and supporting the core values of the strategic plan.

The Board and the community will receive regular updates throughout the school year on the milestones articulated in the strategic planning framework. *Building Our Future Together* will drive the yearly reporting via our Annual Report beginning with the 2013–2014 school year.

*Building Our Future Together* is the vehicle through which we will foster a culture of learning, relationships, respect, excellence, and equity where student achievement is not predictable by race, ethnicity, gender, socioeconomic status, language proficiency, or disability.

**Re: DISCUSSION**

Mr. Barclay remarked that a tremendous amount of work had been done on the Strategic Planning Framework. There are new things to review, such as hope, engagement, and well-being. How will that be measured and reviewed? Staff explained that the Gallup surveys reflect the students’ perceptions and those measurements of well-being will be incorporated to develop those skills.

Mrs. O’Neill reflected that the Board had a retreat on the framework, and the Board had been working for a year on the guiding tenets for the strategic plan. In any process, there is a lot of input and compromise. Not every item is spelled out in this document and that is the challenge in this framework. A framework needs to be flexible and nimble to react to changing times.

Mr. Mannes noted that this is an on-going process and there will be changes on a day-to-day basis in terms of curriculum and interventions. How does the school system measure
social emotional growth? Staff stated that there will be measurements around all three competencies since they are interrelated.

Mr. Kauffman asked about the target setting and the process used. When will the Board see those systemwide targets? Dr. Starr replied that the work is ongoing and the Board will receive information on the target setting process shortly by memorandum.

** Mrs. Smondrowski left the meeting at this point.

Mr. Kauffman asked about the target of Algebra I with a grade of C or better in 8th grade. What is the evidence or research that a student will be successful in high school math courses? Dr. Starr stated that MCPS has a longstanding commitment to Algebra I in Grade 8. Curriculum 2.0 and the Seven Keys have a C or better which has been back mapped from college students’ experiences. In the future, this will be assessed when PARCC is used.

Mr. Kauffman remarked that the gifted community are concerned that there are no measures for advanced students. Staff replied that the needs of all students will be addressed. They were intentional about not specifying all strategies and groups. All students will be monitored through milestones.

Mr. Durso noted that the Strategic Planning Framework has been researched and debated. Last summer, the Board started with core values and guiding tenets. He thought this document presents a nice balance between educational philosophy and specifics.

Ms. Brandman reiterated some of the Board’s feedback from the retreat to review the strategic framework. Specifically, she noted that the framework assigned responsibility for action and outcomes creating appropriate accountability and highlighting the need for MCPS capacity. She noted that the framework is reflective of the core values which also outline specific behaviors expected of staff and students. This is the beginning of a process and the continuation of building on partnerships with the community. There are challenges in the targets and assessment as standards are shifted to Curriculum 2.0 and PARCC. Ms. Brandman noted that the framework needs to be used to align all resources including work at the school level. She also stressed that the core values and framework need to guide work at the Board level with respect to decision-making around funding and policies.

RESOLUTION NO. 337-13 Re: STRATEGIC PLANNING FRAMEWORK

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Mr. Kauffman, the following resolution was adopted unanimously by members present:

Resolved, That the Board of Education approve the Strategic Planning Framework.

RESOLUTION NO. 338-13 Re: RECOGNITION OF VIETNAMESE
SCHOLARS

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Mr. Kauffman, the following resolution was adopted unanimously by members present:

WHEREAS, The Association of Vietnamese Americans awarded $1,000 scholarships to two Montgomery County Public Schools students for academic excellence, commitment to community service, passion for learning, and a desire to help others at its Twenty-fifth Annual Academic Awards Ceremony held on Sunday, June 9, 2013; and

WHEREAS, The goal of the Association of Vietnamese Americans academic awards and scholarships is to assist Vietnamese American students who excel academically and have a strong determination to receive a higher education; and

WHEREAS, Montgomery County celebrates the many accomplishments of Vietnamese American students to our country, our state, and our county; and

WHEREAS, The Montgomery County Board of Education applauds that Montgomery County Public Schools continues to recognize the academic achievements of Vietnamese American students; now therefore be it

Resolved, That on behalf of the superintendent of schools, staff members, students, and parents of Montgomery County Public Schools, the members of the Montgomery County Board of Education congratulate the recipients of the 2013 Association of Vietnamese Americans academic awards and scholarships:

Kevin Pham from Sherwood High School
Michelle Nguyen from James Hubert Blake High School

Re: BOARD/SUPERINTENDENT COMMENTS

Mr. Mannes noted favorably the contributions students had made to the strategic plan framework including serving on the Network Teams. He commented on the numerous ways students participate including on and Bell Times Task Force, among other things. He congratulated Justin Kim as the next SMOB. He commented on the fact that serving as SMOB has been a phenomenal experience.

Ms. Brandman noted that this was Mr. Mannes’ last Board meeting and thanked him for his excellent service. At the end of the school year, there are many ceremonies and congratulations and Ms. Brandman noted specifically kudos to MCPS students for their outstanding contributions through Student Service Learning hours. She pointed out that a total of 76,000 secondary students cumulatively contributed over 5 million hours of service as a result of this graduation requirement. In their tenure, the Class of 2013 contributed well over one million hours.
Dr. Docca congratulated the Leadership Montgomery participants in learning about the county.

Mr. Barclay associated himself with the remarks of his colleagues. He also commented on the Board’s retreat and the MCAAP retreat. Since he would be unable to attend the July 1 swearing-in ceremony, he took the opportunity to congratulate both Mr. Mannes and Mr. Kim.

Dr. Starr commented on the Best STEAM Schools; the MCPS summer food service program which helps to bring food to hungry youth throughout the summer in a joint partnership between MCPS, the County under the leadership of Valerie Ervin and several non-profit partners; MCPS Give BACKpacks; and the National School Public Relations Association Awards.

RESOLUTION NO. 339-13 Re: CONTRACT APPROVALS FOR COMPUTERS, ASSOCIATED HARDWARE, AND SERVICES

On recommendation of the superintendent and on motion of Mrs. O’Neill seconded by Ms. Brandman, the following resolution was adopted unanimously by members present:

WHEREAS, Funds have been budgeted for the purchase of computers, associated hardware, and services; and

WHEREAS, The legal sufficiency of this resolution for acquisition of computers, associated hardware, and services has been reviewed and approved by legal counsel; and

WHEREAS, On November 13, 2012, the Montgomery County Board of Education approved the $200,000 contribution from the Thomas S. Wootton High School Booster Club and the $900,000 contribution from the Bethesda Soccer Club, in accordance with Policy CNE, Facility Improvements That Are Not Funded With Montgomery County Revenues, for the artificial turf installation on the stadium field at Thomas S. Wootton High School; and

WHEREAS, On February 5, 2013, the Montgomery County Council approved a supplemental appropriation for the sum of $1.1 million in contribution funds; and

WHEREAS, Montgomery County Public Schools is a member of The Keystone Purchasing Network, part of the Association of Educational Purchasing Agencies, which maintains a bid with FieldTurf USA Inc. for the installation of artificial turf fields; and

WHEREAS, Staff in the Department of Facilities Management solicited a proposal from FieldTurf USA, Inc. based on the Association of Educational Purchasing Agencies bid; and

WHEREAS, FieldTurf USA, Inc. submitted a proposal in the amount of $1,305,178 for the installation of artificial turf and associated site work at Thomas S. Wootton High School; and

WHEREAS, Staff in the Department of Facilities Management has reviewed the proposal and finds the cost reasonable for the scope of work; and
WHEREAS, The proposed cost exceeds the $1.1 million contribution amount by $205,178. The November 13, 2012, Board action states that if the project exceeds the $1.1 million contribution amount, the shortfall can be paid through funds collected for community use and the savings accumulated each year from not having to maintain the current grass field; and

WHEREAS, FieldTurf USA, Inc. has completed similar work successfully for Montgomery County Public Schools; now therefore be it

Resolved, That a contract in the amount of $1,305,178 be awarded to FieldTurf USA, Inc. for the artificial turf installation at Thomas S. Wootton High School stadium field, contingent upon receipt of the contributions from the Thomas S. Wootton High School Booster Club and the Bethesda Soccer Club.

RESOLUTION NO. 357-13  Re:  FUTURE CLOSED SESSION RESOLUTION

On recommendation of the superintendent and on motion of Mr. Kauffman seconded by Ms. Brandman, the following resolution was adopted unanimously by members present:

WHEREAS, The Board of Education of Montgomery County is authorized by the Education Article and State Government Article of the Annotated Code of Maryland to conduct certain meetings or portions of its meetings in closed sessions; now therefore be it

Resolved, That the Board of Education of Montgomery County conduct a closed session on July 1, 2013, at approximately 5:00 p.m. to 6:00 p.m. and July 16, 2013, from approximately 9:00 to 10:00 a.m. and approximately 11:30 a.m. to 12:30 p.m. in Room 120 of the Carver Educational Services Center, 850 Hungerford Drive, Rockville, Maryland; and be it further

Resolved, That the Board of Education anticipates that the closed sessions will include a discussion of personnel matters, as permitted under Section 10-508(a)(1) of the State Government Article and Section 4-107(d) of the Education Article; the review and adjudication of appeals in its quasi-judicial capacity; consultation with counsel to obtain legal advice on those appeals, as permitted under Section 10-508(a)(7) of the State Government Article; a discussion of matters constituting an administrative function outside the purview of the Open Meetings Act (Section 10-502(b) of the State Government Article); and the Board will publish more detailed Resolutions for Closed Session when particular topics for discussion are identified; and be it further

Resolved, That these meetings shall continue in closed session until the completion of business.
