

FY 2007 QUESTION NUMBER: 2

QUESTION:

What elementary schools will not have assistant principals in FY 2007? Provide FARMS, educational load and mobility data for those schools.

BUDGET PAGE REFERENCE: 1-8, E-1

ANSWER:

The criteria used to allocate assistant principals to elementary schools are the number of students and the number of professional staff in the school. For FY 2006, assistant principals were assigned to schools with 570 or more students and 40 or more professional staff. The chart below provides the FARMS, educational load, and mobility data for those schools that do not have an assistant principal in FY 2006.

The criteria for assignment of additional assistant principals have not yet been determined for FY 2007. Assistant principals will be assigned to the next 15 elementary schools that meet the criteria.
