

FY 2009 QUESTION NUMBER: 42

QUESTION:

Provide a list of schools, enrollment, number of counselors, and ratio of student to counselor.

BUDGET PAGE REFERENCE: 1-11, 1-22

ANSWER:

Data for number of counselors, enrollment, and student to counselor ratio is provided below for middle and high schools. Ratios do not include ESOL counselors, which are based at the noted school but also serve other schools as needed. Also, the Wootton allocation includes a .5 counselor to support Montgomery College Institute. Counselor allocations are made based on projected enrollment. When actual enrollment differs from projected enrollment, the result is higher and lower ratios at those schools. Counselors are reallocated each year based on changes in school enrollment.
