VisionAid Personal Protective Equipment Wipes

WITH ALCOHOL

Safety Data Sheet

Date of Issue: 02/04/2013  Revision date: according to Regulation (EC) No. 453/2010
05/15/2014 : 06/16/2016
Version: 1.2

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product Identifier

Product form: Mixture
Product name: VisionAid PPE Wipes Contains Alcohol
Product code: 1LPPE200, 1LHW200, RW-100
Synonyms: VisionAid / Radians PPE Wipes
Product group: Consumer use

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Intended for general public

Main use category: Consumer use
Use of the substance/mixture: Cleaner
Function or use category: Cleaning/washing agents and additives

1.2.2. Uses advised against

No additional information available

1.3. Details of the supplier of the safety data sheet

VisionAid, Inc.
11 Kendrick Road
Wareham, MA 02571

T 800-426-1881

www.visionaidinc.com

1.4. Emergency telephone number

Emergency number: 800-268-9017 - Poison Information Center
INFOTRAC
SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation OSHA (29CFR, 1910.1200)

Health Hazards : H303+H313+H333+H320  May be harmful if swallowed, comes in contact with skin or if inhaled.

Physical Hazards : Other Hazards :

Full text of H-phrases: see section 16

Adverse physicochemical, human health and environmental effects

No additional information available

2.2. Label elements

Labelling according to Regulation OSHA (29CFR, 1910.1200)

Hazard pictograms (CLP)

Signal word (CLP)  : Warning
Hazard statements (CLP)  : H320 - Causes eye irritation
Precautionary statements (CLP)  : P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
P337+P313 - If eye irritation persists: Get medical advice/attention

2.3. Other hazards

No additional information available

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable
VisionAid Personal Protective Wipes
Safety Data Sheet according to Regulation OSHA (29CFR, 1910.1200)

3.2. Mixture

Full text of P-, H- phrases: see section 16

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: If medical advice is needed, have product container or label at hand.
First-aid measures after inhalation: If inhaled, remove to fresh air and keep at rest in a position comfortable for breathing. Obtain medical attention if breathing difficulty persists.
First-aid measures after skin contact: Wash skin thoroughly with mild soap and water. Obtain medical attention if irritation develops or persists.
First-aid measures after eye contact: Immediately rinse with water for a prolonged period (at least 15 minutes) while holding the eyelids wide open. Obtain medical attention if irritation develops or persists.
First-aid measures after ingestion: Do not induce vomiting. Seek medical attention if a large amount is swallowed.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries: Causes eye irritation.
Symptoms/injuries after inhalation: Overexposure may be irritating to the respiratory system. In high concentrations may cause narcotic effects. Symptoms may include dizziness, headache, nausea and loss of co-ordination.
Symptoms/injuries after skin contact: May cause mild skin irritation.
Symptoms/injuries after eye contact: Causes eye irritation. Liquid and vapors may cause excess blinking and tear production.
Symptoms/injuries after ingestion: If a large quantity has been ingested: Headache. Nausea. Vomiting. Abdominal pain.
Chronic symptoms: Repeated or prolonged skin contact may cause dermatitis and defatting.
4.3. Indication of any immediate medical attention and special treatment needed
No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media
Suitable extinguishing media: Powder, alcohol-resistant foam, water spray, carbon dioxide (CO₂).
Unsuitable extinguishing media: Do not use a heavy water stream. Use of heavy stream of water may spread fire.

5.2. Special hazards arising from the substance or mixture
Fire hazard: Combustible liquid. Under conditions of fire this material may produce: Carbon dioxide (CO₂), Carbon monoxide.
Explosion hazard: Product is not explosive.
Reactivity: Stable at ambient temperature and under normal conditions of use. Do not heat above 80 °C (176 °F).

5.3. Advice for firefighters
Firefighting instructions: Keep upwind. Do not breathe fumes from fires or vapours from decomposition. Vapours may cause drowsiness and dizziness. Evacuate unnecessary personnel. On heating, there is a risk of bursting due to internal pressure build-up. Cool down the containers exposed to heat with a water spray.
Protection during firefighting: Use normal individual fire protective equipment. Wear full fire-fighting turnout gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Protective equipment: Wear eye protection.
Emergency procedures: Eliminate ignition sources. Stop leak if safe to do so. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams. Evacuate unnecessary personnel. Ventilate area.

6.1.2. For emergency responders No additional information available

6.2. Environmental precautions
Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.

6.3. Methods and material for containment and cleaning up
For containment: Absorb and/or contain spill with inert material, then place in suitable container. Contain any spills with dikes or absorbents to prevent migration and entry into sewers or streams.
Methods for cleaning up: Clean up any spills as soon as possible, using an absorbent material to collect it. For large or bulk quantities, after absorption with inert material, collect spillage by sweeping up spilled material and place in a labeled, sealed container for proper disposal. Use only non-sparking tools. Practice good housekeeping - spillage can be slippery on smooth surface either wet or dry.

6.4. Reference to other sections
For further information refer to section 8: "Exposure controls/personal protection".

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling: Handling large quantities of product: Proper grounding procedures to avoid static electricity should be followed. Keep away from heat and open flame.

Hygiene measures: Handle in accordance with good industrial hygiene and safety procedures. Wash hands thoroughly after handling. Read label before use.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions: Store in a dry, cool and well-ventilated place. Keep container closed when not in use. Store away from direct sunlight or other heat sources. Protect from freezing.

Incompatible materials: Strong oxidizers.

Storage temperature: < 40 °C (< 104 °F)

7.3. Specific end use(s)
Cleaner

SECTION 8: Exposure controls/personal protection

8.1. Exposure Limits
Mixture has no listed exposure limits.

8.2. Appropriate engineering controls
Good mechanical ventilation may be adequate formaintaing airborne concentrations below established exposure limits for large uncontrolled releases. If exposure limits are exceeded and inhaled: use a NOISH approved respirator.

8.3 Individual protection measures and personal protective equipment

General Hygiene: Practice good industrial hygiene. Wash hands before breaks and at the end of the workday. Keep product away from foodstuffs. Wash and launder all contaminated clothing before reuse.

Hand protection: Not required for normal conditions of use.
Eye protection: Not required for normal conditions of use. Skin and body protection: Not required for normal conditions of use.
Respiratory protection: Not required for normal conditions of use. An approved organic vapour respirator/supplied air or self-contained breathing apparatus must be used when vapour concentration exceeds applicable exposure limits. Environmental exposure controls: Ensure adequate ventilation, especially in confined areas. Consumer exposure controls: Not required for normal conditions of use.

**SECTION 9: Physical and chemical properties**

**9.2. Other information**

VOC content: 10 %
**SECTION 10: Stability and reactivity**

**10.1. Reactivity**
Stable at ambient temperature and under normal conditions of use. Do not heat above 80 °C (176 °F).

**10.2. Chemical stability**
Stable at standard temperature and pressure.

**10.3. Possibility of hazardous reactions**
Hazardous polymerization will not occur.

**10.4. Conditions to avoid**
Heat. Open flame.

**10.5. Incompatible materials**
Strong oxidizers.

**10.6. Hazardous decomposition products**
Under conditions of fire this material may produce: Carbon monoxide. Carbon dioxide (CO₂).

12.2. Persistence and degradability

VisionAid Rainbow Lens Cleaner
Persistence and degradability: Product is biodegradable.

12.3. Bioaccumulative potential

VisionAid Rainbow Lens Cleaner
Bioaccumulative potential: Not expected to bioaccumulate.
**12.4. Mobility in soil**
No additional information available

**12.5. Results of PBT and vPvB assessment**
No additional information available

**12.6. Other adverse effects**
No additional information available

**SECTION 13: Disposal considerations**

**13.1. Waste treatment methods**
- Sewage disposal recommendations: Do not dispose of waste into sewer.
- Waste disposal recommendations: Dispose of waste material in accordance with all local, regional, national, and international regulations.
- Additional information: Empty containers may be recycled after cleaning.

**SECTION 14: Transport information**

**14.1. UN number**
No dangerous good in sense of transport regulations.

**14.2. UN proper shipping name**
Not applicable

**14.3. Transport hazard class(es)**
Not applicable

**14.4. Packing group**
Not applicable

**14.5. Environmental hazards**
Other information: No supplementary information available.

**14.6. Special precautions for user**

**14.6.1. Overland transport**
No additional information available
14.6.2. Transport by sea
No additional information available

14.6.3. Air transport
No additional information available

SECTION 15: Regulatory information

15.1. United States Federal Regulations
SARA 302 components: No ingredients are subject to reporting SARA
313 components: Isopropyl Alcohol (CAS: 67-63-0)

15.1.1. Specific State Regulations
Massachusetts Right to Know: Isopropyl Alcohol (CAS: 67-63-0)
New Jersey Right to Know: Isopropyl Alcohol (CAS: 67-63-0)
Pennsylvania Right to Know: Isopropyl Alcohol (CAS: 67-63-0)
California Prop 65 components: This product does not contain any chemicals known to the State of California to cause Cancer, birth defects, or any other reproductive harm.
California ARB classification: Anti-Static Product, Meets California BOV requirements

VOC content: 10%
