Single-Use Accounts
Supplier Overview

Why Carry Receivables Longer Than You Have To?

Single-Use Accounts (SUA) are the fast, easy, convenient way to get paid

As the largest U.S. commercial card bank issuer* and one of the nation’s largest financial institutions, J.P. Morgan has a proven track record and expertise in card payment solutions such as SUA.

SUA is an electronic payment solution that is processed like a credit card, streamlining the payment process for both you and your customers.

Cash is the lifeblood of any business. Accepting SUA payments can help reduce days sales outstanding (DSO), saving you time and money in the process. They’re paperless, and they provide revenue assurance against bad debts. Plus, credit card transactions have been shown to be 31% less costly for suppliers to process.**

How does SUA work?

It’s easy. Each SUA is assigned a unique 16-digit virtual card number, which carries a credit limit equal to the invoice(s) being paid and remains active for a defined time frame.

And, you’ll open the door for additional business as you become a stronger, more strategic partner to your business customers.

How do you enroll?

Start enjoying quick, seamless electronic payments with SUA today. If you already accept credit card payments, contact your customer directly to start receiving SUA payments immediately. If not, to set up an account, contact your merchant bank or our Supplier Support team at (877) 263-5184 or sua.supplier.support@jpmchase.com.
