

Interested in learning more about the Montgomery County Board of Education's updated school-naming policy?

Students, parents/guardians and families, staff, and alumni are invited to attend an information meeting for your school to learn about the Montgomery County Board of Education's updated school-naming policy.

Information sessions are being held in six school communities to inform community members about the updated policy, the research about the school's name, and the process to submit a petition to ask the Board to start the renaming process.

For more information, contact CommunityInput@mcpsmd.org.
