1. **Nonemergency Visits:**

   - **General:**
     - A doctor or other healthcare provider may request nonemergency visits to a student.
     - These visits can be for medical reasons, such as exams or screenings.
     - The student's guardian or legal representative must be notified in advance.
     - Students can opt out of these visits if they choose.

2. **Emergency Visits:**

   - **General:**
     - If a student is in immediate need of medical attention, the school may conduct an emergency examination.
     - This can include exams for lead poisoning or hearing tests.
     - The school must notify the student's guardian or legal representative as soon as possible.

3. **Medical Exams:**

   - **Nonemergency:**
     - Students may be required to undergo medical exams, such as vision or hearing tests.
     - These exams are to determine if a student has any special needs or concerns.
     - Students can request to have a parent or guardian present during these exams.

---

**Example:**

- **Nonemergency Exam:**
  - A student may need to undergo a nonemergency medical exam to determine if they have any vision or hearing issues.
  - The student and their guardian can request to have a parent or guardian present during the exam.
