### Principal's Corner

*By Karen Caroscio*

Spring is around the corner! If you look closely, you can see the buds on the trees and the flowers starting to peek their heads out. Please continue to watch the weather and make sure that your child is dressed appropriately every day. Weather permitting, we take our students outside for recess at every opportunity, so they are physically active. We want our students to be able to focus on their learning in the classroom.

Please ensure the school has your most up-to-date contact information, as well as a phone number for any emergency contacts that you have listed. If you have not been receiving email messages from the school administration, it probably means we do not have an accurate email address on file. You may also want to check the setting to ensure that you have not opted out from receiving emails. In case of an emergency, we want to ensure we can get in touch with you. To make any changes, contact Mrs. Donnellan at [Ruth T Donnellan@mcpsmd.org](mailto:Ruth.T.Donnellan@mcpsmd.org). Or you can make changes directly in the Parent Portal. Speaking of the Parent Portal, MCPS is changing several of their data systems this summer. The Parent Portal will also change. Stay tuned for more information about how to transition to the new system.

We had a great evening of fun at PTA Skate Night on February 1<sup>st</sup>. Many students also enjoyed themselves at the PTA Movie Night on February 21<sup>st</sup>. Thank you to all PTA volunteers who organized and helped out at these events!

The PTA also sponsored a visit by an amazing performer at a school-wide assembly on Feb 14th. Christylez Bacon is a GRAMMY® Nominated Progressive Hip-Hop artist and multi-instrumentalist from Southeast, Washington, DC. Christylez multi-tasks between various instruments such as the West African djembe drum, acoustic guitar, and the human beat-box (oral percussion), all while continuing the oral tradition of storytelling through his lyrics. For more information, visit:

Thank you to the parent volunteers who made this event happen!

- Practice the use of tools create a more equitable and inclusive community.

It would help us greatly in our planning if you would kindly complete this Google form to both rsvp and share your level of knowledge about some of the content before we meet. ### **DATE CHANGE: GRADE 2 COGNITIVE ABILITIES TEST (COGAT®) on MARCH 17**

All MCPS students in Grade 2 will participate in the Cognitive Abilities Test (CogAT®) online test from March 16<sup>th</sup> to March 31<sup>st</sup>. The CogAT® Screener consists of one subtest in each area: Verbal Reasoning, Quantitative Reasoning, and Nonverbal Reasoning.

Cognitive assessments measure developed, not innate, reasoning abilities. The CogAT® assessment can help guide teachers to adapt instruction and provide appropriate critical thinking learning opportunities. CogAT® does not measure factors such as effort, attention, motivation, or work habits.

#### Verbal Reasoning

Measures flexibility, fluency, and adaptability in reasoning with verbal materials and in solving verbal problems. These reasoning abilities play an important role in reading comprehension, critical thinking, writing, and virtually all verbal learning tasks.

#### Quantitative Reasoning

Measures quantitative reasoning skills; flexibility and fluency in working with quantitative symbols and concepts; and the ability to organize, structure, and give meaning to an

unordered set of numerals and mathematical symbols. These reasoning skills are significantly related to problem solving in mathematics and other disciplines.

### Non-Verbal Reasoning

Measures reasoning using geometric shapes and figures. To perform successfully, students must invent strategies for solving new problems. They must be flexible in using these strategies and accurate in implementing them.

CogAT® scores are reported as an age-normed national percentiles. For example, if a student scores at the 60th percentile, the student performed better than 60 percent of students of his/her age, nationally, that took this assessment. For purposes of gifted and talented identification in MCPS, an overall composite score at the 90th percentile or higher is one indicator. Bradley Hills Elementary second grade students will take the CogAT® on **Tuesday, March 17, 2020**.

### **DATE CHANGE: MARYLAND INTEGRATED SCIENCE ASSESSMENT (MISA) ON MARCH 23 & 24**

---

Each year, fifth grade students are required to take a state science assessment. This year, students will take the Maryland Integrated Science Assessment (MISA) online. This assessment will test knowledge of scientific processes, data analysis, and instructional content. The assessment consists of four sessions. Each session is forty minutes in length. The Maryland State Department of Education (MSDE) changed the testing window. Therefore, our fifth grade students will take the test on **March 23<sup>rd</sup> and 24<sup>th</sup>**. There is no opt out option on this assessment.

### **2020 MARYLAND SCHOOL SURVEY FOR GRADE 5 STUDENTS IN MARCH**

---

Maryland requires that all public schools survey students about school climate. Last year the Maryland School Survey was administered with great success and data has been shared with schools. The purpose of the survey is to gain valuable information about the quality and character of each school's learning environment so that schools can promote a climate that supports student learning.

Students will take the survey during regular school hours on **March 27, 2020**. The survey will take about 30 minutes and will ask students about topics such as student engagement, interactions with adults and with other students in the school, the school environment, bullying, and safety. The survey will not ask about a student's personal experiences and students will not be asked to provide any information that might violate his or her privacy.

The survey is confidential and school personnel will not have access to the responses of specific students. The responses your child provides will be combined with the responses from other students in the school, and results will be reported for each school and district.

If you have any questions about this survey, please contact Ms. Cho at [EunHee\\_Cho@mcpsmd.org](mailto:EunHee_Cho@mcpsmd.org).
