A Look Ahead...

May 2017

This month...

Reading

This month in reading we will be focusing on informational text. We will continue to learn how to utilize the text features to deepen our understanding of the text.

Writing

In writing, we will start our inquiry project. During this project we will research an accomplished individual, identify an accomplishment of our own and finally compare our accomplishments with our famous individual's accomplishment. We will use the lenses of motivation, effort and persistence to compare our accomplishments.

Math

In math, we will be adding 3 digit to 3 digit numbers within 1000 by composing a ten or a hundred. We'll be using concrete models, place value strategies and the written method to solve our equations.

We are continuing to practice basic addition and subtraction facts.

Science

We will continue to study our organisms. We are currently raising butterfly and brine shrimp. The students are enjoying watching them grow!

Social Studies

This month we are learning about history. We are analyzing historical documents and learning about leaders that have helped to shape our society.

Reminders:

- Continue to send in Box Tops to support CMES.
- Please remember to send in your child's field trip money.

Important Dates:

- May 15, 16- MAP-P testing
