Math

This month students will be studying multiplication of multi digit numbers using place value. During this time, students will learn a variety of strategies to ensure success. After this unit students will be solving measurement conversions word problems involving; inches, feet, and yards.

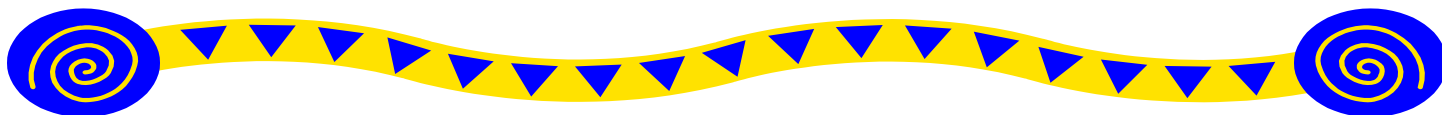

Reading and Writing

Reading—We will focus on a variety of fictional texts in November. Students will be working closely with these books to determine character traits. Along with this, they will be describing the character in depth, determining a theme, and supporting their theme with details from the text.

Writing— Students are going to be working on an inquiry project in which they develop a club for their school. During this project, students will research all the aspects of running a club/business. Students will then propose their club to Dr. Joseph.

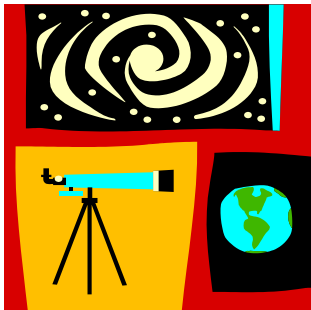

S.S. and Science

Students are continuing their study in Social Studies to start the month focusing on economics and European Explorers, such as Christopher Columbus, Amerigo Vespucci, and Ferdinand Magellan.

Science continues with observations of our Eco columns including what harm pollutants have on the Eco columns. Students will take that learning and translate it to real world problem solving.

Reminders:

- Lunch \$\$ for Accounts
- Sign up for Parent/Teacher Conferences.
- Please have students attempt all problems on Math Homework.

Cougars of the Month

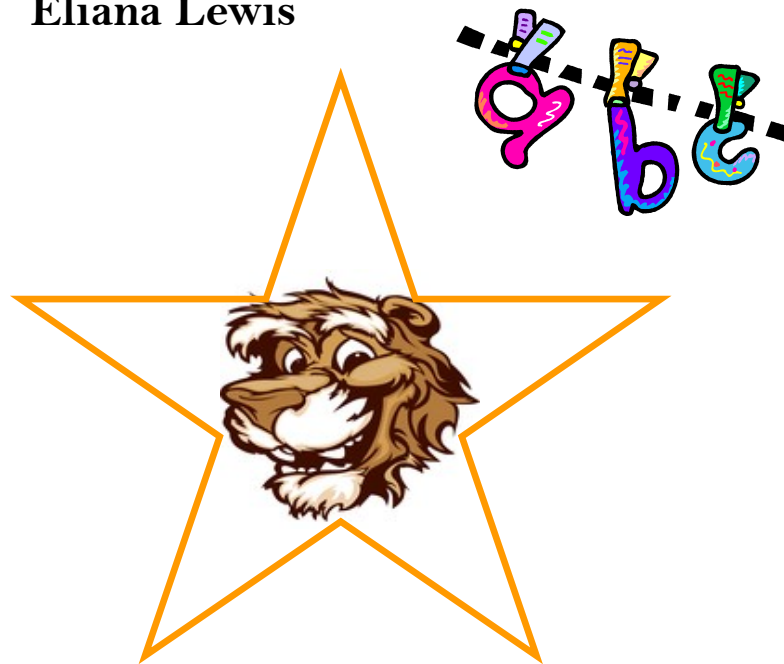

Congratulations to the following 4th graders for showing excellence in following their ABCs:

Stephanie Montano

Lois-Eva Kwarteng

Veronica Barrillas

Eliana Lewis

Important Dates:

- November 7- No School
- November 8- No School
- November 10-11—1/2 Day (Conferences)
- November 21- In School Field Trip (Storm Track 7)
- November 23—1/2 Day
