

# Connect Your Child...

.....  
*to adventure, exploration, excitement!*

School Year 2016–2017

We are delighted to continue Library Link, a partnership between Montgomery County Public Schools and Montgomery County Public Libraries, to give a library card to every student to use at any branch of Montgomery County Public Libraries.

Library Link is part of a national initiative to provide students with access to a wide range of materials and resources available through our public libraries. Since 2015, this partnership has provided more than 13,000 library cards to elementary students, allowing them to extend their learning beyond the school day. With a FREE library card, your child will be able to check out books and materials, attend free programs, use computers for homework help, search for books and movies, or learn a language. Library Link is your student's connection to adventure, exploration, and excitement!

Additional program details are included with this message. Please visit the library to make sure your child can get connected to keep on learning. Reading is the gateway to acquiring knowledge and opens doors to a host of opportunities!

Sincerely,

Jack R. Smith, Ph.D.  
Superintendent  
Montgomery County Public Schools

B. Parker Hamilton  
Director  
Montgomery County Public Libraries
