

## **Artfully Speaking**

**By Margaret Gearin**

**Bountiful thanks to the creative crew of Highland View consisting of 400+ studious student artists, along with the colorful community of families filled with special spirit and the stupendous staff with their contributions and sponsorships, all nestled together with their eagle eyes focusing towards the successful soaring completion of the “Art to Remember” annual fundraiser featuring beautiful Butterflies.**

**As the flying high trio, Jenny Stavros-Turner, Lyle Turner and Lori Love of the PTA, have spread their wings to encompass coordinating our school fundraiser, they have artfully glided through the nuances of this exciting endeavor.**

**Observe the beauty of these multi-patterned pictures featuring fluttering butterflies in flight, as if truly floating above near the Tree Tops of Highland View Hill, made by the hands and hearts of our young artists.**

**Enjoy Art!**
