

We are super excited to do virtual media this school year!!

We will be learning keyboarding skills. We will be working with Google applications. We will be using Nearpod and other educational technology to create projects and we will also be having fun with Maker!!

TYPE YOUR NAME HERE

The only way to
eat a “Dragon” is
one Byte at a
time.

The background features a series of overlapping, semi-transparent shapes in shades of orange, peach, and light red. These shapes are layered to create a sense of depth and movement, resembling stylized, flowing forms or perhaps abstract representations of data or technology. The overall aesthetic is modern and clean.

We will be offering
“bytes” of information to
increase students’
technology skills. This
information can be found
in the Virtual Media link
on Canvas.
