

The Bethesda-Chevy Chase High School Educational Foundation

How do we ensure a world-class education for all students at B-CC?

Academic excellence.
College and career readiness.
Empowered teachers.

The B-CC High School Educational Foundation is an all-volunteer organization that funds high-need, high-impact academic programs to drive student success across our entire school.

The effects of the Covid-19 pandemic continue to underscore the urgency of the Foundation's mission – ensuring that *all* of our students have the academic skills they need to succeed. We continue to work hand-in-hand with B-CC educators to offset learning loss, intensify our efforts to create equitable pathways to success, and celebrate the diversity in our school community.

The Foundation funds programs to boost academic success for all B-CC students. Recent programming highlights include:

- **Virtual Tutor:** Online tutoring, in partnership with Prep Matters, supports students missing classes due to Covid-19 quarantines
- **Project Lead the Way:** STEM programming particularly encourages girls and students of color to explore engineering pathways
- **CollegeTracks:** Supports first generation college-bound students
- **AP/IB/TOEFL Support:** Expands access to more students by covering program fees
- **Professional Development:** Underwrites teacher grants to attract and retain the best faculty

PLEASE DONATE TODAY!

Join the generous parents, alumni, community members, and local business leaders who recognize the critical role of an exceptional public high school.
