Office of School Support and Improvement
Montgomery County Public Schools, MD
### What will the focus of your work be?

#### Professional Learning on the Standards

Teachers will engage in professional learning to unpack, teach and assess the following standards:

- Teachers need to be able to identify the CCSS of concern from last year's data (PARCC, Progress checks, and County formatives).
- Teachers will be able to create lower level entry points and methods for increasing academic vocabulary for lessons/concepts that address these CCSS identified as areas of concern.
- CCSS.ELA-LITERACY.W.9-12.9
  
  Draw evidence from literary or informational texts to support analysis, reflection, and research.

In order to understand the breakdown of drawing evidence to support claims and provide appropriate scaffolding, differentiation and modeling strategies.

As a result of professional learning related to standard, teachers will:

- use data of informal and formal assessments to make decisions on the instructional approaches that will be taken in the classroom.
- analyze student performance and monitoring progress on skills related to the task.

**TSI Approaches include:**

- Embedded /aligned with above CCSS

#### Analyzing Data to Inform Instruction

In order to make data-driven decisions in planning, teachers will engage in school-wide professional learning to retrieve, analyze and plan for instruction using EOL data.

Teachers will retrieve and analyze district EOL assessment data in order to develop and implement classroom instruction that addresses student needs.

<table>
<thead>
<tr>
<th>MP</th>
<th>Teachers will be able to...</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>access EOL data (<em>end of year and transition</em>) from Performance Matters for focus group students in their classes.</td>
</tr>
<tr>
<td>2</td>
<td>analyze EOL data to determine student skill needs/deficits from Performance Matters for focus group students in their classes.</td>
</tr>
<tr>
<td>3</td>
<td>plan and implement instruction based on the identified skill needs/deficits of our focus students using EOL Transition data.</td>
</tr>
<tr>
<td>4</td>
<td>evaluate assessments and academic progress to determine student growth in their classes and determine the effectiveness of instructional decisions and interventions used.</td>
</tr>
</tbody>
</table>

**TSI Approaches include:**

- Ongoing analysis of student data with TSI Focus Groups as a lens for examining EOL and attendance data
In order to meet the needs of the focus students and plan for and provide a more culturally responsive learning environment, teachers will engage in professional learning around Deficit Thinking and Implicit Bias.

Teachers will have created a more equitable learning environment as a result of being able to identify and interrupt deficit thinking and implicit bias using a variety of reflection and accountability tools.

<table>
<thead>
<tr>
<th>MP</th>
<th>Teachers will be able to...</th>
</tr>
</thead>
</table>
| 1  | ● explain how Implicit and explicit bias are similar and different  
    ● anticipate possible points of implicit bias when planning. |
| 2  | ● explain how Implicit and explicit bias are similar and different  
    ● anticipate possible points of implicit bias when planning. |
| 3  | ● understand the ladder of accountability as a means to address/interrupt deficit thinking  
    ● use the ladder of accountability as a means to address/interrupt deficit thinking when analyzing student data and planning for instruction |
| 4  | ● gather data on the impact of Equal Opportunity Schools Program  
    ● use classroom student voice data, reflect on changes in practice when planning and facilitating instruction |

TSI Approaches include:
- Deepen learning around Implicit Bias and deficit thinking, gathering TSI focus group data specifically about the impact on students in their learning

---

### Staff Climate Survey Summary:

<table>
<thead>
<tr>
<th>Strengths</th>
<th>Areas of Focus</th>
</tr>
</thead>
</table>
| ● I have opportunities for professional growth.  
● We have the necessary resources to do our work  
● My school promotes a culture of respect for all students.  
● Staff in this school are committed to using a variety of methods to help every student succeed. | ● Positive staff morale  
● My school leadership team fosters a collaborative work environment.  
● The school leadership involves me in decisions affecting my work.  
● There is open communication within my school.  
● My school recognizes staff for their quality work and accomplishments. |

In order to build a positive school climate and culture, all Clarksburg High School stakeholders will implement mindfulness, tolerance, acceptance, empathy, and meaningful community relationships.
In order to meet the well-being of students, staff and families, the following SCHOOL-WIDE programs will be implemented:

- Fall Take Your Child to Work Day.
- All Stakeholders are invited to participate in our Clarksburg Sports Association Community Night.
- Students & Staff will participate in Clarksburg Day.
- All stakeholders are invited to attend/participate in the Harlem Wizards community game.
- Personal Body Safety Lessons
- Signs of Suicide
- Study Circles
- Community Circles
- Mental Health Minute *(Advisory)*
- Sneakers Group
- Mental Health Week
- The Staff Clarksburg Community Team
- Staff appreciation for athletic teams
- Lunch time fun and game between students and staff

In order to meet the well-being of focus students and families, while promoting BeWell365 teachers will engage in professional learning in order to:

- Promote positive character development and empathy
- Effectively implement restorative practices
- Improve physical health and wellness
- Improve mental and emotional health and wellness
- Create culturally responsive relationships

TSI Approaches include:

- Analyze engagement and achievement student data of TSI Focus Groups
