

## Announcements 11-18-22

- Welcome to our celebration of Native American Month\*\*\* and National French Week! The purpose of National French Week is to increase our community's understanding and appreciation of the francophone world by finding interesting and entertaining ways of looking at how French touches our lives. It's also a chance to learn about the dozens of countries and millions of people who speak this beautiful language. So complete your week with culture, fine french food. Celebrate
- In the continuation of our celebration of Native American History, today we honor the Susquehannock people, also called the Conestoga by some English settlers or Andastes. They lived in areas adjacent to the Susquehanna River and its creeks, ranging from its upper reaches in the southern part of what is now New York through eastern and central Pennsylvania west of the Poconos and the upper Delaware River. The Susquehannock society was a confederacy of up to 20 smaller tribes, who occupied scattered villages along the Susquehanna River. They remained independent and not part of any other confederacy into the 1670s. Ultimately, they were not strong enough to withstand the competition from colonists and other nations in their piece of the so-called Beaver Wars of that century. They were defeated and forced to resettle. They moved to regions in New York, Pennsylvania, and Maryland. That was our moment in Native American History.
