GRAPHIC DESIGN
Introduction to Graphic Communications
LEVEL 1

Combining a love of traditional art, design, and industry-standard computer application skills while learning about today’s print and digital marketing world.

In this college level course, students will be given challenging real-world projects and assignments typical of the graphic communications field with a focus on theory, the creative process, technical skills, and work place preparedness.

Students learn the latest in digital imagery, graphic design, print, digital media, and production skills including industry-standard photo editing, presentation, illustration & drawing, multimedia, & web design software packages.

Classroom and lab activities will include a variety of hands-on laboratory experiences, class discussions and critiques, open-ended problem solving, work-based learning and project-based learning.

Students will be required to draw upon academic skills in the areas of mathematics, science, language arts and technology.
