# Additional Information

After you login you should be able to see your assignment:

Summer Packet

This assignment focuses on ten skills that will be important in the first semester of Precalculus. You should strive to get three questions right on each skill before moving on, you have seen this material before but can always utilize the hints within the program or outside video sources to help refresh your memory. We look forward to working with you next year! - Ms. Engelmann and Mr. Gruenspecht
