

## Loiederman MS Hosts Family STEAM Night

[Click here to watch the video.](#)

April 7 was STEAM night at A. Mario Loiederman Middle School in Silver Spring. Families filled the school to see science presentations that show what students have learned in classes. Scientists from NASA and local businesses offered fun, hands-on activities for students of all ages to enjoy. The goal of STEAM night is to enlighten students and parents about degrees and careers in science, technology, engineering, art, and math.
