## Studying Tips for High School Students

Review and Re-write
Each day, during study hall or after school, go through the notes from that day. Re-write them and highlight, underline, or circle the key points.

Make Study Cards
At the end of each week, make study cards of the important things you learned in each class for that week, and briefly quiz yourself on them. This way, when it gets closer to test time, you will not be in a rush to make study cards for the entire unit.

Find a Quiet Study Area
Whether you prefer the library, or a shady spot under a tree, find a place where you will not be distracted while you study. Avoid studying in bed, or on a couch, where you may be tempted to take a nap.
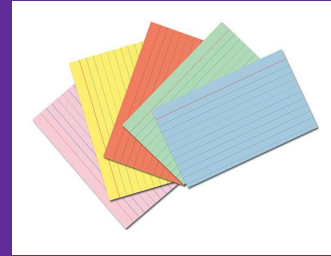

Take Breaks
Set a timer for 30-45 minutes, and study non-stop for that length of time. When the timer goes off, take a 5-10 minute break before returning to studying. Every 3-4 hours, take a 30 minute break to eat, drink, or take a quick walk.

It's okay to not know, but it's not okay to not try.

Highlight: Use different color highlighters to organize information and thoughts

Work Study Habits that Help

-Organize your binder (even in virtual learning)
-Listen carefully to Instructions/Directions
-Use agenda book- write down all important dates or create a To-Do-List in Google Docs
-Ask questions in class (verbally or in chat)
-Do homework/assignments everyday (no procrastination)

-Turn your camera on- when we see each other we learn better; teachers can help more too.
-Go to Wednesday Check-ins and FSI
-Make a study schedule
-Study 3 days in advance- take breaks
-Use a timer to keep track of how much time you spend on each class
-Reward yourself
