All About Me!

You will be creating a web page about yourself. This page will change throughout the rotation as you learn new skills. Each activity will be graded (10 points per activity).

Activity 1:
1. Create a basic page that includes:
   - A heading (your title)
   - A brief bio (paragraph or two) about yourself.
   - A background color
   - Text Formatting

Activity 2:
1. Add the following to your page:
   - A list of hobbies (numbered or bulleted)
   - A list of your favorite (appropriate) links
   - A list of links to your assignments:
     - Design Tips
     - Site Reviews
     - HTML Table
     - Dreamweaver Table
2. Label each list with a title

Activity 3:
1. Create Anchors for each titled section of your page as well as back to the top of the page. Your navigational anchors for the titles should be located at the TOP of the page.

Activity 4:
1. Add the following to your page:
   - An image that represents you in some way (near your heading)
2. Create a footer with the following information:
   - Include contact information
   - Copyright
   - Last updated (use code given to you by teacher)
3. Use a HR to separate your footer from the rest of the page

Activity 5:
1. Create a logo in Adobe Photoshop to replace your heading and image
2. Add logo to your page.
3. Change background from a bgcolor to an image (can create in Photoshop).

Activity 6:
1. Reorganize the body of your page using a table. Make sure that all lists still have titles. Do NOT include footer.

Activity 7:
1. Cite all web resources you used to collect graphics and information.
2. Add a Java Script or Applet to your page (i.e. scrolling banner, date change, etc.)

All About Me!
Rubric

Category	Description	Points earned
Content & Design *Total Points=10*	Amount of effort that went into final design of web page. Final design was aesthetically pleasing. Background and text colors and styles blended well, making it easy to read.	
Requirements *Total Points=10*	All requirements listed on page one were included.	
Links *Total Points=10*	All links were in working order.	
Anchors *Total Points=10*	All anchors took viewer back to intended area. Top anchor included.	
Lists *Total Points=10*	All numbered or unnumbered lists were indented appropriately and there were no "hanging" bullets.	
Organization *Total Points=10*	Page was well organized using a table.	
HTML *Total Points=10*	All coding was done correctly. There were no extra tags and all tags were closed.	
Scripts *Total Points=10*	All java script and applets are in working order. They do not detract from the final page.	
Spelling & Grammar *Total Points=10*	Spelling and Grammar met middle school standards.	
Logo *Total Points=10*	Logo was well made and reflected personality of the creator. Colors and images blended well with design of web page. Logo stood out.
