Design Tips

You will need to research good web design. Make notes (on the back of this sheet) that highlight what you think are the most important design tips and the mistakes you should stay away from. Use the websites provided to create a webpage (using HTML code in Notepad) that includes the following:

- 5 good design tips (and why they are important)
- 5 mistakes people make (and why they are mistakes)

Your web page should include an example of the following skills:

- **Headline Tags** (for the TITLE of your page, and to make the subtitles [i.e. Good Web Design Tips and Mistakes People Make] stand out)
- **Page Title and Description** (in the <Head>)
- **2 Links** (to websites that discuss web design-put them at the bottom of your page, under your subtitles or within the text; where ever you think they best fit)**---If you need to change the link colors to complement your background, do so!**
- **Background color** (can use an image as your background)**---Make sure to ADHERE to good web design!**
- **1 image** (somewhere near the title of your page)
- **Different text formatting** (style, size, color) **---Make sure to ADHERE to good web design!**

Site Reviews

Using Dreamweaver, create a website review page that includes 2 reviews (use links in chart on projects page as your guide to selecting the sites to review). There is an example link to site reviews that you will need to use as a guide as you create your own.

Include the following information when reviewing your links (the information listed should be your subtitles):

- URL
- Intended Audience (be specific-how do you know this?)
- Purpose/Objective (what is the objective? Are they meeting it? Why or why not?)
- Summary of Site (general description of site)
- Positive Points of the Site (use a numbered list)
- Negative Points of the Site (use a numbered list)

Make sure to point out good and bad website design issues in your positives and negatives; also give information on navigation...

Include a footer with contact information and last modified date.

Include the following skills in your page:

<ul style="list-style-type: none">• Headline Tags (for title and subtitles)• Anchors (top anchor and an anchor to each site)• A Horizontal Rule (<HR>)	<ul style="list-style-type: none">• Link to each site reviewed• Good web design (color and formatting)• <Head> Title and Description
